MEDNARODNI FESTIVAL ANIMIRANEGA FILMA ANIMATEKA 2006

INTERNATIONAL ANIMATION FILM FESTIVAL ANIMATEKA 2006

Tretja edicija Mednarodnega festivala animiranega filma Animateka je pripravljena. Ostane nam samo še zadnji akt, ko bodo po več mesecih organizacijskih priprav platno ljubljanskega Kinodvora preplavile animirane podobe. Za dodatno praznično vzdušje festivala bo letos poskrbel norveški stripovski avtor in ilustrator Lars Fiske, ki bo Kinodvor uporabil kot razstavni prostor za svoje živopisane »statične animacije«.

Filmski festival potrebuje približno pet let, da požene dovolj globoke korenine, ki ga bodo obdržale pri življenju pred možnimi kulturnopolitičnimi pozebami ali viharji. Animateka se je v tretjem letu obstoja iz neobjojenega kalčka že spremenila v zdravo sadiko, ki vzbuja občudovanje tako v lokalnem kot tudi v mednarodnem prostoru. Ob publiki je festival sprejela tudi domača strokovna in medijska javnost, dodatno spodbudo pa pomeni tudi podpora sorodnih tujih festivalov. Z letošnjimi gostovanji v Bratislavni, New Yorku, na Taboru in v Karlovin Varih smo dokazali svojo mednarodno relevantnost in potrdili začetno vizijo festivala, ki se pospešeno razvija v referenčni regionalni festival avtorskega animiranega filma. Za uspeh si štejemo tudi finančno in moralno podporo tujih kulturnih inštitutov in veleposlaništev. Kljub temu pa boj za obstanek še zdaleč ni končan. Brez podpore na lokalni ravni je vsak festival obsojen na stihijo in iskanje improviziranih rešitev. Zato smo v prvi vrsti veseli podpore s strani Mestne občine Ljubljana, ki je letos prepoznaла pomembno vlogo festivala Animateka in mu prvič namenila zadovoljiva finančna sredstva. Upamo, da se bo z regionalizacijo Slovenije finančna podpora festivalu postopoma še povečevala. Z letošnjim letom se je zgodila tudi pozitivna sprememba pri Filmskem skladu RS, ki je občutno povišal sredstva, namenjena sofinanciranju filmskih festivalov, in Animateki ponovno izkazal zaupanje. Mednarodni festival animiranega filma Animateka je s tretjo edicijo dobil tudi novega generalnega pokrovitelja. S podjetjem Nokia smo se podali v poseben »ustvarjalni iziv«, ki obe strani združuje v kreativnem iskanju stičnih točk med umetnostjo in tehnologijo. Nokia je tudi pokrovitelj nagrade občinstva.

The third edition of the International Animation Film Festival Animateka is ready and set to go. After months of organizational efforts all that is left to do now is to wait for the animated images to take over the screen of the Kinodvor cinema theatre. This year the festival festivities will be embellished by the Norwegian comic artist and illustrator Lars Fiske, who will use the Kinodvor venue as an exhibition space for his colourful "static animations".

A film festival usually requires about five years to consolidate itself and secure its place against potential cultural and political storms or droughts. In three years Animateka has grown from a frail sprout into a budding sapling, spawning admiration both locally, as well as internationally. The audience's acceptance of the festival is boosted by its acknowledgment by Slovenian expert opinion and media recognition as well as support from related festivals abroad. This year's tour of the Animateka programme in Bratislava, New York, Tabor and Karlov Vary confirms the international significance of the festival and validates our initial ambition to develop a referential regional festival of animated art film. We are further encouraged by the financial and moral support from foreign cultural institutes and embassies. Nevertheless, our struggle for survival is far from having been won. Without support at the local level, every festival is exposed to uncontrollable forces and a constant search for improvised solutions. We are therefore delighted to have received the support of the Municipality of Ljubljana, which finally acknowledged the importance of Animateka for the city and earmarked a reasonable amount of funds for the festival. We hope the process of regionalization in Slovenia will result in a steady increase of available funds. This year also brought a positive development on the side of the Slovenian Film Fund, which significantly increased the funds allocated for the co-financing of film festivals and yet again generously expressed its confidence in Animateka. The third edition of the International Animation Film Festival Animateka brought with it a new general sponsor. Together with Nokia we are embarking on a new "creative challenge", bringing together

In kakšen bo program letošnje Animateke?

Lanskoletna mednarodna žirija je s podelitvijo glavne nagrade poljski študentki Marti Pajek potrdila festivalsko usmeritev predstavljanja študentskih, neodvisnih in profesionalnih filmov v enotnem tekmovalnem sporedu. V **tekmovalni deli programa** se je skozi selekcjsko sito letos prebilo 52 avtorskih animiranih filmov iz Srednje in Vzhodne Evrope. Med temi so tako zmagovalci prestižnih mednarodnih festivalov kot tudi diplomski filmi in prvenci. Čeprav so narejeni v različnih tehnikah, z različnimi proračuni in tehničnimi sredstvi, si upam trdit, da se prav vsak izmed njih ponaša s samosvojim avtorskim pristopom in estetskim sporočilom. Zaradi velikega števila prijavljenih filmov smo letos uvedli tudi netekmovalno sekcijo **Panorama**, v kateri predstavljamo 23 filmov. Vsak festivalski dan se bomo v predverju Kinodvora pogovarjali z gostujočimi avtorji (pričakujemo jih približno 40). Na ta način bomo avtorje približali občinstvu in novinarjem, predvsem pa bomo izvedeli več o njihovih pogojih za delo, osebnih vizijsih, načrtih in o stanju produkcije animiranega filma v srednji in vzhodni Evropi.

Mednarodna žirija – ki jo sestavlajo **Annick Teninge**, Francija (vodja šole za animirani film La Poudrière); **Patrick Smith**, ZDA (avtor animiranih filmov); **Lars Fiske**, Norveška (avtor stripov, ilustrator); **Joachim Kreck**, Nemčija (direktor festivala Wiesbaden Animation Film Festival); **Jan Stehlík**, Češka (programski direktor mednarodnega festivala Študentskih filmov Fresh Film Fest) – bo poleg Svet filma Kodak nagrade žirije podelila tudi nagrado za najboljši študentski film ali prvenec. Žiranti bodo v spremljevalnem programu predstavili animirane filme šol ter festivalov, ki jih predstavljajo. Ob **retrospektivi filmov Patricka Smitha** pa avtor predstavil tudi program neodvisnih ustvarjalcev animiranih filmov iz New Yorka, Joachim Kreck pa je sestavil **retrospektivni pregled sodobnega nemškega animiranega filma**.

both sides in an inspired search for intersections between art and technology. Nokia is also the sponsor of the Audience Award.

And what is in store in this year's Animateka programme?

Last years Jury Grand Prix Award to the Polish student Marta Pajek reinforced the festival's guideline on presenting student, independent and professional films in a unified competition programme. This year's **competition programme** consists of a selection of 52 animated films from Central and Eastern Europe. They include winners of prestigious international festivals as well as student films and film debuts. Although they use different techniques, a range of budgets and technical equipment, each of them demonstrates a unique authorial approach and aesthetic message. Because of the great number of submitted films this year, we established the non-competition section **Panorama**, which will screen 23 films. Every day of the festival the Kinodvor lobby will be the setting for talks with guest artists – we expect around 40 of them. This will allow greater access to the audience and the media and give us an opportunity to learn about their artist's working conditions, personal visions, plans and the general state of animated film production in Central and Eastern Europe.

The international jury is composed by **Annick Teninge**, France (director of La Poudrière school for animated film); **Patrick Smith**, USA (author of animated films); **Lars Fiske**, Norway (comic artist, illustrator); **Joachim Kreck**, Germany (director of the Wiesbaden Animation Film Festival); **Jan Stehlík**, Czech Republic (Programme director of the International student film festival Fresh Film Fest) and will award the World Of Movie Kodak Grand Prix as well as an award for best student film or debut. The jury members will also present special programmes introducing the animated film production and programmes of their respective schools and festivals. **Patrick Smith's retrospective** will be accompanied by a special programme of animation films from independent New York

Z letošnjo edicijo uvajamo nekaj programskih novosti. V programu **Svetovni jagodni izbor** bomo predstavili najboljše sodobne kratkometražne animirane filme iz držav, ki ne morejo sodelovati v tekmovalnem programu. Ta program je še posebej pomemben, ker pri nas v zadnjih letih ni mogoče slediti razvoju svetovnega avtorskega animiranega filma. Slovenska publiká je prikrajsana za kakovostne animirane filmske užitke, zato smo se odločili, da na enem mestu zberemo najboljše med najboljšimi.

Druga letošnja novost je program **animiranih filmov o človekovih pravicah**. Namen programa je prek izbranih animiranih filmov predstaviti osnovna načela človekovih pravic. Vstop na vse projekcije programu animiranih filmov o človekovih pravicah bo brezplačen.

Za vse nočne ptice, ki v animiranem filmu iščejo predvsem politično nekorektno in estetsko mejne vsebine, smo pripravili program **Polnočne alternative**.

Črni humor, eksplicitni spolni prizori in podobne bizarnosti bodo na ogled tudi v programu **Avoid Eye Contact: newyorška neodvisna animacija**, ki ga bo predstavil žirant Patrick Smith.

Na svoj račun bodo prišli tudi ljubitelji **animiranih celovečernih filmov**. V začasno distribucijo prihaja velika francoška uspešnica **Prerokba žab** (*La prophétie des grenouilles*) režiserja Jacques-Rémyja Girarda v produkciji slavnega studia Folimage. Drugi celovečerni animirani film **Fimfarum 2** je omnibus štirih čeških avtorjev, ki na sodoben likovni način promovirajo najboljšo tradicijo češkega animiranega filma – animacijo lutk.

Sestavni del festivala je od lanskega leta tudi vzgojno-izobraževalni program animiranih filmov za otroke, imenovan **Slon**. Projekt je sestavljen iz vzgojno-izobraževalnega dela in projekcij animiranih filmov, ki vzgojno-izobraževalni del nadgrajujejo. Pripravljamo seminar in animiran film za učitelje osnovnih in srednjih šol, prav njim pa je namenjeno tudi novo pedagoško gradivo, ki pomaga animirani film skupaj z letošnjim programom približati tudi učencem. Filmski program obsega tri projekcije kratkometražnih animiranih filmov s celega sveta in projekcije celovečerca **Prerok-**

authors, while Joachim Kreck has prepared a selection of **contemporary German animated films**.

This year's festival brings other programme innovations as well. The **Best of the Rest** programme will introduce short animated films from countries that cannot participate in the competition programme. This section is particularly important because it represents a rare opportunity to get up to date on the evolution of animation film production in the rest of the world. Because the Slovenian audience has been deprived of this opportunity, we have decided to select and present the best of the best of this production.

The second innovation is the section of **Animation Films on Human Rights**. The programme aims to introduce basic human rights principles through a selection of animated films. Entry to all screenings from the animated films on human rights programme is free.

For all the nocturnal beasts among you, looking for politically incorrect and aesthetically borderline animated films, we have prepared the **Midnight Underground Special** programme. Black humour, sexual explicitness and similarly bizarre scenes will also be rife in the **Avoid Eye Contact: New York Independent Animation** programme, presented by Patrick Smith.

Fans of animated feature-length films will not be left wanting. The French smash hit **Raining Cats and Frogs** (*La prophétie des grenouilles*) directed by Jacques-Rémy Girerd and produced by the renowned Folimage studio will be in temporary distribution during the festival. **Fimfarum 2**, the second full-length animated film featured at the festival, is an omnibus of four Czech authors taking a modern artistic approach in promoting the best traditions of Czech animated film – puppet animation. Since last year, the festival also features an educational animated film programme for children: **The Elephant**. The programme combines pedagogical and educational content with animated film projections. We are also organizing a seminar on animated film

ba žab. Nanje vabimo tako otroke s starši kot šole iz Ljubljane in okolice.

V sklopu mednarodnega festivala animiranega filma Animateka že od leta 2005 v spremjevalnem programu predstavljamo kratkometražno filmsko produkcijo nordijskih držav (Danska, Finska, Švedska, Norveška, Islandija). Na festivalu želimo vsako leto podrobno predstaviti kratkometražno produkcijo nove nordijske države. Letos v sodelovanju z Norveškim filmskim inštitutom ponujamo na ogled program **sodobnih norveških kratkometražnih dokumentarnih, igranih in eksperimentalnih filmov ter zgodovinsko retrospektivo norveških animiranih filmov**, ob tem pa še izbor **sodobne produkcije animiranih filmov nordijskih držav**.

Animateka 2006 se bo zaključila s koncertom ljubljanske skupine **Srečna mladina**. Z angažiranjem Srečne mladine postavljamo novo festivalsko vsebino, saj bo koncert v živo odigran na pripravljeno animirano vizualno podobo mladih slovenskih vizualnih umetnikov in umetnic.

Upam, da bo na maratonski tretji ediciji Mednarodnega festivala animiranega filma Animateka 2006 vsakdo našel program za svoj okus. Vsem želim obilo animacijskih užitkov, tako v kinodvorani kot na po festivalskih druženjih z našimi gosti in ekipo festivala.

for primary and secondary school teachers, and have prepared pedagogical notes to help their students gain a better appreciation of animated film and this year's programme. The programme will consist of three screenings of short animated films from around the world and screenings of the feature film **Raining Cats and Frogs**. Parents and their children are warmly invited to these screenings as are schools from Ljubljana and the surrounding area.

Since 2005 the International Animation Film Festival Animateka includes a special programme of short animation film production from Scandinavia, covering one country every year (Denmark, Finland, Sweden, Norway, Island). The festival plans to focus on a different country every year and give a comprehensive review of its short animation film production. With the cooperation of the Norwegian Film Institute, this year's special programmes will introduce **Contemporary Norwegian short documentary, experimental and fiction films**, a **Retrospective of Norwegian animation film** as well as a selection of **Contemporary Nordic animation films**.

Animateka 2006 will conclude with the concert of **Srečna mladina** from Ljubljana. By engaging these musicians, we wish to expand the festival concept by having the band play live to an animated visual background created by young visual artists from Slovenia.

I hope everyone will be able to find programmes to suit their tastes in this third, marathon edition of the International Animation Film Festival Animateka 2006. I wish everyone plenty of animation enjoyment – both inside the cinema theatre as well as outside at the post-screening mingling with our guests and the festival crew.

ŽIRIJA JURY

Lars Fiske – rezidenčni umetnik ANIMATEKE 2006 (Norveška)

Lars Fiske (1966) živi in ustvarja v Oslo na Norveškem. Študiral je grafično oblikovanje in ilustracijo na Konstfackskolan in Stockholm (1988–1992), nato pa se je posvetil specjalističnemu študiju ilustracije na šoli Otis/Parson v Los Angelesu.

Fiske je objavil številne slike in stripovske albume na Norveškem ter delal kot ilustrator za največje skandinavske časopise in revije. Kot komercialni umetnik je oblikoval vse od embalaže za mleko do naslovnic knjig. Stripe izdaja pri vodilni norveški alternativni založbi No Comprendo Press. Njegov najnovješji stripovski projekt o nemškem avantgardnem umetniku Kurtu Schwittersu, ki je radikalno pretresel umetniško sceno v 20. letih prejšnjega stoletja, je skupaj s Steffenom Kvernelandom letos izšel pri založbi KANON.

Letošnja razstava v Ljubljani se osredotoča na Fiskejeve ilustracije in stripe, ki jih je posebej za Animateko pripravil v obliki plakatov. Iz del je razvidna Fiskejeva naklonjenost »statični animaciji« ter njegovo raziskovanje gibanja, časa in akcije in ilustracijah in stripih. Drugi začitni znak njegovega dela predstavljajo liki in geometrične kompozicije. Fiskejev stil je grafično izrazen in prepoznaven skozi jasne linije in drzne kompozicije. Oster kubistični stil vsebuje številne referenčne iz zgodovine umetnosti, arhitekture in oblikovanja. Njegovi liki so pogosto obupani, toda polni življenjske energije in velike mere humorja.

Lars Fiske – ANIMATEKA 2006 Artist in Residence (Norway)

Lars Fiske (1966) lives and works in Oslo, Norway. After graduating (1988-1992) graphic design and illustration at the Konstfackskolan in Stockholm, he took a specialization course in illustration at the Otis/Parson school in Los Angeles.

Fiske has published many picture- and comic-books in Norway and worked as an illustrator for Scandinavia's biggest newspapers and magazines. As a commercial artist he has made designs for a variety of things from milk boxes to book covers. His comics are published by the leading Norwegian alternative publisher No Comprendo Press. His latest comic-book project about the German avant-garde artist Kurt Schwitters, who revolutionized the art scene in the 1920's, was published this year by KANON (in collaboration with Steffen Kverneland).

The exhibition set up in Ljubljana focuses on Fiske's illustration and comic-book art. It is presented in a new poster format made specially for the Animateka festival. The exhibition shows Fiske's interest in "static animation", his explorations with movement, time and action in drawings and comic-book pages. Shapes and geometric compositions are another trademark in his work. Fiske's style has a strong graphic expression, easy to recognize with its clear line and bold compositions. Often described as edgy and cubistic it is filled with references from art, architecture and design history. Fiske's characters are often desperate and energetic, throwing themselves into life with full force and a good portion of humour.

Letos Kanadski nacionalni filmski svet (NFB) praznuje 65. obletnico ustanovitve svojih studiev za animacijo. Ob tem jubileju so premiero izdali zbrana dela Normana McLarenja (1914–1987) v DVD zbirki *Norman McLaren: The Master's Edition*. Zbirka je bila lansirana na festivalu v francoskem Annecyju in je od jeseni naprodaj v Kanadi, ZDA in po vsem svetu. Istočasno po Evropi in Severni Ameriki potekajo dogodki za promocijo McLarenovega dela.

Norman McLaren se je leta 1914 rodil na Škotskem. Zanimal je za film so mu v mladih letih vzbudila dela velikih ruskih mojstrov Eisensteina in Pudovkina ter nemškega animatorja Oskarja Fischingerja. Med študijem na glasgowski akademiji za likovno umetnost ga je fascinacija s plesom navdahnila za ustvarjanje stiliziranih dokumentarcev, kakršen je bil *Seven Till Five* (1933). Pozneje se je pridružil poštni filmski entiti (General Post Office Film Unit – GPOFU) v Londonu, kjer je sodeloval z Johnom Griersonom. Tam je s tehniko neposrednega risanja na filmski trak ustvaril *Love on the Wing* (1937). Leta 1939 je McLaren emigriral v ZDA, kjer je posnel številne abstrakte filme, med njimi *Stars and Stripes* (1940) in *Dots* (1940). Dve leti pozneje je odpotoval v Kanado in ponovno srečal Johna Griersona, ki je na željo kanadske vlade ustanovil NFB. Skupaj sta sestavila NFB-jevo prvo ekipo animatorjev.

McLarenova osebnost in filozofija sta tesno povezani z usmeritvami NFB-jevega animacijskega studia. Kot neutrudnen inovator je McLaren na animatorje gledal kot na rokodelce, ki tako kot umetniki v svojih ateljejih nadzorujejo vsak korak v produkciji filma. Zato je bil vzor svojim sodelavcem in jih spodbujal k razvijanju lastnih orodij ter eksperimentiranju z novimi tehnikami. Zaradi mojstrovin, kot sta *Begone Dull Care* (s sorežiserko Evelyn Lambart, 1949) in *Blinkity Blank* (1955), njegovo ime povezujejo z risanjem in jedkanjem neposredno na filmski trak, čeprav njegova impresivna filmografija vključuje raznolike tehnike:

This year, the National Film Board of Canada is celebrating the 65th anniversary of the founding of its animation studios. In conjunction with this milestone, the NFB is making the complete works of Norman McLaren (1914–1987) available for the first time on DVD, as part of a box set called *Norman McLaren: The Master's Edition*. The box set was launched at the Annecy Festival in France, and it is available for purchase in Canada, the US, and around the world. In addition, events highlighting McLaren's work are taking place in Europe and North America throughout the year.

Norman McLaren was born in Scotland in 1914. His interest in filmmaking began early in life after he became acquainted with works by the great Russian filmmakers Eisenstein and Pudovkin and the German animator Oskar Fischinger. While a student at the Glasgow School of Fine Arts, McLaren's fascination with dance led him to make such stylized documentaries as *Seven Till Five* (1933). He subsequently joined the General Post Office Film Unit (GPOFU) in London, where he worked with John Grierson. It was there that he created *Love on the Wing* (1937), using the technique of drawing directly on the filmstrip. In 1939, McLaren immigrated to the United States, where he made several abstract films, including *Stars and Stripes* (1940) and *Dots* (1940). In 1941, he came to Canada and met up once again with John Grierson, who, at the request of the Canadian government, had founded the NFB. Grierson asked McLaren to put together the NFB's first animation team.

McLaren's personality and philosophy are inseparable from the direction animation took at the NFB. A tireless innovator, he perceived animation filmmakers as artisans who, much like artists

papirnate izrezljanke (*Rhythmetic*, z E. Lambert, 1956; *Le merle*, 1958), animiranje s kredo (*Là-haut sur ces montagnes*, 1945), sistematično uporabo pretapljanja slike (*C'est l'aviron*, 1944), piksilacije (*Neighbours*, 1952; *Opening Speech: McLaren*, 1961) in prekrivanje podob s pomočjo optičnega printerja (*Pas de deux*, 1968).

Norman McLaren je bil kreativni in tehnični inovator, ki je bil dejaven več kot 50 let; v tem času je ustvaril izjemen repertoar del, ki mu v filmskem svetu ni para. Bil je umetnik, animator, filmar, znanstvenik, izumitelj, glasbenik, tehnični izvedenec in njegovo delo bi laže uvrstili med eksperimentalne kot animirane filme. Njegovi filmi so rokodelske umetnинe, namenjene zvajanju estetskega odziva, hkrati pa tudi izobražujejo, kratkočasijo in zabavajo gledalce.

Animateka se pridružuje praznovanju s posebno projekcijo ob otvoritvi festivala in s ponudbo zbranih McLarenovih del na DVD nosilcu, ki bo v času festivala na voljo v animatečnem butiku.

in their studios, control every step of the production of their films. Consequently, McLaren set an example for his colleagues, motivating them to develop their own tools and experiment with new techniques. Owing to such masterpieces as *Begone Dull Care* (co-directed by Evelyn Lambert, 1949) and *Blinkity Blank* (1955), McLaren's name has become widely associated with drawing and etching directly on film, yet his impressive filmography shows a variety of techniques: paper cut-outs (*Rhythmetic*, co-directed by E. Lambert, 1956; *Le merle*, 1958), animating a chalk drawing through a series of modifications (*Là-haut sur ces montagnes*, 1945), the systematic use of cross fading (*C'est l'aviron*, 1944), pixillation (*Neighbours*, 1952; *Opening Speech: McLaren*, 1961) and superimposing images obtained by an optical printer (*Pas de deux*, 1968).

Norman McLaren was a creative and technical innovator whose film career spanned more than 50 years, during which he created a body of work that has no peer in cinema. Considered an artist, animator, filmmaker, scientist, inventor, musician and technical expert, his work might be better classified as experimental than as animation. His films are artisanal creations designed to provoke an aesthetic response, although they also inform, amuse and entertain.

Joining the anniversary celebrations, Animateka's festival opening will feature a special screening of McLaren's work and his DVD collection will be available for purchase during the festival at the festival boutique.

PAS DE DEUX

Norman McLaren (National Film Board of Canada)
Kanada / Canada, 1968, 35 mm, 13'

S Norman McLaren, mojster improvizacije v glasbi in ilustraciji, vzame pod drobnogled baletno koreografijo s pričakovanimi kinematografskimi učinki. Iste posnetki je osvetljeval tudi do desetkrat in s tem pomnožil podobe balerine in njenega partnerja (Margaret Mercier in Vincent Warren). Gol, črn oder in osvetljava od zadaj z oddaljeno lahko glasbo leseni piščali ustvarijo tiho in odmaknjeno zgodbo o mladi ženski, v kateri se prebudi ljubezen.

e Norman McLaren takes a look at the choreography of ballet, with cinema effects that are all that you would expect from this master of improvisation in music and illustration. By exposing the same frames as many as ten times, the artist creates a multiple image of the ballerina and her partner (Margaret Mercier and Vincent Warren). A bare, black stage and back-lit figures, plus the remote, airy music of panpipes, produce a quiet and detachment telling the story of a young woman's awakening to love.

E In the evening, there is a very important football match. The Beezes are all united in front of the TV screen and are cheering enthusiastically. The domestic TV aerial cannot take the rampaging cheering and gives in for good! Improvising the aerial, The Beezes have to climb the roof, but the receiver will not work unless all four fully cooperate – the match can only be seen from the outside, and even more, the door is only slightly open. Just before the penalty kick is taken, the Cat is so disturbed by the noise that he turns the TV off.

ŽIRIJA SE PREDSTAVLJA JURY PROGRAMME

Program z naslovom Sodobna nemška animacija zajema 13 kratkih filmov, ki so nastali med letoma 1995 in 2006. Polovica je študentskih in diplomskega, druga polovica pa je narejena s pomočjo subvencij. Skoraj vsi so dobili različne mednarodne

Nemški animirani film, ki je v preteklosti v državnem in mednarodnem merilu igral zelo majhno vlogo, je v zadnjih letih premostil zaostanek za evropskimi sosedami, in to tako pri celovečernih produkcijah, ki so pogosto posnete v sodelovanju s tujimi partnerji, kot pri kratkometražnih filmih. Uspeh celovečerjev je povezan z naraščajočo priljubljenostjo animiranih izdelkov v komercialnih kinematografih. Zadnji podatki kažejo, da je bil v prvi polovici leta 2006 delež animiranih celovečerjev (nemških in tujih) v kinematografi po državi glede na število obiskovalcev 20-odstoten. Pred desetimi leti je znašal samo 7 %, od takrat pa nenehno raste. Medtem ko so nemški celovečerji našli pot v komercialne kinematografe in pogosto v blagajne prinosa dobiček, pa je distribucija posameznih kakovostnih kratkih filmov tako kot skoraj v vseh drugih državah bolj ali manj omejena na t. i. kroženje po festivalih. Razen nekaterih manjšinskih kanalov se TV-postaje za kratkometražne filme ne zmenijo.

Klub nevpodbudnemu tržnemu položaju se je v zadnjih letih število animiranih kratkih filmov v Nemčiji povečalo. Obenem se pojavlja čedalje več visoko kakovostnih filmov, kar se odraža tudi v znatenem številu nagrad in drugih priznanj na pomembnih festivalih. Zdi se, da je to posledica usposabljanja na mednarodni ravni na oddelkih za animacijo na šolah, kot so Filmakademie Baden-Württemberg v Ludwigsburgu, Hochschule für Film und Fernsehen Konrad Wolf v Potsdamu in Kunsthochschule Kassel, ter uvajanja večjega števila novih tečajev animacije. Javno financiranje, ki se razlikuje od regije do regije, skupaj s podporo Nemškega zveznega filmskega odbora mladim diplomiranim filmařem omogoča snemanje neodvisnih filmov, pa čeprav navadno z bornim proračunom.

German animation which in the past had played a very minor role nationally and internationally has caught up on its European neighbours during the last years. This concerns feature-length productions, often made in association with foreign partners, as well as short films.

The features benefit from the increasing popularity of animated product in commercial cinemas: According to the latest statistics, in the first half of 2006 the contingent of animated features (German and foreign) in the country's cinemas related to the number of cinema-goers was 20%. It was 7% only ten years ago and had raised continuously since. While German features find their way into commercial cinemas, often with positive results at the box-office, the distribution of individual quality shorts is, as in nearly all other countries, more or less limited to the so-called festival circuit. TV stations, apart from some minority channels, as well as theatrical distributors dismiss shorts.

In spite of the depressing market situation the number of animated shorts has increased in Germany during the past years. At the same time there are also more films of high standard which is reflected by a considerable number of important festival honours and other distinctions. This seems to be the result of training at an international level at the animation departments of schools like Filmakademie Baden-Württemberg at Ludwigsburg, Hochschule für Film und Fernsehen Konrad Wolf at Potsdam and Kunsthochschule Kassel and the introduction of several new animation classes. Public funding which varies from region to region and the support by the German Federal Film Board enable young filmmakers to produce independent films after their graduation, although budgets are usually rather meagre.

The programme entitled Contemporary German Animation consists of 13 shorts made between 1995 and 2006, half of them student and diploma films and the other half films made with the

La Poudrière je šola za animirani film, ki jo je leta 1999 v mestu Valence v Franciji ustanovil studio Folimage. Ponuja dveletni program usposabljanja za režijo animiranega filma, ki je namenjen tako francoskim kot tujim študentom, pogoj pa je predhodna tehnična izobrazba ali praktične izkušnje z animacijo. Glavni cilj šole je s podajanjem širokega znanja o vseh fazah filmske produkcije, tako tehničnih kot ustvarjalnih, izobraziti profesionalne filmske ustvarjalce, ki so sposobni samostojnega in skupinskega dela.

Zaradi majhnega štivila študentov se šola lahko osredotoči na večbine, izkušnje in potrebe vsakega posameznika. Med usposabljanjem študenti vadijo predvsem na dva načina. Na eni strani se urijo v planih, kompozicij, zasnovah, zvočnih testih animacije. Na drugi strani so kratki – zelo kratki – filmi, ki študentom omogočajo, da obvladajo celoten proces snemanja filma z vsemi tehničnimi in ustvarjalnimi vidiki filmske produkcije. V obih primerih delo poteka v kontekstu: prosta tema, osbeni film, adaptacija, naročeni film, razvoj televizijskega projekta. Poleg tega je bistveno, da morajo biti študenti na voljo še za druge predloge, druge projekte in druga srečanja. Na šoli La Poudrière se srečujejo in spoznavajo s profesionalci filmskega sveta. Šola prav tako daje velik pomen gledališču, literaturi in glasbi.

Program enourme predstavitve na festivalu Animateka je zbirka študentskih filmov iz obdobja 2001–2006. Gre za mešanico eno-minutnih (ti so iz prvega letnika) in diplomskih filmov, uporabljena je cela vrsta tehnik in stilov animacije. Študentski filmi so predstavljeni na številnih mednarodnih festivalih, saj je šola vesela vsake možnosti predstavitev. Vendar pa zaradi tega ne pozabljajo na nujno skromnost pri svojih ambicijah – vajenštvo je stanje duha. La Poudrière bo še naprej pozorno spremljala povratne informacije in kritike ter dejansko dogajanje v nenehno razvijajoči se industriji animiranega filma.

Annick Teninge

La Poudrière animation film school was initiated by Folimage studio in Valence, France, in 1999. It offers a two-year training in animation film-directing and is open both to French and foreign students with a technical training or some practical experience in animation. The main goal of the school is to train professionals capable of making films, either on their own or as part of a team, by giving them a comprehensive knowledge of all the stages of film production, both technically and creatively.

The small number of students allows the school to concentrate on the skills, experience and needs of each student. During their training, the students mainly work on two different types of exercises. On one hand, exercises such as specs, layout, storyboards, animatics with sound. On the other hand, short films – very short ones – which allow them to get to grips with the film-making process, to be in charge of all technical and creative aspects of film production. In both cases, the work is placed in a given context: free subject, personal film, adaptation, commissioned film, television project development. Finally, and this is essential, they must stay available for other proposals, other projects and other encounters. La Poudrière is a place to meet and mix with professionals working in cinema. The school also gives theatre, literature and music a prominent position.

The one-hour program presented at Animateka festival is a compilation of student works from 2001 to 2006. The program is a mix of one-minute films (made during the first year of training) and graduation films, displaying a wide range of animation techniques and styles. These student works are getting exposure at many international festivals and the school is delighted at every opportunity to present them. But none of this makes the school forget the degree of modesty that should accompany its ambitions. Apprenticeship is also a state of mind and La Poudrière will continue to pay attention to feedback and critiques and the realities of an industry which is in a constant state of evolution.

NOCTURNE
Guillaume Delaunay (La Poudrière)
Francija / France, 2005, 35 mm, 4'30"

S V temnih gozdnih sencah se prebujajo nočne živali. Polna luna se prikaže skozi oblake, majhne oči se zasvetlikajo in predirljiv krik razbije nočno tišino.

e In the dark shadows of the forest, the night animals are waking up. A full moon breaks through the clouds, little eyes light up and a piercing scream rents the night air.

Fresh Film Fest je naslednik svetovno znanega festivala CILECT, ki se je odvijal v Karlovin Varih (Češka), sprva kot neodvisni festival in pozneje kot del slovitega mednarodnega filmskega festivala v Karlovin Varih. V 80. letih je bil festival kraj, kjer so lahko takratni mladi talenti izmenjevali ideje in poglede na svet brez razvpitega nadzora komunističnega režima. Skozi leta je festival CILECT postal pomembno stičišče med nekdanjim vzhodnim in zahodom blokom. Festivala so se udeleževali filmski ustvarjalci, ki jih je kmalu občudoval ves svet, npr. Jan Sverák, Emir Kusturica idr.

Nekaj študentov Fakultete za film in televizijo Akademije lepih umetnosti (FAMU) v Pragi se je skupaj z dekanom dr. Michalom Bregantom odločilo oživiti ta edinstveni festival. Skupina organizatorjev, ki jo skoraj v celoti sestavljajo študenti FAMU v Pragi, želi širokemu kroužku javnosti predstaviti filme različnih žanrov iz različnih držav.

Številne projekcije spreminja bogat program spremjevalnih dejavnosti in dogodkov, ki vključuje profesionalne delavnice ter predstavitve šol. Cilj Fresh Film Festa je, da vsi ustvarijo stike za bogato prihodnje sodelovanje.

Fresh Film Fest is a successor of the world famous CILECT festival that took place in Karlovy Vary (Czech Republic), initially as an independent festival and subsequently as a part of the renowned Karlovy Vary International Film Festival. This festival was the place where young talents of the day could freely share their ideas and comments on the world in the 80s, without being subject to the notorious surveillance of the communist regime. Over the years the CILECT festival became an important crossroads between the former eastern block and the west. The festival was attended by soon to be world respected filmmakers, such as Jan Sverák, Emir Kusturica etc.

Some students from the Film and Television Faculty of the Academy of Performing arts in Prague - FAMU, along with its' dean PhDr. Michal Bregant have decided to bring this unique festival back to life. The organizational team, which is comprised almost entirely of students from the Film and Television Faculty of the Academy of Performing arts in Prague - FAMU, will present films from various countries and of various genres to a wide public.

Numerous screenings are accompanied by a wide ranging program of additional activities and events. Program includes professional workshops, school presentations and evening parties. The aim of the Fresh Film Fest is to stimulate everyone's contact make for fertile future cooperation.

Marcin Sauter (Andrzej Wajda Master School of Film Directing)
Poljska / Poland, 2005, Beta SP, dokumentarni / documentary, 12'

S Ormejen prostor, zunaj praznina, notri velike drame. Vrnitev v otroštvo, v čas počitnic in vročih poletij. Kar naenkrat se začno spet pojavljati napol pozabljene podrobnosti, želja postati raziskovalec, kratke epizode, ki jih nismo nikoli uspeli razumeti in na to nismo več niti upali ... Dokumentarni minimalizem v svoji najboljši obliki. Najboljši film FFF 2006.

e A limited space, empty on the outside, big dramas on the inside. A return to childhood, the time of holidays, of hot summers. All of a sudden, half forgotten details start reappearing, the urge to become an explorer, little episodes that we could never figure out and thought it would be like that forever... Minimalism of documentary in its best way. Best Film FFF 2006.

Mednarodni festival kratkometražnega filma v Clermont-Ferrandu je po mnenju poznavalcev najpomembnejši svetovni dogodek, posvečen kratkometražnemu filmu. Festival že skoraj 30 let vsakokrat predstavlja okoli 400 igralnih, animiranih, dokumentarnih in eksperimentalnih filmov, ki sestavljajo bogato paletlo sodobne kinematografije.

Za predstavitev našega festivala smo izbrali animirane filme, ki so bili prikazani v nacionalnem tekmovalnem programu v obdobju zadnjih petih let. Od leta 2000 podeljujemo nagrado za najboljši animirani film v tehniki direktnega slikanja pod kamero, leta 2001 je bilo nagrajeno delo *Prva nedelja v avgustu* (*Au premier dimanche d'août*) v režiji Florence Mialilhe. Namen festivala v Clermont-Ferrandu je med drugim tudi soočenje animiranega filma z igralnimi in dokumentarnimi. Tudi na tem področju se animirani filmi dobro odrežejo, omenim naj *Chahut* (*Trušč*) avtorja Gillesa Cuvelierja, ki je letos dobil nagrado po izboru mladih in nagrado za najboljšo zvočno podobo.

Program za Animateko 2006 je sestavljen iz enajstih filmov in vsebuje visok delež (64 %) študentskih filmov, posnetih v 3D računalniški animaciji, kar kaže na to, da je v Franciji vse več dinamičnih in kakovostnih šol, na primer Supinfocom (za 3D), pa tudi La Poudrière in pariška Ecole nationale supérieure des arts décoratifs. Med temi mladimi režiserji najdemo tudi vrhunske ustvarjalce, denimo Florence Mialilhe in Jean-Loup Felicioli, za katere lahko z gotovostjo zatrdimo, da so v zgodovino francoskega animiranega filma že vtisnili svoj pečat.

Želim vam lepo potovanje skozi animirani film francoskih ustvarjalcev.

Clermont-Ferrand, 2. oktober 2006

Clermont-Ferrand International Short Film Festival is considered to be the most important world event devoted to short films. Every year for almost 30 years the festival has presented approximately 400 fiction and animated films, documentaries and experimental films, which together represent the rich diversity of contemporary cinema.

For the presentation of our festival we have chosen animation films selected from our national competitions in the last five years. Since 2000 an award for best animated film drawn directly under the camera is conferred, in 2001 the award went to *Au premier dimanche d'août* (*A Summer Night Rendez-Vous*) by Florence Mialilhe. The interest of Clermont-Ferrand however lies also in the confrontation of animation with live-action and documentary films. Here again animation films do a good job, as proven by Gilles Cuvelier's *Chahut* (*Din*), which received this year's Youth Jury Prize and Best Sound Design Prize.

A great part (64%) of the programme for Animateka 2006, consisting of 11 films, are 3D computer animated student films. This shows the emergence, vitality and quality of French schools such as Supinfocom (for 3D) as well as La Poudrière or Ecole nationale supérieure des arts décoratifs. Among these young directors one can find prominent individuals, e.g. Florence Mialilhe and Jean-Loup Felicioli, who may already be said to have made a lasting impression on the history of French animation.

I wish you a pleasant journey through creative French animation films.

ANIMIRANI FILMI O ČLOVEKOVIH PRAVICAH HUMAN RIGHTS ANIMATED PROGRAMME

Program animiranih filmov o človekovih pravicah z umetniškim izrazom predstavlja osnovna načela o človekovih pravicah. Namen projekta je spodbuditi kritičen in ustvarjen pristop k vprašanju človekovih pravic.

Vsi izbrani filmi v tem programu prihajajo iz Evrope. Na prvi pogled je stanje človekovih pravic v Evropi urejeno, vendar se redno pojavljajo problematične teme, na primer težave iskalcev azila, napadi na romske skupnosti, policijska brutalnost. Večina evropskih držav je uvrščena na seznam letnega poročila organizacije Amnesty International zaradi različnih primerov kršenja človekovih pravic.

Skoraj vsi filmi, razen filma *Ponižan vol, pojoči petelin* (*Crouching Ox, Crowing Rooster*), ki je bil namensko narejen za kampanjo ozaveščanja o pravicah živali, se neposredno dotikajo človekovih pravic. Pravica do svobode izražanja in mišljenja, pravica do življenja v zdravem okolju, pravica do počitka in prostega časa, pravica do svobodnega gibanja, pravica do socialnega varstva v otroštvu ... filmi govorijo o vseh naštetičnih temah. Konkretna tema je tudi pravica, da nihče ne sme biti žrtev mučenja, kot v zadnjem »demokratični« vojni v Iraku, ki jo množični mediji, tako kot ostale vojne v zadnjih desetletjih, prikazujejo skozi cenzorski filter v obliki zabavne oddaje.

Ob perečih temah, ki jih povezujemo s človekovimi pravicami, je zato enako pomembna tudi pravica do medijske vzgoje – skladnega in sistematičnega izobraževanja o različnih oblikah medijev; tudi o filmu, v našem primeru o animiranem filmu. Živimo namreč v svetu, v katerem nas bolj kot kar koli drugega obdaja avdiovizualna – gibljive podobe. Prek njih izvemo, kaj se dogaja v svetu, kako naj kupujemo, kako naj se obnašamo. Mediji imajo v sodobni družbi močan vpliv, zato je poznavanje njihove narave nujni predpogoj za bivanje v modernem svetu. Zaradi močnega vpliva medijev postaja izobraževanje o njih temeljna

The programme of animated films about human rights uses the artistic medium of animation to introduce basic principles of human rights. The project aims to promote a critical and creative approach to human rights issues.

All the selected films are European. Superficially, one might get the impression that human rights are not a problem in Europe, but problems keep springing up regularly: the difficulties faced by asylum seekers, attacks on Roma community, police brutality. Most European countries appear on Amnesty International's yearly report on human rights violations.

All of the films discuss human rights, except for *Crouching Ox, Crowing Rooster*, which was made purposefully for a campaign to raise awareness about animal rights. Freedom of expression and thought, the right to live in a clean environment, the right to rest and leisure, the freedom of movement and children's rights to social security are some the topics covered in the films. One of the topics is also the right to be free from torture, as exemplified in the "democratic" war in Iraq, which similarly to other wars in the last decades is being represented through a censorship filter and in entertainment format by the mass media.

The urgent issues that are associated with human rights make the right to media education just as important – this involves the congruent and systematic education about different media types including film, or in our case, animated film. After all, we live in a world where we are predominantly surrounded by the audio-visual – moving pictures. They give us information about what is going on in world around us, about what to buy, how to act. Media have a strong influence in contemporary society, so understanding their nature is a precondition for living in the modern world. Given their importance, media education is becoming a basic human right. The Human rights animated film programme stimulates critical viewing and reflexivity, which are preconditions for the active and

ALL PEOPLE IS PLASTIC

Harald Hund (Amour Fou Filmproduction)
Avstrija / Austria, 2005, 35 mm, 12'

S V zgodovini filma je velemesto pogosto predstavljalo ozadje distopičnih fantazij: ideja urbanega prostora kot krutega molohovskega stroja je poganjala vizijo prihodnosti Fritza Langa v filmu *Metropolis* (1927), kjer so zasrujeni delavci prisiljeni v delo za tekočim trakom. Tridimenzionalni animirani film *All People Is Plastic* se sklicuje na to podobo mesta kot disciplinskega stroja ter na kritiko modernosti Jacquesa Tatija, za katerega je korporativna kultura predstavljala delovni svet vsiljene konformnosti. V svetu *All People Is Plastic* so liki že dolgo predmet množične proizvodnje: Hund je namreč svoje »default« ljudi (standardne ljudi) oblikoval s standardno 3D programsko opremo za animacije in te medle, sive prototipe, shematisirane kot moške in ženske, vstavljal v niše futurističnega pisarniškega sveta.

- to market Norwegian films abroad.

The Norwegian Film Institute is under the authority of the Ministry of Cultural Affairs, and the goals in the area of film which have been adopted by the Storting (Parliament).

Spočetka so bili filmi kratki. Tudi na Norveškem. Rosna leta norveškega filma so predstavljali izključno kratki filmi. Najprej filmske novice, ki jih je filma lačno občinstvo sprejelo z velikim navdušenjem.

Prvi stalni kinematograf na Norveškem je bil odprt v Kristianiji leta 1904 (od leta 1924 dalje imenovani Oslo). Filmske novice so bile pomemben del programa, ki ga je ustvarjal preplet norveških in mednarodnih filmov, uvoženih dram in najrazličnejših dokumentarcev z blizu in daleč. Uspeli so bili zlasti norveški filmi, kar je sprožilo producijo prvega norveškega igranega filma, prav tako kratkega: *Nevarnosti ribarjenja – Drama na morju* (*The Dangers of Fishing – A Drama at Sea*) je bila premierno predvajana leta 1908.

V naslednjih dvajsetih in še nekaj letih so v produkciji kratkih filmov kraljevale filmske novice in reklamni filmi. Novice so bile še vedno zelo priljubljene in Oslo Kinematografer se je leta 1928 osredotočil na tedenške obzornike. Poleg teh obzornikov je kratki film – kot zabaven ali poučen uvod pred glavnim filmom – postal redni del filmskih programov.

Po drugi svetovni vojni je prišlo do razvoja še bolj dominantne kulture kratkega filma. Položeni so bili temelji za še izdatnejšo in bolj raznoliko produkcijo kratkih filmov; država je začela razumevati kratki film kot enega sestavnih delov širšega kulturnega prizorišča. Če so pred celovečernimi filmom predvajali kratek norveški film, so bili kinematografi upravičeni do določenih davčnih olajšav; leta 1948 je bila z namenom distribuiranja kratkih filmov ustanovljena državna enota Statens Filmsentral, eden največjih nacionalnih, pa tudi mednarodnih distributerjev norveškega kratkega filma šolam, knjižnicam, filmskim klubom in ostalim ustanovam. 1. januarja 1993 se je Statens Filmsentral priključila Norveškemu filmskemu inštitutu (Norsk Filminstitutt), ki je odsej odgovoren za mednarodno promocijo in domačo distribucijo norveških kratkih filmov.

S

In the beginning films were short, also in Norway. In its infancy, Norwegian film consisted entirely of shorts. First came the newsreels, which were received with great enthusiasm by a film-hungry audience.

The first permanent film theatre was opened in Kristiania in 1904 (Norway's capital Kristiania changed its name to Oslo in 1924). The newsreel was a vital part of the film theatre's program. The programs consisted of a combination of Norwegian and international films, imported dramatic films and various documentaries from near and far. The Norwegian films in particular were a great success, and this led to the production of the first Norwegian feature film - which also was short: *The Dangers of Fishing - A Drama at Sea* premiered in 1908.

In the '20s and for some time after, short film production was dominated by newsreels and advertising films. Newsreels were still very popular and Oslo Kinematografer concentrated on weekly reviews starting in 1928. The short film had now, in addition to the weekly reviews, become part of the program. A brief, entertaining or informative short before the feature film.

After WWII a more dominant short film culture came forth in Norway. The foundation was laid for a more substantial and varied short film production, and the State began accepting the short film as a substantial addition to the cultural scene. The State gave a certain cinema tax discount if a Norwegian short was shown prior to the feature film, and in 1948 Statens Filmsentral was established in order to distribute short films. Statens Filmsentral has been one of the largest national- and international- distributors of Norwegian short films to schools, libraries, institutions, and film clubs. On January 1, 1993, Statens Filmsentral merged with Norsk Filminstitutt under the name Norsk Filminstitutt, and was handed the responsibility of presenting short films and documentaries internationally, as well as distributing them nationally.

e

Leta 1960 je z rednim oddajanjem začela televizija in do leta 1963 so iz kinematografov izginile filmske novice. Leta 1964 je država – prek ločenega subvencioniranja ustanove Norsk Kulturråd – prvič denarno podprla kratki film, ki ni bil ne dokumentaren ne poučen, temveč označen kot »svobodni, umetniški kratki film«.

Leta 1969 je bil ukinjen davek na film kot luksuzno dobrino; istega leta je bil z namenom dodeljevanja fiksnih letnih subvencij kratkemu filmu ustanovljen komite Statens Kortfilmutvalg. Statens Filmcentral je sprva nastopal v vlogi tajništva, pozneje pa je za omenjeni komite prevzel tudi administrativne odgovornosti. Od leta 1973 je Statens Filmcentral (zdaj Norsk Filminstitutt) pomagal pri produkciji vseh vrst kratkih filmov.

Leta 1978 se je odvил prvi festival kratkega filma in postal novo shajališče za norveški kratki film. Leta 1997 je bil festival organiziran že dvajsetič. Tekmovalna sekcijsa festivala je rezervirana za norveške kratke filme, znotraj posebnih programov so predvajani tudi filmi. Do leta 1985 je festival predvajal vse prijavljene kratke filme; leta 1986 pa so za prijavljene prispevke ustanovili žirijo. Sprejetih in predvajanih je manj kot petdeset odstotkov filmov. Festivala kratkega filma se letno udeleži približno 750 gostov, od tega je večina dejavna v filmskem poslu. Festival je največji profesionalni dogodek za filmsko srenjo, edina arena za prezentacijo norveških kratkih filmov in obenem največji festival kratkega filma na Norveškem.

Pomemben element v produkciji kratkega filma je že lep čas regionalna produkcija. Po dveh letih preizkusnega delovanja je bil leta 1981 ustanovljen Severnorveški filmski center (Nordnorsk Filmsenter). Z njim skušajo ugoditi naraščajočim zahtevam po bolj regionalizirani filmski produkciji. Razmišljali so o več možnih lokacijah – mesta, kot so Bergen, Stavanger in Porsgrunn, se vsa ponosajo z obsežnimi, dejavnimi filmskimi skupnostmi. Do leta

In 1960 television began broadcasting on a regular basis, and the newsreel disappeared in 1963. In 1964 the State, through a separate grant to Norsk Kulturråd, for the first time financially supported a short film which was neither a documentary nor instructive, but was characterised as a "free, artistic short film".

In 1969 the luxury tax on films was removed, and that same year Statens Kortfilmutvalg was established for the purpose of distributing fixed annual grants to short film projects. Statens Filmcentral was first handed the role of secretariat, and later also given administrative responsibility for the committee. Since 1973 Statens Filmcentral (now Norsk Filminstitutt) has contributed to the production of all types of short films.

In 1978 the first Short Film Festival was held, and it became a new meeting ground for the short film in Norway. In 1997 the festival was arranged for the 20th time. The Festival has a competition for new Norwegian shorts, and shows international films as part of the special programs. Until 1985 all new Norwegian films which were entered into the Festival were screened, since 1986 applications have first been judged by a jury. Less than 50 % of the applications are accepted and screened. The Short Film Festival has approximately 750 participants annually, most of them active in the film business. The Festival is the largest professional event for people in film, and the only arena in which to present Norwegian short films. The Festival is Norway's largest short film festival.

Regional production has long been an important element in short film production. The Northern Norwegian Nordnorsk Filmsenter was, after a 2-year trial period, established in 1981. The centre was founded after increased demands for more regional production centres. Several locations in Norway were considered – Bergen, Stavanger and Porsgrunn has sizeable, active film communi-

1996 so projektom dodeljevali sredstva na osnovi profesionalne ocene umetniške komisije, danes je komisijo nadomestil svetovalec. Od leta 1997 dalje Nordnorsk Filmsenter podeljuje tudi posebne subvencije produkciji laponskih filmov.

Leta 1994 je bil na zahodu Norveške ustanovljen nov regionalni filmski center, Vestnorsk Filmsenter, ki podpira razvoj scenarijev in projektov ter redno produkcijo kratkih filmov. Ustanovitev Zahodnorveškega filmskega centra je povzročila večjo produkcijo kratkih filmov na zahodu države, ustanovljenih je bilo tudi več produksijskih hiš.

V osemdesetih sta tako Oslo Kinematografer kot tudi Bergen Kino poskusila s predvajanjem kratkih filmov. Leta 1989, ko je komercialni distributer Europafilm sklenil dogovor s kinematografi, je predvajanje kratkih filmov postal bolj organizirano. Del tega dogovora je danes približno trideset kinematografov, ki skupno pokriva več kot šestdeset odstotkov obiskovalcev kinopredstav. Ta dogovor je povzročil tudi premik k produkciji kratkih, manj kot deset minut trajajočih filmskih smeri, ki so zelo priljubljene. Danes Oro film (družba, ki je leta 2002 prevzela distribucijski paket Europafilma) kinematografom ponuja skupno več kot 150 kratkih filmov.

Norveški kratki film je kompleksna, večplastna oblika umetniškega izraza. Pojem zaobjema filme, ki so dolgi od ene minute do ene ure, od najbolj enostavne oblike animacije do dokumentarnega filma.

Kljud omejenim finančnim sredstvom in obdobjem, ko je bilo težko doseči domače občinstvo, so norveški kratkometražci v vzponu, ne nazadnje tudi mednarodno, saj na tujem žanje obilo zanimalja. Vse od leta 1988 so deležni pozitivnega odziva med tujimi kritiki, številni so prejeli tudi mednarodne nagrade, na primer filmi *Eating Out*, *Depth Solitude*, *A Year Along the Abandoned*

ties. The centre is located in Honningsvåg, by the North Cape, and supports 3-6 short films annually. Until 1996 the projects were given grants based on the professional evaluation of arts council, today the council has been replaced by a consultant. Since 1997 Nordnorsk Filmsenter also gives special grants to the production of Lapp films.

In 1994 a new regional film centre was established. Vestnorsk Filmsenter, in Western Norway. The centre supports manuscript development, project development, and regular production of short films. The establishment of Vestnorsk Filmsenter has led to an increased production of short films in Western Norway, and several new production companies have been established.

In the '80s both Oslo Kinematografer and Bergen Kino attempted screening shorts. In 1989 the screening of short films became more organised when the commercial distributor Europafilm began a subscription arrangement for the country's film theatres. Approximately 30 film theatres take part in this arrangement today, and these cover more than 60 % of the total number of moviegoers. The arrangement has resulted in a move toward the production of short, humoristic, to-the-point films of less than ten minutes, which are popular as short films. Today, more than 150 short films are distributed to film theatres through Oro film (this company took over the distribution package from Europa Film in 2002).

The Norwegian short film is a complex, multi-faceted form of artistic expression. It covers any film from one minute to one hour in length, and can span from the simplest animation to fiction and documentaries.

Despite limited funds and periods where it has been difficult to reach a national audience, Norwegian short films are in an expansive period. Not least internationally, where Norwegian short films

S Film *Adrift* je posnet na arktičnem otoku Spitzbergen in na Norveškem v kombinaciji upočasnjene fotografije in stop-motion animacije pokrajine. S pomočjo kotov kamere in kadriranja režiserka doseže, da gledalec postopno izgublja tla pod nogami, izgineta občutek za razmerja in globino. Film ima za cilj potovanja samo zaznavanje.

Hans Petter Moland (Motlys as)
Norveška / Norway, 2002, 35 mm, 9'27"

S Ta kratki film je bil izvirno del celovečerca *Utopija – V popolni državi ni nihče popoln* (*Folk flest bor i Kina*) iz leta 2002. Projekt se je začel z idejo skupine Screenwriters Oslo, ki združuje nekaj norveških najobetavnejših mladih scenaristov. Kot navdih za zgodbе o norveški sedanosti so uporabili politične stranke. Večinoma se lahko identificiramo z eno ali več strankami. Vse politične stranke imajo manifest, v njem izražene vrednote, stališča in miselnost pa se zlahka spremeniijo v dejanja in konflikte. Prav ti predstavljajo osnovo za posamezne epizode *Utopije* in dajejo producentom odlično priložnost tako za smešna kot resna sporočila o nenavadni državici Norveški.

e This short film is originally part of the feature film *Utopia – Nobody is Perfect in the Perfect Country* (*Folk flest bor i Kina*) released in 2002. The project started with an idea from Screenwriters Oslo, a collective comprising some of the most promising young screenwriters in Norway today. They used the political parties as inspiration to create stories about Norway today. The majority of us can identify with one or more parties. All the political parties have a manifesto which gives expression to values, attitudes and mentalities that can easily turn into actions and conflicts. These are the basis of the episodes of *Utopia* and gave the producers a golden opportunity to make funny and serious statements about the strange little country Norway.
