V KORAKU S ČASOM: KINODVOR. DIGITALNI KINO.

Kako čas hitro teče! Zdi se mi, kot bi prejšnji mesec razmišljala o tem, kaj naj vam napišem za popotnico v ta čudoviti novoletni čas animiranega filma. A če pomislim, kaj vse se je od naše zadnje preobleke Kinodvora za Animateko spremenoilo, prenovilo in zgodilo, si rečem – še dobro, da ima leto 365 dni! Kinodvor je odprt prav vsak dan v letu, a Dedku Mrazu bomo tokrat pisali še za kakšno uro več, ki bi jo lahko namenili filmom na našem sporednu. Če pa ne gre, naj v dobrohotnem duhu vizije obdarovanja urbanih mestnih središč neutrudno razmišlja o novem umetniškem minipleksu, kjer bodo domovale nove kinodvorane in bodo imeli naši filmi, pa tudi festivali, na voljo več prostora in časa, da jih obiščajo tudi najbolj trdovratni zamudniki. A čas teče in nepazljivega povozi, zato smo v Kinodvoru že letos zavihali rokave in v projekcijsko kabin(c)o zbasali čisto nov digitalni projektor. Tako je zdaj mestni kino tudi digitalni kino. Medtem ko se svetovna in evropska kinematografija na različne načine že desetletje spopadata z izzivi tehnološkega napredka, se iz udobnega zimskega dremeža počasi prebuja tudi Slovenija. A digitalna kinematografija ni muha enodnevница: za progresivno rast in razvoj art kino mreže ter prikazovanje filmov, ki zaznamujejo njen program, je čas za poskočen tempo. Kinodvor je danes opremljen za prikazovanje digitalnih filmov v formatu najvišjega standarda, a filmska kultura šteje gledalce po vseh krajih in dostop do raznolikega programa je skozi ekonomsko perspektivo mogoč le s celovitim prehodom vseh manjših in srednjeg velikih kinematografov na digitalno tehniko. Zato

IN STEP WITH THE TIMES: KINODVOR. A DIGITAL CINEMA.

How quickly time flies! It seems as though it was only a month ago as I was mulling over what to say to you as an introduction to this wonderful pre-New-Year animation time. Thinking about everything that has changed, happened or been renewed since Kinodvor last hosted Animateka, I say we can be lucky to have 365 days in a year! Kinodvor is open every day of the year, but this time around we plan to ask Santa for some bonus hours for all the films we are showing. If this is a no go, he may start tirelessly exploring ways, in the kind-hearted spirit of his vision of bringing gifts to urban city centres, for a new art miniplex with new screening rooms, where our films as well as festivals can have more time and space for even the most hopeless latecomers to catch them. But time flies and you can be out of step with it before you know it, which is why at Kinodvor we girded up our loins this year and fitted our (little) projection booth with a brand new digital projector. The city cinema is now also a digital cinema. If the global and European film industries have been trying out various ways to meet the challenges of technological progress over the entire past decade, Slovenia is now slowly waking up from its cosy winter's slumber. But digital cinema is not a fad; progressive growth and development of our Art Cinema Network and screenings of films that mark its programme require a lively pace. Kinodvor is now equipped to show digital films in the top standard format, but the film world embraces our visitors at all locations. From an economic perspective, access to a varied programme is only possible with a full digitalisation

je v njihovem pismu Dedku Mrazu letos z rdečo podprtanjem nacionalnega model kinematografske digitalizacije. Po art kino mreži pa ne potujejo le posamični filmi, v njej se vrti tudi Animateka, ki najprej objame Ljubljano in njene filmske ustanove, potem pa se poda še v Maribor. Festival je vendarle dogodek na kolesih, potuje z enega konca sveta na drugega – zakaj ne bi potoval še po Sloveniji! In ko bo v njej vsak kino tudi digitalni kino, bo čas za potovanja še krajši in ključ bo zamenjal kolut. Čeprav bo slika kot iz pravljice, se bodo našli zaljubljenici, ki bodo na platnu skrivaj iskalci sledi prahu in prask iz prejšnjih časov. A življenje je tudi reka in včasih velja, vsaj za hip, pozabiti na čas ter se prepustiti toku. V tistih nekaj trenutkih se lahko skriva morje časa, podobno kot pri animiranem filmu. Zato ujemite trenutek in bodite tudi letos z nami na Animateki!

of all small and mid-sized cinemas. This is why their wish list this year focuses on one thing in particular: a national model of cinema digitalisation. Individual films are not the only ones to tour the Art Cinema Network; Animateka does, too, seizing Ljubljana and its film venues first, only to visit Maribor later. A festival is an event on wheels, travelling from one part of the world to another, so why not have it tour Slovenia, too? When each of its cinemas becomes a digital cinema, the travelling time will be shorter and reels will be replaced by flash drives. And even with heavenly picture quality, the odd film lover will still secretly scrutinize the big screen for traces of dust and scratches from the old days. But life is a river, and sometimes it's not bad, if only for a moment, to just take it easy and go with the flow. In these few moments you can find a whole universe of time, just like with an animated film. So take the moment and join us for another edition of Animateka!

ANIMIRANI FILM, GLASBA IN ZVOK

ANIMATION, MUSIC AND SOUND

Osma edicija Animateke bo praznično obarvano decembrsko Ljubljano obdarila s posebno zgodovinsko retrospektivo, naslovljeno **Animirani film, glasba, zvok**. Od leta 2009 se Animateka odpravlja na zgodovinska odkrivanja estetskih in tehničnih specifik medija animiranega filma. Tako smo na šesti Animateki predstavili razvoj stop-motion tehnike, lansko leto smo se poklonili avantgardnemu animiranemu filmu, letos pa bomo v šestih programskih sklopih odkrivali razvoj in kreativno rabo glasbe in zvoka v animiranem filmu, animirane ljubezenske pesmi, kratke glasbene animirane filme iz kanadskega National Film Boarda in poljskega Studia za animirani film iz Poznanja ter v predavanju in projekciji predstavili animirani film in jazz. Kot posebna gostja retrospektive se nam bosta pridružila quebeški filmski in zvočni skladatelj Pierre-Yves Drapeau in hišni skladatelj svetovno znanega francoskega studia Folimage, Serge Besset. V sklop retrospektive spadajo tudi celovečerni animirani filmi **Allegro non troppo**, kultna parodija Disneyjeve Fantazije italijanskega mojstra Bruna Bozzetta, moderna klasika **Trojčice iz Belleville** Sylvaina Chometa ter po Andersonu animirani muzikal z glasbo Čajkovskega **Grdi raček** ruskega mojstra Garrija Bardina. Da bi retrospektiva praznično Ljubljano zaobjela tudi zunaj kinematografske dvorane, vam prvič v zgodovini festivala predstavljamo obsežen program sodobnih animiranih glasbenih spotov, ki smo ga pripravili v sodelovanju z našimi partnerskimi festivali. Ob tej priložnosti nam bo svoj pogled na animirane glasbene spote razkril francoski "enfant terrible" Edouard

In its eight edition, Animateka returns to the festive pre-holiday Ljubljana with a special historical retrospective entitled **Animation, music, sound**. Since 2009, Animateka has been exploring the history of aesthetic and technical specifics of the animation medium. In the sixth edition of the festival, we focused on the development of stop-motion, last year we paid homage to avant-garde animation. This year, six historical programme sections will look into the development and creative use of music and sound in animation, and also into animated love songs, short musical animations from the Canadian National Film Board and the Poznan Studio of Animated Film, as well as spotlight animation and jazz through a lecture and screenings. As special guests of the retrospective, we are presenting Pierre-Yves Drapeau, a composer and sound designer from Quebec, and Serge Besset, the in-house composer at the world famous French studio Folimage. Part of this retrospective are also animated feature films **Allegro non troppo**, the legendary parody of Disney's *Fantasy* by the Italian virtuoso Bruno Bozzetto, **The Triplets of Belleville**, the modern classic by Sylvain Chomet, and **The Ugly Duckling**, the Anderson-based animated musical with music from Tchaikovsky by the Russian master Garri Bardin. In order for the retrospective to take over the festive Ljubljana also outside the screening room, we are giving you a vast programme of contemporary animated music videos, prepared in collaboration with our partner festivals, for the first time in the festival history. On this occasion,

Salier. Podrobno bomo retrospektivo predstavili na okrogli mizi s soustvarjalci in z gosti na začetku festivala. Festival tudi letos odpiramо s celovečernim animiranim filmom, ki bo ob retrospektivi Animateki film, glasba, zvok napovedal tudi letošnji **Fokus na Španijo. Chico in Rita**, ki so ga s skupnimi močmi ustvarili španski oskarjevec Fernando Trueba, svetovno priznan oblikovalec in stripovski avtor Mariscal ter njegov brat Tono Errando z glasbo slavnega Beba Valdésa, je poklon rojstvu kubanskega bolera in jazza. Po Poljski, Finski in Nemčiji nas bo v mrzlih zimskih dneh grela predstavitev razvoja animiranega filma na Iberskem polotoku. V štirih zgodovinskih programih in v programu **evropske šole animiranega filma** (ESDIP Madrid) bomo odkrili razvojno pot španske animacije. Rezidenčni umetnik in avtor celostne podobe letošnje Animateke **Max Andersson**, v Berlinu živeč kulturni švedski stripovski ustvarjalec, bo poleg razstave **Bosanski sploščenec**, ki bo v galeriji Kinodvor na ogled v času festivala, na svetovni premieri predstavil animirano-dokumentarni film **Tito on Ice**. V programskem sklopu **Zirja se predstavlja** se bodo ob Anderssonu s svojimi filmskimi programi predstavili še v Španiji živeč nemški avtor **Vuk Jevremović**, britanski psiholog in režiser dokumentarnih filmov **Andy Glynne**, direktorica španskega festivala Animac in barcelonskega kina Xèntric **Carolina López Caballero** ter priznani quebeški vsestranski aktivist na področju animiranega filma **Marcel Jean**. Tudi letos predstavljamo že preverjene programske sklope: **Tekmovalni program** (43 vzhodno in srednjeevropskih filmov v štirih programih) temuje za veliko nagrado mednarodne žirije Maestro), **Vzhodnoevropska in srednjeevropska panorama** (v dveh programih) ter festivalsko zimzeleno uspešnico **Svetovni jagodni izbor**. Veseli nas, da se je obdržal lani na novo postavljen

the French "enfant terrible" Edouard Salier will share his view of animated music videos. The retrospective will be presented in greater detail at a round table debate with filmmakers and guests at the festival kickoff. Once again, the festival opens with an animated feature film, which is also an introduction into this year's **Focus on Spain**. **Chico and Rita**, a joint effort by the Spanish Academy Award winner Fernando Trueba, the world renowned designer and comic artist Mariscal and his brother Tono Errando, with music by the famous Bebo Valdés, pays homage to the birth of Cuban bolero and jazz. After Poland, Finland and Germany, we are focusing on the development of animation in the Iberian Peninsula to bring some warmth into cold winter days. Four retrospective programmes and a programme of the ESDIP European School of Animation (Madrid) will illustrate how Spanish animation developed over time. This year's resident artist and author of the Animateka identity, the legendary Berlin-based Swedish comic artist **Max Andersson** will show his animated documentary **Tito on Ice**. To accompany the world premiere of this film, the exhibition **Bosnian Flat Dog** will be on display during the festival in the Kinodvor gallery. In addition to Andersson, the Jury Programme features film programmes by the Spain-based German filmmaker **Vuk Jevremović**, British psychologist and documentary director **Andy Glynne**, head of the Spanish festival Animac and the Xèntric cinema in Barcelona **Carolina López Caballero**, and the renowned versatile animation activist from Quebec **Marcel Jean**. This year's Animateka returns with tried and trusted programme sections: **Competition Programme** (43 Eastern and Central European films in 4 programmes in competition for the Maestro grand prix awarded by our international jury), **Eastern and Central**

tekmovalni program – znova kar v treh programih za nagrado Univerze v Novi Gorici tekmujejo filmi v **Evropskem študentskem tekmovalnem programu**. V programu **Cartoon East**, skupnem projektu petih regionalnih festivalov, predstavljamo zmagovalce lanskoletnih edicij in posledično v programu **Cartoon d'Or** smetano lanskoletne evropske produkcije kratkometražnih animiranih filmov. Na festivalski program vračamo sklop **festivali v regiji** in predstavljamo Mednarodni festival kratkometražnega animiranega filma K3, ki se bo od leta 2012 odvijal v Beljaku, Vidmu in Ljubljani. Ponujamo še **tri celovečerne animirane filme** za vse okuse in starosti – festivalske premiere mednarodnih festivalskih hitov – *Iluzionista* Sylvaina Chometa, *Mače življenje* Jeana-Loupa Felicolija in Alaina Gagnola ter *Metropio* Tarika Saleha.

Vzgojno-izobraževalni program animiranega filma Slon se kot vsako leto ponosa s štirimi **Slonovimi mednarodnimi tekmovalnimi programi** (zmagovalca nagrade za otroški program Slon izbira otroška žirija), katerim smo zaradi velikega števila prijavljenih kakovostnih animacij letos dodali še **Slonovo panorama**. V **Družinskem Slonu** predstavljamo dva odlična celovečerna animirana filma, že prej omenjeni *Mače življenje* ter *Hijo pravljic* Dominiqua Monferyja, ki v sinhronizirani verziji prihaja v slovensko art kino mrežo spomladji 2012. Dopoldanska festivalska druženja so stalnica festivala in tako se bomo z avtorji filmov v tekmovalnem programu v kavarni Kinodvora pogovarjali na **Srečanjih z avtorji**, na **Delovnih zajtrkih** bomo podrobno predstavili španski animirani film ter spoj animacije, glasbe in zvoka, v **Slovenskem dnevu** pa bomo dali priložnost predstavitve domačim avtorjem in novoustanovljenemu Društvu slovenskega animiranega filma. Spremljevalni program poleg likovne razstave

European Panorama (2 programmes), and the evergreen festival hit **The Best of the World**. We are happy to see last year's new **European Competition Student Programme** take root with, once again, three programmes of films competing for the award presented by the University of Nova Gorica. The **Cartoon East** programme, a collaborative project of five regional festivals, is bringing you all the winners of last year's festival editions, while **Cartoon d'Or** is giving you a chance to see the best of last year's European production in animated shorts. **Festivals in the region** is returning as a festival section, introducing the K3 International Short Film Festival. Its 2012 edition will take place in Villach (Austria), Udine (Italy), and Ljubljana. The festival also brings further **three animated feature films** for all tastes and ages – festival premieres of international festival hits: *The Illusionist* by Sylvain Chomet, *A Cat in Paris* by Jean-Loup Felicoli and Alain Gagnol, and *Metropia* by Tarik Saleh.

The Elephant: Educational Animated film Programme features, as each year, four **Elephant international competition programmes** (the winner in the Elephant programme is selected by a children's jury), and **The Elephant Panorama**, a new programme made due to a high number of excellent entries. **The Family Elephant** brings two outstanding animated feature films, the aforementioned *A Cat in Paris* and *Eleanor's Secret* by Dominique Monféry, the dubbed version of which is coming to Slovenian art cinemas in the spring of 2012. As always, Animateka is giving you an opportunity to **Meet the Filmmakers** of the competing films and talk to them in the Kinodvor Café. **Working Breakfasts** will give an insight into Spanish animation, and the union of animation, music and sound, while the **Slovenia Day** will be an opportunity for Slovenian authors and the new

Tito on Ice Maxa Anderssona v Kinodvorovi Galeriji za zaključek festivala prinaša tudi avdiovizualni koncert **Animirana ŠKM banda**. Gre za sinhronijo glasbe mladih prekmurskih glasbenikov (ki v post-jazzrock maniri preigravajo na eni strani udarne in impulzivne, na drugi pa umirjene, ambientalne ritme) z mladimi slovenskimi avtoricami in avtorji animiranih filmov. Poleg tega bo za maratonske animirane navdušence poskrbljeno tudi pozno v noč, saj bodo dobrodošli v Klub Gromka na Metelkovi, ki je letošnje uradno festivalsko afterparty-središče. V nočnih urah bomo tam poskrbeli za zabave z animiranimi videospoti, avdiovizualnim nastopom, didžejji in koncerti. Letos se posebno veselimo tudi selitve v Maribor, kjer v sklopu Evropske prestolnice kulture pripravljamo generalno vajo za leto 2012, ko bo Animateka na štajerskem koncu z delavnicami za otroke prisotna vse leto, vrh sodelovanja pa bo dosežen na devetem festivalu, ko bomo poskušali ljubljansko in mariborsko edicijo predstaviti vzporedno. Absolutna programska novost **mariborske Animateke** pa je mednarodni tekmovalni program **Mali Slon**, ki predstavlja animirane filme otroške produkcije. Glede na starost avtorjev bo v vsakem od treh sklopov – Mini, Midi in Maxi – žirija izbirala najboljši animirani film. Malega Slona želimo razviti v samostojno festivalsko enoto, ki bo postala mednarodna referenčna točka na tem področju. V času Animateke vas vabimo, da novoletna darila kupite v festivalskem butiku.

Slovenian Animated Film Society to show their work. In addition to Max Andersson's fine art exhibition *Tito on Ice* in the Kinodvor gallery, other events include the audio-visual performance **The Animated ŠKM banda**. It is a synchrony of music by young artists from Prekmurje with a post-jazz rock take on powerful impulsive beats on the one hand and slow ambient rhythms on the other, and young Slovene animation filmmakers. In late-night hours, tireless animation aficionados will have a chance to enjoy animated music videos, an audio-visual performance, DJ's and concerts in Klub Gromka in Metelkova, this year's official festival after party venue. This year, we are especially excited to be moving to Maribor to have a dress rehearsal for the European Capital of Culture in 2012, when Animateka is preparing workshops for children in the Štajerska region all year round. This collaboration will culminate in the 9th edition of the festival, which we aim to make in Ljubljana and Maribor simultaneously. As a brand new section, **Animateka in Maribor** features **The Little Elephant** international competition programme of animated films made by children. A jury will award the best animation in three groups of films classified by age of their authors – Mini, Midi and Maxi. We will strive to make the Little Elephant an independent festival unit, which we hope to become an international reference point. During the Animateka week you are welcome to do your Christmas shopping in the festival shop.

MAX ANDERSSON
ŠVEDSKA/NEMČIJA

Max Andersson je že zelo zgodaj, pri štirih letih, začel brati in risati stripe. Vonj tuša mu je bil skoraj tako všeč kot vonj bencina. Hotel je postati mehanik, vendar sta starša vztrajala pri stripu. Njegov prvi strip je bil brez besedila in se je končal tako, da je glavnega junaka razstrelil dinamit v njegovih hlačah. Potem se je naučil abecede. Po nekaj desetletjih se je naveličal in začel delati filme. Prvi so bili barvni filmi formata 35 mm cinemascope z dolby stereo zvokom. Čez čas je napredoval na 16 mm z mono zvokom. Nazadnje je posnel črno-beli nemih film na super 8 mm. Potem je spet začel s stripi. Od takrat je njegovo delo izšlo v knjižni obliki v več jezikih in v večjih antologijah, kot so *Strapazin*, *Lapin*, *Hôpital Brut*, *Zero Zero* in *Stripburger*. Njegove risbe, predmeti in instalacije so bili prikazani na številnih razstavah po Evropi in ZDA. Max Andersson trenutno živi in dela v Berlinu. Njegov novi film *Tito On Ice* je celovečerni dokumentarec, ustvarjen po dogodkih, ki so sledili izdaji njegovega zadnjega grafičnega romana *Bosanski sploščenec* (v soavtorstvu z Larsom Sjunnessonom). www.maxandersson.com

MAX ANDERSSON
SWEDEN/GERMANY

Max Andersson began reading and drawing comics early, aged four. He found the ink smelled almost as good as gasoline. He wanted to become a mechanic but his parents insisted on comics. His first comic was silent and ended with the main character being blown to pieces by dynamite in his pants. Later he learned the alphabet. After a few decades, he got bored and made movies instead. His first films were in 35 mm colour cinemascope with Dolby stereo sound. After a while he advanced to 16 mm with mono sound. Finally he made a black and white silent film on super 8 mm. Then he started with comics again. Since then, his work has appeared in the form of books in several languages, as well as in major anthologies including *Strapazin*, *Lapin*, *Hôpital Brut*, *Zero Zero* and *Stripburger*. His drawings, objects and installations have been shown in various exhibitions in Europe and the USA. Max Andersson currently lives and works in Berlin. His new film *Tito On Ice* is a feature-length documentary based on events following the release of his latest graphic novel *Bosnian Flat Dog* (co-author: Lars Sjunnesson). www.maxandersson.com

Napsled mu na črem trgu uspe nabaviti dragoceno kredenco iz poljskih 70. let, kar pa očetovo nejelovo samo poveča. *Zbigniew and Henio have a difficult relationship. Zbigniew is more interested in hoarding the items he collects on the black market than playing chess with his father. Ostanejo samo brazgotine – kravne sledi, poti sovraštva. *Focus on fight. The dimension of fighting is irrelevant, as well as the ideology behind it. KONCERT NA VRHU / GIPFEL-GIG /
A SUMMIT GIG
Lukas Egger, Bernhard Bamert (Virage Film)
Švica/Switzerland, 2011, 35 mm, 5'30"

V gorskem hotelu naj bi se zgodil koncert, a zajetni direktor skupino postavi pred vratna. Trije glasbeniki se zato po trenutnem navduhu odpravijo na gorsko turnejo. Koncert na vrhu, bi lahko rekli, na hrbitu velikanske krave, in brezglavi pohod po švicarskih folklornih stereotipih, ki jim naposled prinese določeno zadoščenje. A concert is planned in a mountain hotel, but the burly hotel manager shuts the door on the band. So the three musicians go on a spur-of-the-moment mountain tour. A summit concert, you might say, on the back of a giant cow, and a helter-skelter tour through Swiss folklore stereotypes which ultimately brings them a degree of satisfaction.

A minimalist artist works in silence and concentration on an endless series of hopeless squares. Luckily, he has a child who draws him into a journey through the child's own art – where the toy xylophone is a flying piano and squiggles are forests and strange monsters.

Nomint (Nomint Motiondesign)
Grčija/Greece, 2011, digibeta, 0'45"

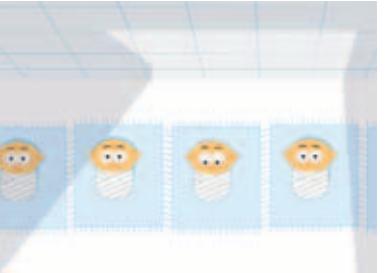

Sreča je resna reč, nedvomno vredna božanstva, kot je Mahahula, ogromni starodavni glodavec, izvirajoč iz vesoljskega semena, ki je na začetku časov strmoglavilo na Zemljo. Film prikazuje srečo v vsej njeni veličastni kompleksnosti: redko, težko dostopno, neznanško in barvito. Gre bolj za nenehno osebno težnjo ali dobrotljiv dar drugih?
Happiness is a very serious matter, definitely worthy of a deity like Mahahula, an ancient gigantic rodent born from an alien seed that crash-landed on primordial earth. The film depicts happiness in all its glorious complexity: obscure, hard to find, huge and colourful. Is it more of a constant personal pursuit or is it a fortunate offering by others?

Šahovska partija, odigrana pred sto leti, rekonstruirana s pomočjo posnetih potez in večkrat retuširane fotografije. Chintis Lundgren (Chintis Lundgren)

MACHINATION 84

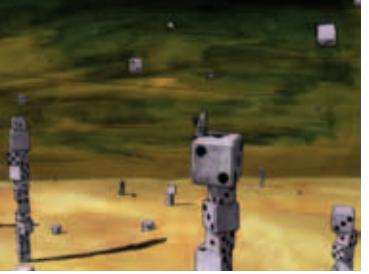

Lia (Lia)
Avstrija/Austria, 2010, HD, 5'43"

Film brez reza, nenehen tok abstraktnih mutacij, nekakšen digitalni bakrorek. Krhka vizualna tekstura, ki je sprva siva, bela in črna, vzplamti v pastelnih odtenkih, ki postajajo čedalje intenzivnejši, sintetična glasbena podlaga, ki jo je ustvaril @C – rahločuten preplet bitja, klikanja in zvonjenja –, pa gradi zloveščo zvočno krajino. A film without a cut, a continuous flow of abstract mutations, a kind of digital copperplate engraving. The fragile visual texture, at first grey, white and black, soon blazes in pastel hues that gradually become more intense, while the synthetic soundtrack by @C – a delicate web of throbbing, clicking and ringing – creates an increasingly ominous soundscape.

UNDERLIFE

Jarosław Konopka (Studio Munka/Sema-for Film Foundation/TVP SA)
Poljska/Poland, 2010, digibeta, 8'30"

Underlife s pomočjo metafore prikaže destruktiven vpliv predkov na človeka in se sprašuje, ali se ga lahko osvobodimo. Otroški voziček, glavni motiv, je prostor, kjer se znajdemo po rojstvu, pa tudi predmet, ki nas pozneje spomni na naše korenine. Določa ciklično naravo obstoja ter preteklost spaja s prihodnostjo.

Underlife employs a metaphor to show the destructive influence that ancestors have on man and poses the question of whether we are able to liberate from it. A baby carriage, the leading motif, is both the place where we appear after birth and an object which reminds us of our roots after years. It determines the cyclical nature of existence and combines the past and the future.

Nekaj tako preprostega, kot je prostitev po delovnem dnevu, postaja skoraj nemogoče. Smo v takšnih okoliščinah sposobni najti notranji mir? A simple peek at an ordinary afternoon of a modern woman. LOOKING FOR LOVE

Adele Raczkövi (Adele Raczkövi)
Avstrija/Austria, 2010, HD, 8'25"

Pes, protagonist filma, je – tako kot vsi mi – poln neizpolnjenega hrepenjenja. V vsakdanjem življenu je televizija vir informacij o naših morebitnih željah in potrebah in tudi psa obvešča, kaj bi si lahko želel. Na zaslonu se prikaže pomaranča – utelešenje čutnosti – in psa premami, da jo gre iskat – s tem pa odide iskat tudi sebe. The dog, the film's protagonist is – like all of us – full of unfulfilled yearning. In daily life, TV is the source of all information about our possible desires and needs, and it also lets the dog know what it might wish for. An orange – the embodiment of sensuality – appears on screen and tempts the dog to go looking for it – and ultimately to look for itself.

Avstria/Austria, 2010, 35 mm, 5'48"

Film *ProstorčasPes* Nikolausa Eckharda je aluzija na Muybridgeovo znamenito fotografsko serijo "Animal Locomotion" (gibanje živali). V njem v zelo počasnem posnetku spremljamo psa, izurjenega posebej za ta namen, na tekaški stezi. Toda v nasprotju s svojim vzornikom Eckhard ni izbral vitkega športnega hrta, temveč manj tipičnega dolgovhega rjavega alpskega brak jazbečarja. *Nikolaus Eckhard's RaumZeitHund* is a reference to Muybridge's famous photo series the "Animal Locomotions". A dog, specially trained for this purpose, is filmed on a treadmill in extreme slow motion. BEST OF THE WORLD I

Ko gre Newyorčan na jutranjem sprehodu mimo piščanca, se vprašamo, kdo od njiju je prava mestna srajca ... Navdih za film je bil resničen dogodek, opisan v knjigi Paula Austerja *True Tales of American Life*. When a New Yorker walks past a chicken on his morning stroll, we are left to wonder which one is the real city slicker... Loosely inspired by a real life event recounted in Paul Auster's book *True Tales of American Life*.

Ženska na avtobusu najde košček papirja, na katerem je s svinčnikom nekaj načečkano. Kar naenkrat se nalepi nanjo in začne rasti. Ženska panično teče domov, kjer naposled le najde radirko. Je že prepozno? A woman finds a piece of paper covered with pencil scribbles on the bus. Suddenly it attaches itself to her and starts to grow. In panic she runs home and at last finds an eraser. Hungry dogs hesitate in front of their prey, though they had found it three months ago. The prey is a dead dog, the same creature as them.

Nadnacionalna ljubezenska zgodba, v kateri manjše pomankljivosti partnerja niso pomembne. Ali pa luknja v njeni nogavici kljub vsemu zmoti objem? A transnational love story in which the partner's minor shortcomings are irrelevant. Or does the hole in her sock interfere with the embrace after all?

Kaj ljudje čutijo, razmišljajo ali vidijo v trenutku orgazma? Nekdo vidi eksplozijo bombe, drugi ulico v Rigi. Animirano raziskovanje ene najbolj mimobežnih in intimnih izkušenj, ustvarjeno na podlagi resničnih intervjujev. What do people feel, think, or hallucinate at the moment of orgasm? One man sees an exploding bomb, another a street in Riga. An animated exploration of one of our most fleeting and private experiences, based on real life interviews.

MARCEL JEAN: ZAPOJMO Z NFB

Ko je Norman McLaren leta 1941 ustanovil prvo ekipo animatorjev NFB (Nacionalnega filmskega sveta Kanade), so prvi filmi, posneti v temstvu vojnega obdobja, temeljili na popularnih pesmih. Cilj je bil razvedriti gledalce s povabilom k skupnemu prepevanju ob dobro znanih tradicionalnih melodijah. Zato animirane pesmi tako v filmografiji Normana McLarena kakor v vsej zgodovini NFB zavzemajo zelo pomembno mesto. Leta 1966 je René Jodoin, eden prvih pajdašev Normana McLarena, sprejel odgovornost, da v okviru Francoskega programa NFB postavi na noge studio za animacijo. Brez omahovanja je spravil v prakso filozofijo, izpeljano iz McLarenove. Jodoin, ki ni imel na voljo veliko sredstev, je našel navdih v začetkih animacije pri NFB in producirjal serijo "Sodobne pesmi", zbirko filmov mladih cineastov, posnetih na podlagi quebeških popularnih pesmi. Tako so se rodili filmi, kakršni so *Tête en fleurs*, *La ville* in *Tout écartillé*. V letih, ki so sledila, so številni cineasti občasno zajemali iz studenca ljudskih pesmi. Naš program skuša povzeti ta močni tok v produkciji NFB.

Marcel Jean

MARCEL JEAN: SING ALONG THE NFB

When Norman McLaren founded the first animation group at NFB (National Film Board of Canada) in 1941, its earliest films made in that war period were based on popular songs. Their aim was to cheer up the audience by inviting it to sing along the well known traditional melodies. Thus, animated songs play an important role in both Norman McLaren's filmography and in the NFB history. In 1966, René Jodoin, one of Norman McLaren's first collaborators, took on the responsibility of setting up an animation studio at the NFB's French Program. Without hesitation, Jodoin put in practice a philosophy derived from McLaren's. With few resources, he looked to the early stages of animation at the NFB for inspiration, producing *Chansons Contemporaines*, a series of short films by young animators based on popular Quebec songs. This gave rise to films such as *Tête en fleurs*, *La ville* and *Tout écartillé*. In the years that followed, many animators occasionally drew from the vast pool of folk songs. This programme aims to capture this strong current of the NFB production.

Kanada/Canada, 1979, HD, 3'

Dekle, ki rado pleše in je godno za možitev, namesto bolje situiranega obsedanca s posetijo izbere njegovega tekmeča splavarja. Prevajanje lesa po reki ga je izobilovalo v najboljšega plesalca daleč naokrog. Lahkotna animirana prioved je privedba pesmi *The Log Driver's Waltz* Wade Hemswortha. V izvedbi pevki Kate in Anne McGarrigle ob spremljavi zasedbe Mountain City Four. A young girl who loves to dance and is ready to marry chooses a log driver over his more well-to-do, land-loving competition. Driving logs down the river has made him the best dancing partner to be found. This light-hearted, animated tale is based on the song *The Log Driver's Waltz* by Wade Hemsworth. Kate and Anna McGarrigle sing to the music of the Mountain City Four.

Kratek film iz *Neubranih Emocij* se pusti gledati ali bolje poslušati kot krik srca. Pevec skupine Offenbach nam posreduje nekakšen klic na pomoč v pesmi z naslovom Love Addict, ki so jo posneli med predstavo v montrealskem Forumu. A short film from *L'Émotion dissonante* that lets itself be watched, or rather listened to like a cry from the heart. In the song Love Addict, which was recorded during a show at the Montreal Forum, the singer of the band Offenbach communicates a sort of a cry for help.

Ta komični animirani kratki film je nastal na podlagi stoletja stare istoimenske ljudske pesmi. Stari g. Johnson se čedalje bolj manično trudi znebiti se malega rumenega mačka, ki noči in noči oditi ... This hilarious animated short is based on the century-old folk song of the same name. Old Mr Johnson makes increasingly manic attempts to rid himself of a little yellow cat that just won't stay away...

Črna mušica je vratolomen skeč, narejen na podlagi istoimenske pesmi, ki ga je napisal in odpel kanadski folk pevec Wade Hemsworth ob spremjevalnih vokalah Kate in Anne McGarrigle. Animirani film priponuje o Hemsworthovih bojih s to tipično domačo živaljo nekega poletja med popisom v Severnem Ontariu. *Blackfly* is a breakneck romp based on the song of the same title, written and sung by Canadian folk singer Wade Hemsworth, with back-up vocals by Kate and Anna McGarrigle. This animated film recounts Hemsworth's battles with this quintessential "critter" during a summer of surveying in Northern Ontario.

V angleško govorečem delu Kanade je Madame Bolduc praktično neznan, toda njene izvedbe ljudskih pesmi so v 30. letih dvignile na noge francoske Kanadčane po vsem Quebecu in delih Nove Anglije. *La Bastringue*, ki jo prikazuje ta ljubki animirani film, je bila ena njenih najpopularnejših pesmi. In English Canada, Madame Bolduc is virtually unknown, but her folk singing put a kick in the step of French Canadians throughout Quebec and parts of New England in the 1930s. Among her most popular songs was *La Bastringue*, illustrated in this lively animated film.

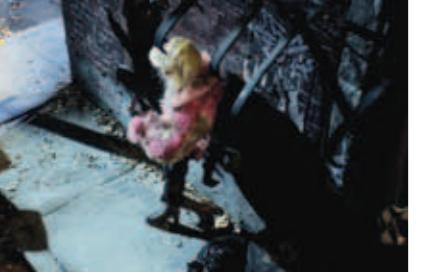

Animirana komedija se odvije ob pesmi *Falling in Love Again* v izvedbi Marlene Dietrich. Igriv obravnava priljubljene mite in klischeje o ljubezni in parodira čudovito omotico zaljubljanja. Ko nasproti vozeča avtomobila, nagnjena na dve kolesi, civilita skozi ostre ovinke, se obeta eksplozivno srečanje njunih voznikov. Trk ju požene v vesolje – na veliko presenečenje para kanadskih gosi. An animated comedy unfolds to Marlene Dietrich's rendition of Falling in Love Again. It is a playful take on popular myths and clichés about love, and a send-up of the glorious vertigo of falling in love. When two cars travelling in opposite directions careen around sharp curves, screeching on two wheels, the meeting of their occupants promises to be explosive. The collision propels them into outer space – much to the surprise of a couple of Canada geese.

Zunaj je november. Skozi odprto okno kašija na posteljo priklenjen človek. Z drevesa odpade zadnji sadež. Pogradi ga podgana, ki jo ujame maček. Mačka povazi avto. Izstopi stranka in pristopi k prostitutki. Ob drevesu sloneč džanki vzame v roke iglo. Smrt je vsenaokrog. Zvodnik prostitutki preda mamila, ji vzame denar. Džanki roti zvodnika za fiks; zvodnik ga porine v obcestni jarek. Prostitutka mu pomaga, džanki jo udari in ji ukrade torbico. V sobi človek zakašlja. Na nočni omarici so zdravila in orglice. Notri je november.

NAJ ŽIVI VRNICA / VIVE LA ROSE
Bruce Alcock (NFB)
Kanada/Canada, 2009, HD, 6'22"

Outside, it's November. Through the open window, a bedridden figure coughs. The last fruit falls from a tree. It is grabbed by a rat, which is caught by a cat. The cat is run over by a car. A john gets out and approaches a hooker. A junkie slumped against the tree, picks up a syringe. Death is omnipresent. The pimp slips the hooker her drugs, takes her money. The junkie begs the pimp for a fix; the pimp knocks him into the gutter. Helped up by the hooker, the junkie hits her and steals her purse. Inside the room, the figure coughs. On the bedside table, pills and a harmonica. Inside, it's November.

Zadnji posnetek ene najvidnejših novofundlandskih izvajalk tradicionalne glasbe Emile Benoit, nežna izvedba francoske pesmi iz 18. stoletja, je srce filma *Vive la rose*. Njegov pripovedni fokus je zgodba o neuslušani ljubezni in omahljivi obsedenosti ves čas življenja, bolezni in zgodnje smrti objekta poželenja, spremila pa ga čustvena izvedba z močnim novofundlandskim francoskim naglasom Benoitove in drhtecim glasom starca. Animacija *Vive la rose* film umešča na lokacijo, ki obuja preteklost, in risbe v tušu kombinira z vrsto romantičnih in asociativnih elementov in predmetov.

Based on the last recording by one of Newfoundland's foremost traditional music performers, Emile Benoit's tender delivery of the 18th century French song is the heart of *Vive la rose*. The story of unrequited love and tentative obsession throughout the beloved's life, sickness and early death is the narrative focus, accompanied by an emotional interpretation of Benoit's strong Newfoundland French accent and wavering old man's voice. *Vive la rose* is animation on location, rooting the film in a location that evokes the past, and combines ink drawings with a variety of romantic and associative elements and objects.

Slikar Pablo Ruiz Picasso se znajde v labirintu svojih del. Animirani film, ustvarjen s pomočjo gline, vstopi v Picassovo reprezentativno sliko *Guernica*, ki je nastala po grozovitem bombardiranju civilnega prebivalstva v španski državljanški vojni. Drzni podvig, ki se približa umetnikovemu delu, je po zaslugu brezhibne animacije in mizanscene nadpovprečno zanimiv. The artist Pablo Ruiz Picasso goes into a labyrinth of his own works. The film enters the emblematic *Guernica* painting (made after a horrible Spanish Civil War bombing of civil population) using clay. Approaching the work of the master, this risky exercise ends up being much more interesting than average thanks to the impeccable animation and *mise en scène*.

Mož, ki sede k zajtrku, v svoji kavi odkrije pravi mali svet. Glavni junak, ki je tudi glavni gledalec, opazuje lovski obred iz kamene dobe. The main character, who is also the main spectator, sees a hunting ritual from the Stone Age. After experimenting with his vision, the man gets on with his routine and goes to work.

When Alfredo dies without having revealed to his wife the hiding place of the fantastic fortune that they had won together in a lottery, Vicenta keeps looking everywhere until she assumes that the only way to find it is to ask her deceased husband.

V nasprotju z zemeljskimi živalmi, ki se nagonsko vedno borijo za preživetje, se zdi, da so ta nadrealistična bitja obsojena na izgubljanje časa in energije, zato pa tudi na absurdno in komično izumrtje.

Fake documentary about the life and habits of non-terrestrial creatures that spend 24hrs with the narrator. Unlike terrestrial animals, whose instincts are focused on survival, the nature of these surreal creatures seems to condemn them to a loss of time and energy and eventually, to an absurd and comical extinction.

Maria je avtistična deklica. Njen oče Miguel, eden najboljših španskih stripovarjev in ilustratorjev (ikona alternativne stripovske scene iz 80. let), je o njej izdelal zelo oseben strip *Maria y yo*. Na podlagi iste zamisli in risb Miguela Gallarda je nato nastal tudi odmeven dokumentarni film. Fundacija Orange je po uspehu knjige in filma naročila še animirani kratki film, ki bi s pomočjo istih likov gledalce izobraževal o avtizmu.

Maria is an autistic girl. His father Miguel, one of the best Spanish comic artists and illustrators (a real hero of the 80's underground comic scene) published a very intimate album on her entitled *Maria y yo*. This was the start for an acclaimed documentary film that used some of Miguel Gallardo's drawings. With the success of the book and the film, Orange Foundation commissioned an animated short using the same characters to create awareness on autism.

ANDY GLYNNE: ANIMIRANO MIŠLJENJE

Animirano mišljenje je serija kratkih animiranih dokumentarcev z resničnimi izpovedmi ljudi, ki doživljajo razne oblike duševnih stisk. Filme povezuje skupni cilj – pomagati razbiti mite in napačne predstave o „duševni bolezni“, saj dajejo besedo tistim, ki različne motnje doživljajo na lastni koži.

Serija filmov *Animirano mišljenje* je nastala v kar najširšem sodelovanju. Režiser Andy Glynne se je šolal za kliničnega psihologa in je tako poznal področje duševnega zdravja ter nekatere mite in predstanke, ki spremljajo različna „duševna stanja“. Našel je ljudi, ki so bili pripravljeni govoriti o svojih izkušnjah, z njimi posnel intervjuje in jih nato skrčil v kratke pripovedi, polne vizualnih metafor. Ko je bil prepričan, da v gradivu ni nobenih podatkov, ki bi bili za vpletene lahko neprijetni, se je začel proces animacije. Andy je v sodelovanju z vrhunskimi animatorji hotel izdelati vizualne sekvence, ki bi avdio intervjuju dodale globino in pomen. Iz tega je nastal ‚zgodoboris‘, s pomočjo katerega so on, animatorji in intervjuvanec videli, kako približno bo videti končna animacija. Ko so bili s končnim izdelkom vsi zadovoljni, so prišli na vrsto skladatelji, ki so dokončanemu delu dodali zvočno podobo in glasbo. Vse je metafora in ekipa ustvarjalcev serije *Animirano mišljenje* se zaveda, da nikoli ne moremo popolnoma razumeti, kako je, če v resnicu doživljaš težave, predstavljene v teh filmih. Kljub temu pa – ko govorimo o metaforah – jim je bilo dobro izhodišče, da s skupnimi močmi pomagajo izobraževati ljudi in jih pripravijo do razmisleka o tem, kaj pomeni imeti duševne težave. To je bil cilj Andya in vse njegove ekipe ustvarjalcev – upaj, da boste ob ogledu filmov pomislili, da jim je uspelo.

ANDY GLYNNE: ANIMATED MINDS

Animated Minds is a series of short animated documentaries which use real testimony from people who have experienced different forms of mental distress. A single aim underpins all the films: to help dispel myths and misconceptions about ‘mental illness’ by giving a voice to those who experience these various difficulties first hand.

The process of making the *Animated Minds* films was as collaborative as possible. Andy Glynne, the director, trained as a clinical psychologist and therefore knew about mental health and some of the myths and prejudices that surrounded various “conditions”. After having identified individuals who wanted to talk about their experiences, Andy recorded interviews with them, which were then edited down to create a short narrative rich in visual metaphors. Once it was made sure that no information was included which might cause any distress to the people involved, the process of animation began. Working with some of the best animators, Andy tried to create visual sequences which would add depth and meaning to the audio interview. This would result in a ‘storyboard’ which gave him, the animators, and the interviewee a sense of what the final animation may look like. When everyone felt happy with the final product, composers were brought in to add a soundscape and music to the finished piece. It’s all metaphor, and the team behind the *Animated Minds* films knows that it can never be fully understood what it feels like to actually experience some of the difficulties covered in these films, but – as far as metaphors go, it was felt that it would be a good starting point to all work together to help inform people and get them to think more about what it means to have a mental health problem. This was Andy’s and all the team behind *Animated Minds* ambition and they hope that, when watching the films, you feel they have succeeded.

DIMENZIJE / DIMENSIONS

Andy Glynne, Rob Chiu (Mosaic Films)
Velika Britanija/UK, 2009, digibeta, 3'

Brbljanje, šepetanje, občasno nedolžno, drugič zlobno. Zmedene misli, nepovezane zamisli in prividi velikopoteznosti, preganjanja in paranoje. Film govori o doživljaju psihoze, in še pomembnejše, govori o tem, kaj psihoza ni: ni razsepljena osebnost, ni nekaj, česar "normalen" človek ne more doživeti, ter ne prispeva k širjenju kulture nasilnih ljudi, ki niso sposobni delovati in živeti v "resničnem" svetu ali biti del njega.

Chattering, whispers, sometimes benign, sometimes malevolent. Disordered thought, tangential ideas, and delusions of grandeur, persecution and paranoia. This piece focuses on what it is to experience psychosis, but more importantly what it is not: it is not split personality, it can exist in otherwise "normal" people, and it does not give rise to a culture of violent people, unable to function or be connected to the "real" world.

THING

Andy Glynne, Paul Rains (Mosaic Films)
Velika Britanija/UK, 2009, digibeta, 3'

A woman's story about becoming more manic, as she soars to the heights of euphoria, floating on the winds of disinhibition. And then, without warning, we see the fall to despair, to a dark world without meaning; an inner world of depression made all the worse by the still fresh memory of euphoria. This is the world of manic depression, from the oh-so-highs to the oh-so-lows, when the brightness within her – that light bulb thing – has gone out.

Mike trpi zaradi paničnih napadov in agorafobije ter se pogosto težko odpravi od doma. Ko z vizualnimi podrobnostmi opisuje, kako doživlja izčrpavajočo tesnobo, spoznamo njegove težave in preizkušnje, v katerih je celo obisk trgovine lahko "prava prekleta nočna mora".

Mike suffers from panic attacks and agoraphobia, and often finds it difficult to get out of the house. As he describes in visual detail what it's like to suffer from debilitating anxiety, we witness the trials and tribulations of how even a journey to the supermarket can be "like a bloody nightmare".

ANDY GLYNNE: ANIMIRANO MIŠLJENJE

Nasilne nočne more, samomorilne misli in nezmožnost živeti v svoji koži. Film raziskuje razloge, zaradi katerih se pri mladih pojavijo motnje hranjenja, pri čemer se ne ustavi pri razpravi o kulturni presuhih deklet in pritisku vrstnikov. Nicole ni hotela shujšati zato, da bi "dobro zgledala" ali da bi lahko nase navlekla manjša oblačila. Bila je osamljena, odmaknjena od vsega in vseh okrog sebe, in zbolela je za hudo obliko anoreksije, saj je hotela "zavzemati manj prostora na svetu", postati nevidna in nazadnje izginiti.

Oglejte si, kako lahko vsakdanja rutina, kot je odhod od doma v šolo, za najstnika postane najhujša nočna mora ... Ali kako lahko številke prevzamejo nadzor nad mladim umom do takšne mere, da uravnavajo vedenje in sprožajo neželena dejanja ... S pomočjo Dannyjeve izpovedi dobimo osupljivo iskren vpogled v težave mladostnikov, ki trpijo za obsesivno-kompulzivno motnjo.

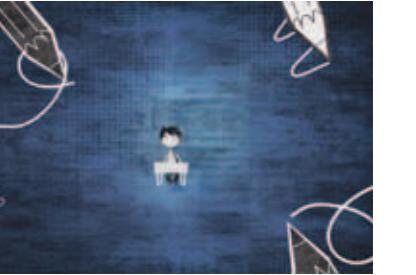

Discover how an everyday routine like leaving the house for school can become the worst nightmare for a teenage boy... Or how numbers can take over a young mind to the point of driving behaviour and influencing unwanted actions... With Danny's testimony we gain a revelatory insight into the struggles of some teenagers suffering from obsessive compulsive disorder.

TUJEK NA IGRIŠČU / AN ALIEN IN THE PLAYGROUND

Andy Glynne, Matthew Morgan (Mosaic Films)
Velika Britanija/UK, 2009, digibeta, 3'

Josh nikoli ni razumel iger, ki so se jih igrali drugi otroci. V njih ni videl smisla. Raje je sam zase hodil po črtah, narisanih na igrišču. Začeli so ga gledati kot "čudaka" in hitro je postal tarča šolskih nasilnežev. Šolska pravila in preštevilni zunanjí impulzi so ga vse bolj dušili, nadlegovanje se je leto za letom krepilo in šola je postala živa nočna mora oz. po Joshevi besedah "cela fobija". Z Joshevo pripovedjo dobimo dragocen vpogled v svet Aspergerjevega sindroma in izvemo, kako nekateri otroci v šoli trpijo in zato doživljajo hude čustvene stiske.

Josh never understood the games other children played. They didn't make sense to him. He preferred walking all alone following the lines designed on playgrounds. He started to be seen as a "weird boy" and became quickly a target for school bullies. Year after year while he was increasingly overwhelmed by school rules and sensory overload, the bullying got worse and school became like a living nightmare or in the Josh's words "a full-blown phobia". With Josh's testimony we gain a precious insight into the world of Asperger's syndrome discovering how some pupils can struggle at school and consequently suffer from profound emotional distress.

ANDY GLYNNE: ANIMIRANO MIŠLJENJE

Abbie, Louise and Nicole so se ožigale z vsem, od segrete kovine do cigaret, v kožo so si zabadelo igle, tolke po steni in se metale po stopnicah ... Spopadale so se z "občutkom neobstajanja", z nezmožnostjo joka in izražanja čustev, s potrebo po tem, da izrežejo "pošast v sebi". Film raziskuje dražljaje, zaradi katerih se nekateri mladi samopoškodujejo, ter navidezno olajšanje njihove čustvene stiske, ki ga prinese fizična bolečina.

Abbie, Louise and Nicole have burned themselves with everything from heated metal to cigarettes, stabbed needles into their skin, punched the wall and thrown themselves down the stairs... They were fighting against "feeling unreal", against the inability to cry and express emotions, the urge to cut away "the monster inside themselves". This film explores the impulses that cause some young people to self-harm and the relief that physical pain seemingly provides from the emotional pain they suffer.

OBSESIVNO KOMPULZIVEN / OBSESSIVELY COMPULSIVE

Andy Glynne, Gemma Carrington (Mosaic Films)
Velika Britanija/UK, 2009, digibeta, 3'

Steve opisuje, kako je bil ob vsaki misli na Sadama Huseina prepričan, da soustvarja konflikt v Perzijskem zalivu. Hoja, pogovor, obedovanje, pitje – vse to je bilo treba zaključiti brez vsiljive misli na Sadama, sicer je moral dejanje ponavljati v nedogled. Redko viden vpogled v težave ljudi, ki trpijo zaradi obsesivno-kompulzivne motnje. Steve describes how whenever he thought of Saddam Hussein he thought that he was contributing to the conflict in the Gulf. Walking, talking, eating, and drinking – all these actions had to be completed in the absence of an intrusive thought about Saddam, otherwise he would have to repeat the action again and again and again. A rare glimpse into the struggle for those faced with obsessive compulsive disorder.

VUK JEVREMOVIĆ: RETROSPETKIVA

Vuk Jevremović je bil rojen leta 1959 v Frankfurtu v Nemčiji, vendar je otroštvo preživel v nekdajni Jugoslaviji. V skladu z družinsko tradicijo je na Tehnični univerzi v Beogradu študiral arhitekturo in leta 1984 diplomiral. Potem ko je nekaj časa preživel v mornarici kot voznik, se je odločil, da življenje posveti umetnosti – slikarstvu in risanju. Razstavljal je začel leta 1986 in kmalu obveljal za obetavnega mladega umetnika bivše Jugoslavije. Leta 1991 je sklenil, da se preseli v München, kjer je na likovni akademiji študiral pri profesorju Gerhardu Bergerju. Leta 2002 je magistriral pri profesorju Josephu Kosuthu. V svet animacije je zašel po naključnem srečanju s priznanim hrvaskim animatorjem Nedeljkom Dragičem. Vpisal se je na tečaj animacije, ki ga je vodil Dragič, in se nesmrtno zaljubil v gibljive sličice. Njegova prva animacija, *The Wind Subsides*, prikazuje geparda v gibanju. Predvajali so jo po vsem svetu, prinesla pa mu je 2 veliki nagradi in 17 drugih nagrad. Uspešen je bil tudi njegov naslednji film *Panther*, ki je nastal po navdihu pesmi R. M. Rilkeja. Osvojil je 15 mednarodnih nagrad in se leta 1998 uvrstil v končni izbor za oskarjevsko nominacijo v kategoriji kratkega animiranega filma. Od tedaj je Jevremović neločljivo povezan z animacijo in še vedno ustvarja kratke filme, med katerimi so *Diary* (v izboru za oskarja) *Faces*, *Quercus*, *The Wheel Turns*, *Close Your Eyes and Do Not Breath*, *Lux in Patience of the Memory* (v izboru za oskarja). Zaradi Jevremovičevega prirojenega občutka za film je njegovo delo avdiovizualni spektakel z organskim tokom priopovedi.

VUK JEVREMOVIĆ: RETROSPECTIVE

Vuk Jevremović was born 1959 in Frankfurt on Main (Germany), but he spent his childhood in ex Yugoslavia. Following the family tradition, he studied architecture at the Technical University Belgrade and graduated in 1984. After spending some time in the navy as a diver, he decided to dedicate his life to art: painting and drawing. He started exhibiting in 1986 and in the following years he was considered a promising young artist in former Yugoslavia. He decided to move to Munich in 1991 where he studied at the academy of Fine Arts with professor Gerhard Berger. Later, he earned his master degree with professor Joseph Kosuth, 2002. His inclusion into the animation world was due to a casual encounter with the renowned Croatian animator Nedeljko Dragič. He joined the animation course Dragič was giving and fell in love for ever with the moving images. His first animation was based on a cheetah in motion, *The Wind Subsides*. That first film was shown all over the world, and won 2 Grands Prix and 17 Awards. The next film, inspired by a R.M.Rilke's poem, *Panther*, was also successful. It won 15 international awards and came into final balloting for the Oscar (1998) as best animation short. Since then, his life has been linked to animation and he has continued to create short films: *Diary* (Oscar qualified), *Faces*, *Quercus*, *The Wheel Turns*, *Close Your Eyes and Do Not Breath*, *Lux and Patience of the Memory* (Oscar qualified). His natural flair for motion pictures makes his work an audiovisual spectacle in which the narrative flows organically.

RETROSPEKTIVA ANIMIRANI FILM, GLASBA, ZVOK: ORGANIZIRANI ZVOKI V ANIMACIJI

Pri animiranem filmu ni istočasnega snemanja zvoka in slike, tako zvočni kot vizualni prostor sta nedolžna. Iz tega izhaja, da je pogosto: "Ko sta glasba in animacija večše združeni, lahko njuna sinergija zelo močna, glasba poudarja animacijo in animacija poudarja glasbo, celota je večja od vsote njenih delov."¹ Do tega pride tudi, ko prostor sploh ni nedolžen, temveč je film narejen na osnovi že obstoječe glasbe, ko film izhaja iz značilnosti glasbe, kot to velja za dela italijanskih mojstrov Gianinija in Luzzatija: "Midva pri delu izhajava iz glasbene opreme. Kaj bova delala, se odločiva na osnovi glasbene opreme. Torej koliko risb, koliko taktov. Zajameva vse takte. Koliko fotogramov je potrebnih do določene dobe. Filma ne montirava, vse počneva sproti. Delo poteka v dveh delih. Najprej poslušava glasbo in se odločiva, kaj bova naredila z njo, torej kaj se dogaja v tem komadu in kaj v tistem. Odločiva se tudi, kaj pa vem, kako kaj narisati, katero barvo izbrati, kje narediti nekaj bolj abstraktnega ... po mojem točno tako, kot je pri glasbi. To je prva odločitev in vse se napiše v storyboard."² Ta oblika upodobitve obstoječih glasbenih del z gibljivimi slikami je dala nekatere največje mojstrovine animiranega filma, kot sta *Noc na Golem hribu* (Une nuit sur le mont Chauve) Alexandra Alexeieffa, v katerem plastična vzinemirljivost podob, ustvarjenih na tabli z bucikami (pinscreen), podaljšuje in poudarja glasbeno vzinemirljivost poeme Musorgskega, ter

ANIMATION, MUSIC, SOUND RETROSPECTIVE: ORGANISED SOUNDS IN ANIMATION

In animation, sound and picture are not recorded and shot simultaneously; both the sound landscape and the visual one are virgin. This often means that "when music and animation are synchronised in a skilful way, they can produce powerful synergy by music accentuating animation and animation accentuating music, making the whole bigger than its component parts."¹ This can also happen when the landscape is not pure, meaning that the film is based on pre-existing music and takes characteristics of the music as its starting point. This is typical of Italian masters Gianini and Luzzati: "In our work, we start off with the soundtrack. Our decision about what to do is based on the soundtrack. How many images, how many bars. We take in all bars. How many frames we need to a particular beat. We don't edit the film at a later point, we do everything as we go along. We work in two stages. First we listen to the music and decide what to do with it, see what goes on in which piece. We also decide, for instance, how to draw things, what colour to use, where to make things more abstract... I think this is exactly like making music. This is the first decision we make and everything is written down in a storyboard."² This form of visualising existing music scores with moving images gave birth to some of the greatest masterpieces in the history of animation, such as *Night on Bald Mountain* (Une nuit sur le mont Chauve) by Alexander Alexeieff, in which the graphic excitement of images created by pinscreen perpetuates and intensifies the musical excitement of Mussorgsky's poem, and the outstanding series of characters in *Satiemania* by Zdenko

izjemen niz likov v *Satiemanii*, ki ga je ustvaril Zdenko Gašparovič po klavirskih tonih Erika Satieja. Ko pa je glasba kratkega animiranega filma izvira, privzame edinstvene, posebne značilnosti, ki se povsem skladajo z drugačno in izvirno definicijo glasbe, ki jo je podal skladatelj Edgar Varèse: *organiziran zvok, razumljen kot ustvarjanje povsem novih zvočnih kombinacij, pri katerih so različne sestavine (šumi, glasovi, glasbila itd.) enakopravno prisotne in združene v eno samo popolno glasbeno kompozicijo zvočne opreme*. Animirani film zahteva tako natančno organizacijo zvokov, da je skladatelj pogosto odgovoren za vse prvine, ki tvorijo zvočni svet filma, zato je tesno sodelovanje z avtorjem filma nujno. Carl Stalling in Scott Bradley sta glavni primer skladateljev, ki so uporabljali celoten orkester za ustvarjanje zvokov, šumov in glasbe za animirane filme vse od začetka zvočnega filma dalje. Od prvih eksperimentov s konca 20. let pa tja do poznejih 50. let prejšnjega stoletja sta Bradley in Stalling ustvarila neskončen niz barvitih orkestralnih sugestij, ki so skrivnost nesmrtnosti prihkratkometažcev Disneyjeve produkcije ter filmov Texa Averyja in Chucka Jonesa iz zlatega obdobja ameriške risanke. V tej obliki zgodbe, pri kateri se priповeda shema nenehno ponavlja, je glasbena parodija *Mrtvaškega plesa* Camilla Saint-Saënsa, ki jo je napisal Stalling za Disneyjev *Ples okostnjakov* (*Skeleton Dance*), prvi primer skladanja glasbe za animirano risbo, ki je plod številnih prvin; te v teknu filma privedejo do verižne reakcije, kar je še vedno lepo vidno v serijah *Looney Tunes* in *Merry*

Gašparovič, which is based on piano music by Eric Satie. If an animated short is based on original score, this music takes on a unique and special character. This corresponds perfectly with an alternative and original definition of music made by composer Edgar Varèse: *organised sound, perceived as the making of completely new sound combinations in which diverse elements (noises, voices, instruments, etc.) are present to an equal extent, making one single perfect music composition of the soundtrack*. An animation requires such precision in sound organisation that the composer is often responsible for all elements that make up the sound of a film, therefore close cooperation with the author of the film is a must. Carl Stalling and Scott Bradley are the most prominent of the composers in the history of sound film who have used a whole orchestra to create sounds, noises and music for animations. From the earliest experiments in late 1920s to the late 1950s, Bradley and Stalling created an endless series of vibrant evocative orchestrations, which are what really made the first short Disney productions and films by Tex Avery and Chuck Jones of the golden age of American cartoon immortal. With a form of the story in which the narrative scheme is subject to constant repetition, the music skit based on *Dance of Death* by Camille Saint-Saëns, composed by Stalling for Disney's *Skeleton Dance*, is the first example of how composing music for animated images is the result of many elements that culminate in a chain reaction during the film. This shows nicely in Warner Bros' and MGM's series *Looney*

Meodies Jonesa in Averyja za Warner Bros. in MGM. Kako so te značilnosti zvočne opreme ključne za spremljanje filmov Texa Averyja, lepo pojasni Michel Chion: ... oglejte si film Texa Averyja brez zvoka in predvsem brez glasbene interpunkcije; nemti vidni liki se oddalijo, slabu se vtisnejo v zaznavo, gibljejo se prehitro. Zaradi "relativne inertije očesa, njegove lenosti v primerjavi z urenostjo ušesa pri prepoznavanju in pomnenju gibljivih likov, je zvok tiskar hitrih vidnih zaznav."³ Pomena zvočne opreme za uspeh kratkega animiranega filma ne gre podcenjevati in na srečo se številni animatorji in skladatelji tega povsem zavedajo. V Kanadi je bilo sodelovanje med Normanom McLarnom in Mauriceom Blackburnom od 50. let dalje osnovni zgled in je ustvarilo nepretrgano nit raziskovanja ter pripomoglo k nenehnemu izpopolnjevanju pri ozvočevanju filmov z uveljavljenimi umetniki, kot so Yves Daoust, Jean-Denis Larochelle, Judith Gruber-Stitzer, neuničljivi Normand Roger, Robert M. Lepage, ter novo generacijo iz Olivierjem Calvertom in Pierrom Yvesom Drapeaujem (nikakor ne gre zamuditi njegovega zadnjega sodelovanja z Normandom Rogerjem pri novem filmu Kojija Yamamure *Muybridge's Strings*). Dobra zvočna oprema filma nastane na osnovi podob, ki si jih zamisliti avtor filma, in ne na podlagi scenarija ali storyboardsa, kajti kot pravilno ugotavlja Normand Roger, lahko zgodbo pove kdor kolik, vsak pa jo na svoj poseben način ilustrira in spravi v gibanje. In če je animirani film umetnost animiranja, oživljavanja nepremičnih predmetov in risb, sta zvok in glasba dih animacije. Zvočna oprema

Tunes and *Merry Melodies* by Jones and Avery. Michel Chion offers a good explanation for how crucial these features of film sound are in watching Tex Avery's films: "... watch a film by Tex Avery without sound, particularly without the musical punctuation, and you will see visible silent characters drift away, move too fast, your perception of them will be weak. Due to a relative inertia of the eye, its laziness compared to the quickness of the ear in recognising and memorising moving characters, sound is the designer of quick visual perception."³ The importance of sound for the success of an animated short is not to be underestimated and, luckily, many animators and composers are well aware of this. In Canada, the collaboration between Norman McLaren and Maurice Blackburn has served as a basic example since the 1950s, bringing about a continuous thread of explorations and contributing to never-ending attempts at perfection in coupling films with sound by renowned artists, such as Yves Daoust, Jean-Denis Larochelle, Judith Gruber-Stitzer, the indestructible Normand Roger, Robert M. Lepage, and the new generation featuring Olivier Calvert and Pierre Yves Drapeau (his last collaboration with Normand Roger in Koji Yamamura's new film *Muybridge's Strings* is not to be missed). Good film sound is based on images designed by the filmmaker, not on a script or a storyboard, because, as Normand Roger rightly says, a story can be told by anyone, but the way it is illustrated and set in motion will vary. If animation is the art of animating, bringing

je zapletena mešanica zvokov in šumov, ki so brezhibno združeni in odmerjeni v metakompozicijo, in kdr izbira, združuje in organizira te zvoke, se mora po eni strani počutiti povsem svobodnega pri svojem ustvarjalnem procesu, vendar se mora po drugi strani predvsem zavedati, da je v službi filma in estetike njegovega avtorja. Skorajda manična pozornost, ki jo namenjajo zvoku v animiranih kratkometražcih, je na srečo pozitiven "virus", ki se vse bolj širi. Sicer pa so bili tudi veliki mojstri svetovne animacije od nekdaj pozorni na zvok, kar je očitno ob poslušanju katerega kolik filma Jana Švankmajerja ali bratov Quay, Aleksandra Petrova ali Konstantina Bronzita, pa tudi najnovjejšega filma Claudiusa Gentinetta in Franka Brauna Spanec. Odličen diplomski film *Tavajoča hiša, polna ptičje vode* Veronike Samartseve kaže, da v zadnjih letih tudi pri zaključnih študentskih delih mladih animatorjev pripisujejo vse večji pomen "zvočnemu videzu" filma, njegovi akustični krajini. To je dober obet, da bo prihodnost postregla s prijetnimi presenečenji za naša "cinefilsku ušesa".

immovable objects and drawings to life, sound and music are the breath of animation. Film sound is a complex mix of sounds and noises flawlessly combined and portioned out in a meta-composition. On the one hand those who select, combine and organise these sounds must feel complete freedom in this creative process, but on the other they need to bear in mind they are in service of the film and its author's aesthetics. An almost manic attention that animated shorts pay to sound is, fortunately, a positive "virus", which keeps spreading at an increasingly rapid pace. That said, greatest masters of animation worldwide have always treated sound with great care. Just listen to any film by Jan Švankmajer or the Quay brothers, Alexandre Petrov or Konstantin Bronzit, or *Schlaf*, the latest film by Claudio Gentinetta and Frank Braun. The wonderful graduation film *Wandernd Haus voll Vogelwasser* by Veronika Samartseva shows that the "sound character" of a film, its acoustic landscape, has recently been given an increasingly important role also in the work of young animation students. For our "cinephile ears", this promises a future of nice surprises.

Prvi govoreči risani film s sinhronizirano glasbeno podlago v zgodovini! Pes v filmu spodbuja gledalce, naj "pojejo s poskakujčo žogico", kar je eden od prvih poskusov sinhronizacije animacije z dialogi. Film je del serije *Ko-Ko Song Car-Tunes*, ki je znana tudi po pionirske poskusih uporabe zvoka v animaciji.

History's first talking cartoon film with a synchronized soundtrack! This is one of the earliest attempts to synchronize animation with dialogue, as a dog in the film encourages the audience to "sing along with the bouncing ball". Part of the *Ko-Ko Song Car-Tunes*, a series that also made efforts in the first application of sound and animation.

Ta film velja za debi Mikija Miške kot tudi njegovega dekleta Minnie, čeprav sta se oba lika nekaj mesecev prej pojavila v poskusnem predogledu. Risanka je pomembna tudi zato, ker je ena prvih zvočnih risank oz. je prva risanka s popolno zvočno podlago, ki je bila ustvarjena v postprodukciji.

This cartoon is considered the debut of Mickey Mouse, as well as his girlfriend Minnie, even though the characters had both appeared several months earlier in a single preview. The film is also notable for being one of the first cartoons with synchronized sound. More precisely, it was the first cartoon to feature a fully post-produced soundtrack.

KROGI / KREISE / CIRCLES
Oscar Fischinger (Tolirag)
Nemčija/Germany, 1933, 16 mm, 1'40"

Ker se nacisti v oglašnih filmih niso pretirano poglabljali v slog, je Fischinger film *Krogi* izdelal s pomočjo novega tribarvnega postopka Gasparcolor, v katerem je bilo sporočilo "Oglaševanje doseže vse kroge družbe" sprejeto kot zadosten razlog za prikaz dinamičnega toka barvnih krogov.
As advertising films were not closely scrutinized by the Nazi party for style, Fischinger prepared his Circles using the new 3-color process Gasparcolor, in which the message "Advertising reaches all circles of society" was accepted as a suitable excuse for a dynamic flow of colorful circles.

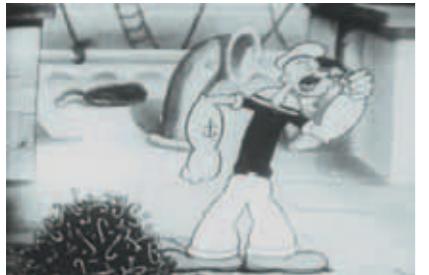

NOČ NA GOLI GORI / UNE NUIT SUR LE MONT CHAUVE / NIGHT ON BALD MOUNTAIN
Alexandre Aléxieff, Claire Parker (Alexandre Alexeieff, Claire Parker)
Francija/France, 1933, 16 mm, 7'

Noč na Goli gori je nočna mora, čaroviška srhljivka. Čarovnice, demoni in konjski okostnjaki v kontrastnih dnevnih in nočnih odsevih drug drugega ustvarjajo vročično simfonično pesnitve, ki jo glasba Musorgskega "opisuje" enako silovito, kot bi jo besedna zvočna podlaga. Opis pogleda in zvoka pa ni priposeden in prozaičen, temveč poetičen in liričen.
Night on Bald Mountain is a nightmare, a *Walpurgisnacht*. The film's witches, demons and skeletal horses, in contrasting day and night reflection of each other, create a feverish tone poem that Mussorgsky's music "describes" as powerfully as would a verbal soundtrack. The description, however, of both sight and sound is poetic and lyric rather than narrative and prosaic.

ZAPOJMO S POPAJEM / LET'S SING WITH POPEYE

Dave Fleischer (Fleischer Studios)
ZDA/USA, 1934, 16 mm, 2'10"

Popaj med pohajkovanjem po krovu jadrnice prepeva svojo naslovno pesem. Vrstice pesmi trikrat poudari s prikazom svoje moči. Sidro jadrnice z enim samim udarcem zdobi v kup kavljev za trnek. Velika ura doživi podobno usodo, saj konča kot nabor ročnih ur in budilki. Nazadnje Popaj mali jambor razkosa v ščipalke za perilo.

Popeye is singing his theme song as he strolls along the deck of a sailing ship. He punctuates the lines of the song with three demonstrations of his strength. With a single punch, he reduces the ship's anchor to a pile of fish hooks. The large ship's clock meets a similar fate, ending as an assortment of watches and alarm clocks. Finally, a small mast is reduced to clothes pins.

KONCERT / THE BAND CONCERT

Wilfred Jackson (Walt Disney Productions)
ZDA/USA, 1935, 16 mm, 10'

Zasedba (z dirigentom Mikijem) se po odigrani uverturi iz opere *Zampa* Louisa Josepha Hérolde elegantly prikloni in že hoče nadaljevati z naslednjim izborom, uverturo v Rossinijevega *William Tell*. Miki pomiri navdušeno množico in zasedba prične igrati. Kmalu po začetku pa se iz občinstva zasliši vzkljik, ki Mikija neznansko vznejevoli.

A band (with Mickey as its conductor) bows graciously after finishing the overture from Louis Joseph Hérolde's *Zampa* before moving onto its next selection, Rossini's the *William Tell* Overture. Mickey quiets the cheering crowd, and his band begins playing. However, not long into the performance, a voice calls out from the audience, irritating Mickey to no end.

RITEM SVETLOBE / RHYTHM IN LIGHT

Mary Ellen Bute (Mary Ellen Bute)
ZDA/USA, 1935, 16 mm, 4'30"

Fotografije kartonastih konstrukcij, zgubanega celofana in obročastih zapestnic so zamegljene ali povsem neizostrene, kar predmete v njihovem vrtenju in upogibanju in spreminjači se svetlobi in ob spremljavi suite iz Peera Gynta Edvarda Griega spreminja v sence. ŠKATLA Z BARVICAMI / A COLOUR BOX

Len Lye (GPO Film Unit)
Velika Britanija/UK, 1935, 16 mm, 5'

Eksperimentalni animirani film, narisan neposredno na celuloid, v katerem barvne proge ob glasbi plešejo okoli zaslona. To je prvi Lyejev "neposredni film", ki je bil javno predvajan. **PREPERELA MELODIJA / SCHERZO:
VERWITTERTE MELODIE / WEATHER-BEATEN
MELODY**

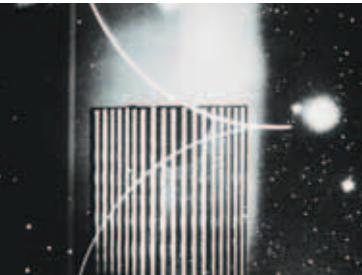

Hans Fischerkoesen
Nemčija/Germany, 1943, 35 mm, 9'34"

Prvi Fischerkoesnov film v času nacističnega edikta. Uvodni prizor dokazuje izjemno obvladovanje multiplanskih in stereo-optičnih postopkov ter smiselnou uporabo globine, ko kamera sledi čebeli, ki prliči z neba skozi 12 plasti trave in cvetlic ter zaokroži okrog zapuščenega fonografa, ki na veliko začudenje čebele leži sredi travnika. Fischerkoesens first film made under the Nazi edict. The opening sequence demonstrates a bravura mastery of both the multiplane and stereo-optical processes – and a meaningful use of depth, following the flight of a bee down from the sky, through 12 layers of grass and flowers, and circling around an abandoned phonograph, which lies, puzzlingly for the bee, in the middle of the meadow.

OKO IN UHO / OKO I UCHO / THE EYE AND THE EAR

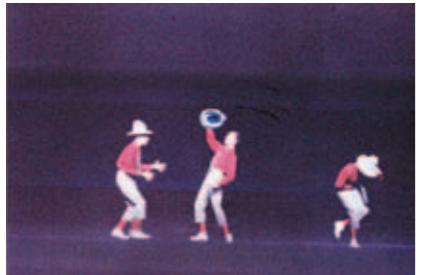

Franciszka in/and Stefan Themerson (Polish Ministry of Information on exile), Velika Britanija, Poljska/UK, Poland, 1944–45, 10'

Vrnitev zakoncev Themerson k iskanju čistega filmskega jezika in izraz njune želje, da bi ustvarila vizualno ustrezno glasbi. Na različne načine, denimo ob krožnem valovanju vode, v katero spustimo glinene kroglice, in lomljenju žarkov svetlobe na posebni leči, vizualno interpretirata štiri skladbe Karola Szymanowskega iz serije *Słopiewnie*. A return to the Themersons' quest for a purely filmic language, the film reflects their desire to produce a visual equivalent to music. Through a variety of means, such as the ripple effect of small clay balls dropped into water and the passing of light beams through a special lens, they create visual interpretations of four songs from Karol Szymanowski's *Słopiewnie*.

Norman McLaren, Grant Munro (NFB)
Kanada/Canada, 1964, 35 mm, 9'08"

V najpreprostejši obliki je kanon glasbeni "krog", v katerem vsak pevec začne peti takti ali dva za prejšnjim. V tem filmu McLaren in Munro s pomočjo animacije in žive igre prikažeta, kako kanon deluje.

In its simplest form the canon is a musical "round," in which each singer picks up the words and tune a beat or so after the preceding singer. In this film McLaren and Munro demonstrate, by animation and live action, how a canon works.

TATINSKA SRAKA / LA GAZZA LADRA SINFONIA / THE THIEVING MAGPIE

Giulio Gianini, Emanuele Luzzati
(Emanuele Luzzati)
Italija/Italy, 1964, 35 mm, 9'45"

Suita iz Rossinijeve opere je pretvorjena v edinstven animirani kratki film. Tриje mogočni kralji se po stoletju medsebojnih bitk in vojn odločijo, da bodo sklenili pakt in raje napovedali vojno pticam. Ne preveč dobra zamisel!

Razborita sraka jih bo kaznovala in poskrbela za rešitev. Ta izvirna animirana izrezljanka je bila leta 1964 nominirana za oskarja.

The suite from Rossini's opera was turned into a very special animated short. After fighting with each other for a hundred years, three powerful kings decide to make a pact and instead launch a war against birds. Not a good idea! A very feisty magpie is going to punish them and save the day. This innovative cut-out animation was nominated for an Oscar in 1964.

EGO

Bruno Bozzetto (Bruno Bozzetto Film)
Italija/Italy, 1969, 16 mm, 11'

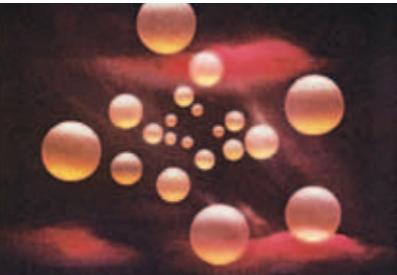

"Običajen" mož iz svojega malega brezbarvnega vsakdana vstopi v nočni svet sanj – bojišče domišljajske grafike, ki spominja na slog francoskega pop art umetnika Jeana Dubuffeta. V sanjah, ki so včasih poetične, včasih erotične in spet drugič nasilne, so vizualizirani družbeni tabuji. Glasbo je prispeval Franco Godi.

An "ordinary" man leaves his small, colorless everyday life for a nighttime dream world – a battleground of imaginative graphics suggesting the style of French pop artist Jean Dubuffet. Society's taboos are visualized in the dreams—sometimes poetic, sometimes erotic and sometimes violent. Music by Franco Godi.

KROGLE / SPHÈRES / SPHERES

René Jodoin, Norman McLaren (NFB)
Kanada/Canada, 1969, 35 mm, 7'21"

Film se poigrava z gibanjem po ozadju neba v odtinkih modre. Prosojne krogline lahko lebijo v brezkončni panorami neba ter se združujejo, mešajo in včasih trčijo druga ob drugo kot v stiliziranem izbruhu jedrske verižne reakcije. Breztežni ples spremljajo Bachove glasbene kadence v izvedbi pianista Glenna Goulda.

This is a play on motion, against a background of multi-hued sky. Spheres of translucent pearl seem to float weightlessly in the unlimited panorama of the sky, grouping, regrouping, at times colliding like some stylized burst of an atomic chain reaction. This airy dance is set to the musical cadences of Bach, played by pianist Glenn Gould.

Favna megalopolisa, džungla supermarketov, norišnica bordelov in barov, efekti avtomobilskih luči v megli, valovanje žita in vode ter bingljanje obešenih – slike, videne skozi oko animatorja, v harmoniji ali stiku s satirično posmehljivo, včasih pa tudi najčistejo lirično klavirsko glasbo Erika Satieja.

His story is a fauna of the megalopolis, the jungle of the supermarkets, the bedlam of brothels and bars, the effects of headlights in the fog, the flailing waters, the swaying of wheat and of men hanging – all this seen through the animator's eye in harmony or in contact with the satirically mocking, but sometimes also extremely lyrical piano music by Eric Satie.

JAZZ IN ANIMIRANI FILM: BOJ ZA SVOBODO

Prisotnost jazzja v animiranih filmih sega v zgodnjega 30. leta. Toda kljub naslovom, kot so *Jungle Jazz*, *King of Jazz*, *Congo Jazz in Jazz Mad*, jazz v risanih filmih iz tega obdobja praktično ne obstaja; beseda jazz je bila namreč le "šifra", ki je gledalcu obetala poplavno šal in smeha. Jazz je tako postal sinonim za divjo zabavo, ki je pogosto presegala meje spodbavnosti. V času, ko je jazz v Ameriki prevzel vlogo popularne glasbe, sta brata Fleischer začela novo obdobje z razvojem likov, ki so upodabljali resnične Afroameričane. Dave Fleischer se je odmaknil od tradicije stvaritev pred tem, ki so prikazovalo na črno prebarvane belce in se ukvarjale s portreti likov, na kakršne bi lahko naletel v podeželski gostilni ali na farmi. Nove junake je poiskal v Cotton Clubu, središču harlemskega nočnega življenja. Fleischerjevi animatorji so v nekaj filmih iz serije *Betty Boop* izdelali avtentičen rotoskopski odtis značilnih odrskih gibov prljubljenega vodje zasedbe Caba Callowaya. Negativni stereotip temnopoltih Američanov z očitno rasistično konotacijo – odličen primer najdemo v liku Stepina Fetchita, utelešenju lenobe in zabitosti – je postal zaščitni znak mnogih zgodnjih risanih filmov. Ta trend je jasno viden v filmu Fritza Frelenge Čisti pašniki (1937), čeprav v resnici govor o odreštvu oz. o spreobrnitvi izgubljenih sinov. Edini medvojni film, v katerem nastopajo črnski jazzovski glasbeniki – glavni junak je nastal po vzoru stride pianista Fatsa Wallera – je bil film Boba Clampetta z naslovom *Tin Pan Alley Cats* (1943), ki je bil tudi zadnji, v katerem so nastopili, zato predstavlja simboličen konec žanra, poimenovanega *black jazz celebrity*

JAZZ AND ANIMATED FILM: WINNING FREEDOM

The presence of jazz music in animated films can be traced in the early 1930s. However, despite the titles such as *Jungle Jazz*, *King of Jazz*, *Congo Jazz*, *Jazz Mad*, jazz was practically non-existent in the cartoons from this period, while the term jazz was a 'code' that promised the audiences cascades of hilarious gags. Jazz had become a synonym for wild fun, often beyond the limits of decency. In the time when jazz had become American popular music, the Fleischer brothers opened a new chapter by developing characters depicting the real Afro-Americans. While the earlier minstrel creations had been exploiting portraits of characters one could see in country inns or on farms, Dave Fleischer was discovering new heroes in the Cotton Club, the hub of Harlem's night life. In certain films from the *Betty Boop* series, Fleischer's animators created an authentic rotoscoping imprint of the typical stage movements of the popular band leader Cab Calloway. The negative stereotype of African Americans, bearing a marked racist connotation – an excellent example of which can be found in Stepin Fetchit, an embodiment of laziness and stupidity – became a trademark for a large number of the early cartoons. This trend is apparent in a film by Fritz Freleng, *Clean Pastures* (1937), although the theme of this film is redemption, or conversion of prodigal sons. The film entitled *Tin Pan Alley Cats* (1943) by Bob Clampett was the only wartime film that featured black jazz musicians – the main character is based on the stride pianist Fats Waller – and it was also the last film in which they appeared, thus marking a symbolic end

cartoon (risanka s slavnimi temnopoltimi jazzovskimi junaki). Ko je v zgodnjih 40. letih v Evropi divjala 2. svetovna vojna, sta se v Ameriki zgodili dve skoraj hkratni "revoluciji". Prvo so vodili temnopolti jazzovski glasbeniki v nočnih klubih newyorské 52. ulice, za drugo pa so bili zasluzni belopolti animatorji v studiilih Warner Brothers. Gonilo prve revolucije sta bila altovski saksofonist Charlie Parker in trobentāč Dizzy Gillespie, ki sta postala sinonimi za novo jazzovsko gibanje *bebop*. Drugo gibanje je vodil pronicljivi Tex Avery, ki je s svojo izvirno genialnostjo razbil tabuje in odvezel primat vrednotam Waltu Disneyju. Christopher P. Lehman v svoji knjigi *The Colored Cartoon* trdi, da si je Avery Bugsa Bunnija zamislil kot "edinstveno kombinacijo likov iz afroameriških ljudskih pripovedi in estetike bebopa". Impozantna pojava kanadskega mojstra animacije Normana McLarenja je bila radikalni korak na poti uvedbe abstraktnih konceptov. McLarenov način razmišljanja, ki se kaže v njegovih likovnih podobah, ustvarjenih neposredno na filmski trak, je mogoče razbrati iz njegovega izdelka iz leta 1949, filma *Preženite mračne skribi*, v katerem je prek sodelovanja z jazzovskim pianistom Oscarjem Petersonom dosegel, da je medsebojna povezava med abstraktno animacijo in jazzom naravnost popolna. V Frelengovem filmu *Three Little Bops* (1957) glasba, ki jo izvaja trobentāč z zahodne obale Shorty Rogers, zgoj bežno spominja na swing, beseda *bops* v naslovu pa nima zveze z bebopom, razen morda kot aluzija na pripadanje neki posebni hipsterski kulturi, pa še to ne brez določenih znakov diskriminatornih kontekstov.

of the genre named the *black jazz celebrity cartoon*. While World War II was raging in Europe in the early 1940s, America was experiencing two almost simultaneous 'revolutions'. The first one was led by black jazz musicians in night clubs of the New York 52nd Street, while the second one belonged to the white animators in the Warner Brothers studios. The core of the first revolution were the alt saxophone player Charlie Parker and the trumpet player Dizzy Gillespie, whose names would become synonymous with a new jazz movement called *bebop*. The second movement was led by the shrewd Tex Avery, whose innovative genius would dispel the taboos and dethrone the values set by Walt Disney. In the book titled *The Colored Cartoon*, Christopher P. Lehman claims that Avery envisaged his Bugs Bunny as 'a unique combination of characters taken from Afro-American folk tales and bebop aesthetics'. The imposing figure of the Canadian animation master Norman McLaren introduced a radical step forward towards the introduction of abstract concepts. McLaren's way of thinking, expressed through manual creations directly on film, is recognisable in his creation from 1949, a film titled *Begone Dull Care*, where he managed to bring to perfection the inter-connection between abstract animation and jazz, working in collaboration with the jazz pianist Oscar Peterson. In Freleng's film *Three Little Bops* (1957) the music played by a West Coast trumpeter Shorty Rogers is only a vague imitation of swing, while the word *bops* in the title has

Dolga pot do "politične korektnosti" je vodila prek določenih prepovedi. Ko so v studiu United Artists ocenili, da cenzorski poseg v določene filme v montaži ni več mogoč, s čimer so bili ti filmi zaradi svoje temeljne prepleteneosti z rasističnimi tematikami neprimereni za distribucijo, so iz televizijskega predvajanja umaknili enajst izdelkov. Na seznamu stigmatiziranih, med razvitim "enajstimi cenzuriranimi", sta se med drugim znašla filma *Čisti pašniki* in *Tin Pan Alley Cats*. Kakorkoli že, na enem koncu zgodbe o jazzu in animaciji imamo negativni stereotip o temnopoltem Američanu (Stepin Fetchit), na drugem pa prvo črnsko princošo iz Disneyevega studia (*Princesa in žabec*, 2009) – v New Orleansu, zibelki jazza, v Ameriki Baracka Obame. Boj za svobodo je bil vedno sublimacija temeljne ideje jazza (ni to konec koncev bistva animacije kot medija?): prevrednotiti kanone in vrojena vzročna razmerja, prerazporediti moč med pripadniki določene družbe v določenem obdobju, predati ljudem sporočilo. Kljub celi vrsti novih smeri v sodobnem jazzu ni nobena od njih imela takšne revolucionarne, reformne moči kot tiste pred letom 1970. In čeprav se zdi, da je vloga jazza kot progresivnega kulturnega fenomena danes dosegla najnižjo točko v zgodovini, ni dvoma, da tako režiserji kot animatorji – sploh v Evropi – od te glasbene zvrsti na prelomu 21. stoletja še veliko pričakujejo.

no connection with the bebop, except perhaps as an allusion to being part of a separate *hipster* culture, and this not without certain signs of discriminatory contexts. The long path towards achieving 'political correctness' had to overcome certain bans. When it was estimated that it was not possible to make selective interventions in the editing process, which made certain films unacceptable for distribution due to their fundamental reliance on racist themes, the United Artists studio withdrew eleven films from television broadcasting. The list of stigmatised, the infamous 'Censored Eleven', included the *Clean Pastures* and *Tin Pan Alley Cats*... Anyway, on one end of the story about jazz and animation there is the negative stereotype of the African American (Stepin Fetchit), while on the other there is the first black princess, coming from the Disney Studio (*The Princess and the Frog*, 2009) – in New Orleans, the cradle of jazz, in the America of Barack Obama. The process of winning freedom has always been a sublimation of the idea of jazz (is it not, after all, the essence of animation as a medium?): to re-evaluate the canons and imminent causal relationships, re-distribute the power among the members of the society in a given era, send a message across. Despite a multitude of new directions in contemporary jazz, none of them has managed to demonstrate the same revolutionary, reformation power of the ones before 1970s. Although it seems that today the function of jazz as a progressive cultural phenomenon has reached its lowest level ever, there can be no doubt that at the turn of the 21st century, both directors and animators – especially the European ones – still have great expectations from this music.

Lahko čas ustavimo? Ga lahko prevrčimo nazaj? O tem razmišlja film *Muybridgeove vezi* in primerja svet fotografega Eadwearda Muybridgea, ki mu je leta 1878 uspelo fotografiati zaporedne faze gibanja konja v galopu, ter matere, ki opazuje odražanje svoje hčere in pri tem ugotovi, da je njun odnos čedalje šibkejši. Can time be made to stand still? Can it be reversed? *Muybridge's Strings* is a meditation on this theme, contrasting the worlds of the photographer Eadweard Muybridge – who in 1878 successfully photographed consecutive phases in the movement of a galloping horse – and a mother who, watching her daughter grow up, realizes she is slipping away from her.

EDOUARD SALIER: RETROSPEKTIVA

Edouard Salier je po končanem študiju grafične umetnosti in oblikovanja v Parizu začel sodelovati s skladateljem in glasbenim producentom Doctorjem L, za katerega je oblikoval ovitke plošč in režiral njegov pri glasbeni spot *Mountains*. S svojo strastjo do vizualnega je ustvaril bogato zbirko grafičnih del, med katerimi so kratki filmi, promocijski videi, oglasne špice in instalacije.

Njegovo delo s sloganom, ki je trdno ukoreninjen v grafičnem oblikovanju, že pet let glasno odmeva na alternativni avdiovizualni sceni. Leta 2005 sta se njegova kratka filma *Empire* in *Flesh* podala na pot po svetu (Benetke, Sundance, Pariz, London, New York, Toronto, Hamburg, Seul ...) in na festivalih osvojila več nagrad.

Edouard Salier zdaj pripravlja svoj prvi celovečer.

LJUBEZENSKE PESMI

LOVE SONGS

Uživajte v odličnem naboru animiranih ljubezenskih pesmi, od Edith Piaf mimo Nine Simone in Barryja Whita do Elvisa Presleya ... Ljubezenske pesmi so v animiranih kratkih filmih – v nasprotju z igranimi akcijskimi filmi in glasbenimi komedijami – zelo redke; če se že pojavijo, pa iz njih nastane parodija ali nesrečen konec. Zato boste v tem programu videli nekaj glasbenih spotov in oglasov po izboru Laurenta Milliona, vodje filmskega programa mednarodnega festivala animiranega filma iz Annecyja in enega od selektorjev tematskih sklopov, ki so prikazani ob robu tekmovalnega programa.

From Edith Piaf to Elvis Presley passing by Nina Simone and Barry White, enjoy this ideal playlist of animated love songs... Contrary to live action films and musical comedies, love songs are very rare in animated shorts, they are often turned into parody or given badly endings. In this programme you will therefore also see some music videos and commercials compiled by Laurent Million, head of the films department at the International Animation Film Festival of Annecy and also one of the selectors of thematic programmes shown alongside the Annecy competition.

MUSICAL FILM MINIATURES FROM POZNAN**

Leta 1989 je Televizijski studio za animirani film iz Poznanja na Poljskem, ki je pred letom dni praznoval 30-letnico delovanja, začel projekt, ki mu v zgodovini animiranega filma ni bilo para: serijo več kot šestdesetih filmov, ki vizualizirajo klasično glasbo. Producija je trajala naslednjih osem let, do leta 1997. 55 filmov je naročil prvi program javne poljske televizije, šest pa jih je studio produciralo sam. Čeprav se je leta 1997 serija uradno zaključila, so ji pozneje dodali še nekaj filmov. Namen projekta, v katerem so znane skladbe skladateljev, med drugim Bacha, Chopina, Albinonija, Bizeta in Mozarta (v izvedbi znanih poljskih interpretov), združili s privlačnimi sodobnimi gibljivimi slikami, je bil popularizirati klasično glasbo med mlajšimi gledalci. Kmalu je postalо jasno, da so s podvigom dosegli veliko več kot to. Povabljeni filmski ustvarjalci, ki večinoma predstavljajo smetano poljskega animiranega filma, so imeli popolnoma proste roke pri izbiрi sredstev za oblikovanje svoje vizije določenega glasbenega materiala. Vsak film, izdelan za to serijo, predstavlja drugačen osebni pristop k tematiki. Tako je nastala edinstvena zbirka izrazito različnih in vizualno osupljivih filmov.

V projektu so med drugim sodelovali: ugledni osebnosti poljskega animiranega filma Witold Giersz in Kazimierz Urbański, glavna predstavnika eksperimentalnega filma Hieronim Neumann in Maciej Ćwiek, ena najvidnejših glasnikov animacije peska Aleksandra Korejwo in mnogi drugi priznani ustvarjalci animiranega filma različnih generacij, kot so Tamara Sorbian, Jacek Kasprzycki, Piotr Muszalski, Zbigniew Kotek i Jacek Adamczak.

In 1989 the TV Studio of Animated Film in Poznan, Poland, which a year ago celebrated its 30th anniversary, launched an unprecedented project in the history of animation: a series of over sixty films based on classical music. The production continued for eight more years and ended in 1997. 55 films were commissioned by the first channel of the Polish Public Television, and additional six were produced by the studio independently. Although the series officially closed in 1997, a few more films were added to the existing ones in later years. The idea behind the project was to popularize classical music among younger viewers by combining well known pieces by such composers as Bach, Chopin, Albinoni, Bizet, Mozart, and many others (performed by well known Polish interpreters) with attractive contemporary moving images. It was soon clear that the undertaking went far beyond this goal. The invited filmmakers, most of whom belonged to the very elite of Polish animators, had full freedom in choosing their own means while designing their visions of given musical material. Every film that was produced as part of this series represents a different personal approach to the subject. This way a unique collection of extremely diverse and visually dazzling films has been realized.

Among those participating in the project were the acclaimed figures of Polish animation Witold Giersz and Kazimierz Urbański, the foremost experimental filmmakers Hieronim Neumann and Maciej Ćwiek, one of the best known proponents of sand animation Aleksander Korejwo, and a number of other leading animators from

Vizualna forma filmov v tej seriji sega od anekdotične in pripovedne do sanjske ali popolnoma abstraktnе. Med raznolikimi uporabljenimi tehnikami lahko najdemo konvencionalno risanko, pesek, slikanje s čopičem, izrezljanke in manipulacijo živega igranega dogajanja.

Poznanjski studio je z glasbenimi filmi na mednarodnih filmskih festivalih osvojil več deset nagrad in jih prodal več kot 50 televizijskim mrežam po vsem svetu, od Litve in Cipra do Japonske in Kitajske.

Animacija, ki nudi neskončne možnosti ustvarjanja podob, je že po svoji naravi "glasbena"; na gledalčev domisljijo vpliva prek zgoščenih idej, ki jih skupaj dajejo struktura gibanja, vizualne in literarne asociacije ter montaža, in tako brez škode za notranjo strukturo glasbe omogoča glasbenofilmske impresije. Glasba je protagonist takšnih filmov in igra vlogo pripovedovalca, saj podobam daje item, narekuje tempo gibanja in ureja prostor v sličici. Zaradi vzporednega delovanja zvokov in podob je pozornost gledalca hkrati usmerjena na poslušanje in gledanje.

different generations, among them Tamara Sorbian, Jacek Kasprzycki, Piotr Muszalski, Zbigniew Kotecki, Jacek Adamczak, and others.

The visual form of the films constituting the series changes from anecdotic and narrative to dreamlike, to purely abstract. The variety of techniques involved includes traditional cartoon, sand, brush paint, cut-outs, and manipulated live action.

Musical films from the Poznan Studio have won dozens of awards at international film festivals and got sold to more than 50 networks all over the world, ranging from Lithuania, to Cyprus, to Japan and China.

Animation, which gives unlimited possibilities of creating images, is "musical" by nature, affecting the viewers' imagination through condensed ideas achieved by the texture of movement, visual and literary associations and editing, thus allowing to create musical film impressions without destroying the inner structure of the music. Music is the protagonist of those films, performing the function of a narrator, creating the rhythm of the images, the pace of movement, organising the space in the film frame. Through simultaneous activity of sounds and images, the viewers' attention is at the same time focused on listening and watching.

CLIP, KLAPP, BUM: NOVE OBLIKE VIZUALIZIRANE GLASBE

"To s sliko in zvokom", kot pogosto rečem sama, me kot gledalko in kuratorko zanima že vrsto let. In že od nekdaj dobesedno preganja tako umetnike – filmske ustvarjalce, glasbenike itd. – kot tehnike in fizike po vsem svetu. "To s sliko in zvokom" je težko popredalčati ali definirati. Ne gre samo za glasbene spote ali le za vizualizirano glasbo; to niso zgolj vizualije v klubu ali plesni nastop na odru ali kje drugje. Giblje se nekje med občuteno sinestezijo in tehnično ali matematično preciznostjo in je lahko marsikaj vmes. V tem programu so me zanimale možnosti, da glasbeni spot postane vizualizirana glasba in da iz zvoka ustvarja sliko – ali iz slike zvok, kar je lahko samo hipoteza.

CLIP, KLAPP, BUM je naslov knjige o glasbenem spotu iz leta 1987, v kateri avtorja Peter Weibel in Veruschka Bódy raziskujeta žanr glasbenega spota in poskusita potegniti ločnico med komercialnim in umetniškim videom. Naslov razumem kot aluzijo na njuno razmišljaj – vendar je veliko več od tega. Naslov je že oblika vizualizacije zvoka – zvoka, ki je bil preveden v zapis: onomatopoetski naslov posnema zvok, ki ga označuje. V programu so me zanimale predvsem vizualizacije glasbe iz zadnjih let, kjer lahko najdemo zelo široko paletu različnih pristopov, kar dokazuje, da zanimanje umetnikov – v primeru tega izbora gre večinoma za ustvarjalce animiranih filmov – za to temo ne zamira. Seveda vizualizacijo glasbe v animaciji obravnavamo na poseben način tudi zato, ker ima sama po sebi bogato tradicijo. Glasbeni spot kljub domnevni smrti v trenutku, ko je MTV

CLIP, KLAPP, BUM: NEW FORMS OF VISUAL MUSIC

The "thing with picture and sound" as I often get to call it myself, has interested me as a spectator and as a curator for many years. And it has literally been haunting artists – filmmakers, musicians etc. – as well as technicians and physicists all over the world for ages.

The "thing with sound and picture" is hard to categorize, and hard to define, it is not only the music video, it is not only visual music, it is not only visuals in a club or a dance performance on or off the stage. It moves between a perceived synesthesia and a technical or mathematical precision and can be a lot of things in between.

For this programme I have been focusing on the music video and its possibilities to be visual music and to create picture from sound – or sound from the picture, and this can only be a hypothesis itself.

CLIP, KLAPP, BUM – the title is taken from the 1987 book on music video by Peter Weibel and Veruschka Bódy, where they were trying to explore the music video and draw a line between the commercial and the artistic video. I see the title as a reference to their thoughts – but it is much more than this. I see it already as a form of visualisation of sound – a sound that was translated into letters: an onomatopoeic title, which imitates the sound it denotes.

In the programme I have been trying to focus on visualisations of music from the recent years, and there is a very wide range of different approaches to be discovered – which proves that the topic doesn't stop to interest artists – talking about the selection – especially animation artists.

prenehal biti glasbena televizija, še vedno živi. Še kako živ je na spletu, v klubih in na filmskih festivalih, kjer v videih prepoznavajo umetniško vizijo, ki presega njihov oglaševalski značaj.

Zakaj torej animirani glasbeni spot? Če se vrnemo k temeljem, bi morali za opredelitev korenin vizualizirane glasbe začeti z Lenom Lyejem, Ruttmannom in Fischingerjem. V tem programu sta dva videa oz. filma, ki ju lahko umeštimo v to tradicijo: *Playtime* Stevana Woloshena, ki spominja na zgodnje ustvarjanje Normana McLarenja in Lena Lyeja v neposrednem filmu. Drugi primer pa je študentski izdelek Jean-Patricea Blancsa *Trois*, *Quatre*, ki je enako strukturalen in geometričen kot dela Fischingerja ali Ruttmanja.

Razen zgodovinskega pomena animacije in vizualizirane glasbe obstaja še drugi razlog, zakaj po mojem prepričanju nekaj najboljših primerov vizualizacije zvoka v sliki najdemo v animaciji. Animacija je ena od umetnosti, v kateri poigravanje z domišljijo (skorajda) nima meja, zato se lahko občutku sinestezije – enemu od ciljev vizualizacije glasbe – približa bolj kot katerikoli drug medij. Mnogi umetniki na tem področju delajo multisenzorne eksperimente, s katerimi želijo izraziti sinestetično izkušnjo.

Veliko del v tem programu vsebuje sinestetični moment, poigravajo pa se tudi z gibanjem, oblikami in figurativnimi reprezentacijami. V spotu *Ariel* je ena najstarejših oblik vizualizacije glasbe – ples – uporabljena z zajemom gibov, spot *Dubus* se sočasnosti posluži v montaži, v videu *Vanishing Point* je vsak ton z novo obliko ali gibom sočasno reprezentiran v sliki, najbolj pa se sinestetični izkušnji približa spot z pesem skupine Metronomy *On the Motorway*, ki ga je ustvarila dvojica Jul&Mat.

Ko želimo opisati čustveno izkušnjo glasbenega spota ali

Of course Visualisation of music in Animation is to be seen in a special way also because it follows a long tradition itself. The music video is still alive despite its so-called death, when MTV can no longer be called music Television. It is more than alive on the internet, in clubs and also at Film Festivals that tend to see the artistic vision behind the video – beyond the advertising character.

So, why animated music video? When going back to the beginnings, trying to explain the roots of visual music, of course one would start with Len Lye, Ruttmann and Fischinger. There are indeed two videos / films in this programme that can be seen in this tradition: Steven Woloshen's *Playtime* reminding of early Norman McLaren and Len Lye works in direct film. And the second – a student's work: Jean-Patrice Blanc's *Trois*, *Quatre*, which is as structural and geometric as a Fischinger or Ruttmann piece.

Beyond the historical importance of animation and visual music – there is another reason why I see some of the best examples of visualisation of sound in picture in animation. Animation is among the arts that can play with imagination (almost) without limits – therefore it can get as close to a feeling of synaesthesia as no other media – which is one of the goals of visualizing music. Many artists in this field are performing multi-sensory experiments that attempt to convey the synaesthetic experience.

Many of the works in this program include a synaesthetic moment but also play with movements, forms and figurative representations. One of the oldest visualisations of music – dance – for example, is used with motion capturing in the video *Ariel*; the video *Dubus* uses simultaneity in the montage, in "Vanishing Point" every tone seems to have its simultaneous representation in a picture with a new form or a movement, and among those closest to a synaesthetic

But sometimes theory fails to describe the emotional experience of a music video or a visual music piece – when, while watching, you suddenly just feel like tapping your feet to the rhythm of the pictures, which is one of the best things that can happen! I like to call it "music for the eyes", an emotional experience of music, colours, rhythm – atmosphere and sound. Most likely to be encountered on the big screen and with the volume up!

Nadvse osvežajoča variacija digitalne filmske abstrakcije na džežovsko glasbo Jean-Patriceja Blanca razprostreti zelo natančne in stroge geometrične like, ki kot da zapešajo. Toda kljub strogosti – ali prav zaradi nje – lahko z nogo mirno pomagate dajati ritem. A very uplifting variation of digital abstract film to jazz music. Jean-Patrice Blanc arranges very precise and strict geometric figures which seem to start a dance. But despite of the strictness – or maybe because of it – you are free to tap your feet in the rhythm.

Video se dotika legendarnih filmov, kot so Sun Valley Serenade, Casablanca, Nekateri so za vročo, Na pristaniški obali in Državljan Kane. Vergence – oddaljevanje proti približevanju. Črne in rumene proge, ki jih nosi v različne smeri in poti, sestavljajo geometrični balet. Igra blizine in oddaljenosti, zavezana matematiki, se brezkompromisno nadaljuje prek slike in zvoka: ta pospešuje način zaviratih istih programov. Nenehna rast in krčenje, zavračanje in prekrivanje – ustvarjalno, neposredno, tehnico-psihedelično. Vergence – diverging vs. converging. Driven in different directions and paths, black and yellow bars form a geometric ballet. Indebted to mathematics, the game of proximity and distance continues uncompromisingly through image and sound: they accelerate and decelerate the same program. Constant growth and shrinkage, rejecting and overlapping – creative, straightforward, techno-psychadelic.

Film je nastal po navduhu "večnega boja med dobrim in zlom v vseh nas in govorji o Ariel, boginji zdravilstva, ki se v svetu duhov bor s hudičem". Marcus Wendt in Vera-Maria Glahn iz studia FIELD sta ustvarila osupljiv spot, ki prikazuje plesalce in vzpostavlja nov prostor, v katerem se gibljejo. Inspired by the "age-old struggle between good and evil within all of us. Ariel is the goddess of healing, and she is battling with the devil in a spirit world." Marcus Wendt and Vera-Maria Glahn of FIELD created an astonishing video – motion capturing the dancers and creating a new space they move in.

Zvok bi lahko bil vzet iz kozmosa, zvočna podlaga filma iz astronavtovih sanj. Zdi se, da smo vesolje, kjer se shematska reprezentacija kozmosa pojgrava z našo domišljijo. The Sounds could have been taken from the universe, the Soundtrack from an astronauts dream. We seem to be outer space where the schematic representation of the universe is playing games with our imagination.

Videoposnetek kot gradbeni model: spot Michaela Schwentner za pesem Transistor dunajskega glasbenega tria Radian je bil v nekem smislu zgrajen vzvratno, saj se razvija iz ilustrirane glasbe v abstrakten tehnični načrt, ki bi lahko bil uporabljen v obeh medijih. A video clip as a structural model: Michaela Schwentner's video to Transistor by the Viennese music trio Radian was in a sense composed in reverse, progressing from illustrated music to an abstract blueprint which could have been used for both media.

Mesto nikoli ni enako – obliko dobi v vsakokratnem subjektivnem pogledu drugih manj. Pripeljemo se z vlakom in nekaj časa ostanemo, ob spremljavi glasbe skupine Five Years Older gledamo, kako živi, se giblje in preobraža, dokler tako, kot smo prišli, tudi ne odidemo. Navdušujoča animacija! The city is never the same – it gets its shape from every other subjective view on it. We take the train – stay a while, see it living, moving and transforming to the soundtrack of "Five Years Older" until we leave again as we came. A fascinating animation piece!

Mesto jih je polno: zvokov, ki kličejo po vizualizaciji. Kristofer Ström je za svojo domišljijo našel rešitev: ti zvoki prihajajo od nekih bitij oziroma živali, in to ves čas! In ne samo to: živali kar kipijo od barvitosti. Jih mi preprosto ne opazimo? The city is full of them: sounds that seek for a visualisation. Kristofer Ström found a solution in his imagination: There are creatures – or animals that are making those sounds – constantly! And more: they seem to burst with colour. Do we just fail to notice them?

TRENDFOLLOWER

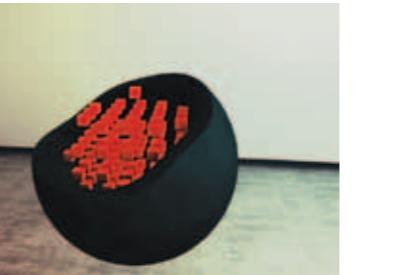

Didi Bruckmayer
Glasba/Music: Fuckhead
Avstrija/Austria, 2009, betaSP, 2'

Oblike, ki jih v spotu Trendfollower uporabi Bruckmayer, so mehurčki, utripajoči stožci, kocke in druge prostorske izbokline, ki naj bi namigovale na finančni sistem. Igra med temi podobami in zvokom: hipermotorični, mračni, tehnoidni elektro zvočni izdelek konča v tisočerih hiperaktivnih vzorcih. The forms Bruckmayer uses in Trendfollower are bubbles, pulsating cones, cubes, and other spatial bulges that should recall the financial system. The game between these images and sound: a hypermotoric, gloomy, technoid, electro piece, ends up in thousands of hyperactive patterns.

Zmes abstraktnih tri- in dvodimenzionalnih prostorov in likov, ki se vedno zberejo na sredini slike. Popolna usklajenost. Ali te pike res ustvarijo zvok? Glasba avstrijske eksperimentalne skupine Kilo ustvarja izvrstno vzdusje za izdelovanje skulptur(e) v gibanju. The tradition of visual music and creating a perfect synchronization and synaesthetic effect drove Adnan Popović while making this film. The music by Kilo – an Austrian experimental music group – provides the perfect atmosphere to create this sculpture(s) in movement.

FOKUS NA ŠPANIJO: TALENTI IZ VROČIH KRAJEV ANIMIRANI FILM V ŠPANIJI

Španija je dežela z bogato tradicijo umetnosti in ustvarjalnosti. Toda animirani film zahteva tehnično disciplino, ki talentom v državi brez ustreznih šol in kontinuitete v industriji ni vedno na voljo. Vzponi in padci industrije, šibka institucionalna podpora umetniški animaciji in 40 let diktature (ko so v kinematografih animiranim filmom mesto pred celovečerci prevzeli propagandni izdelki) je nekaj zaščitnih znakov naše zgodovine animiranega filma. Zaradi teh razmer je nekaj posamičnih genijev kariero gradilo v tujini. Pionir filma Segundo de Chomón se je čez mejo podal prvi, z leti pa so mu sledili še drugi umetniki in animatorji, ki so se večinoma uveljavili v večjih ameriških studiih. Pogled v preteklost razkriva, da sta bila v štiridesetih ustvarjena dva pomembna celovečerca (*Garbancito de la Mancha* in *Érase una Vez*) in dostenja zbirk serij kratkih filmov z izvirnimi liki. Poleg tega so med številnimi naslovi takšne ali drugačne kakovosti izjemna dela nastajala na komercialnem področju, denimo v 50. in 60. letih v studiih Moro.

Glavna centra produkcije sta bila tradicionalno Barcelona in Madrid. Odločilnega pomena je bilo, sploh v Barceloni, založništvo, saj je ilustratorjem in striparjem omogočalo enostaven prehod v animacijo (takšni primeri so revija TBO v zgodnjih 60. letih, El Papus v 70. in 80. letih, v zadnjih časi pa založba Norma Comics).

Novejša zgodovina ima k sreči tako na neodvisni kot komercialni sceni večji obseg in kontinuiteto. Neodvisna scena se je od 80. let dalje z avtorji, ki so študirali v tujini ali so začeli eksperimentirati spontano, neprestano razvijala in danes na njej ustvarja nova generacija, ki bi lahko začela

FOCUS ON SPAIN: TALENT FROM THE HEAT ANIMATION IN SPAIN

Spain is a country with a great tradition in the arts and creativity. But animation requires a technical discipline, which was not always available to the talent in a country without schools and with a discontinuous industry. The ups and downs of this industry, little institutional support for the art-oriented animation and the 40 year dictatorship (when in cinemas propaganda newsreels took the place of animated shorts before the features), are some of the trademarks of our animation history. In this context some isolated geniuses pursued their careers overseas. The pioneer Chomón was the first to go abroad, but over the years other artists and animators followed, and particularly established their careers in major American studios. Looking back, however, two important features were made in the forties (*Garbancito de la Mancha* and *Érase una Vez*) as well as a respectable collection of series of shorts with some original characters. In addition to this, outstanding works were made in the commercials field, such as those of Studios Moro in the 50s and 60s, among many other pieces of better or worse quality. Traditionally the two main production centres were located in Barcelona and Madrid. Especially in Barcelona, the editorial field was of key importance as it created a good opportunity for illustrators and comic artists to jump into animation (from magazines such as TBO from the early days until the 60s, El Papus in the 70s and 80s and in recent years the editorial Norma Comics, among many others). Luckily the recent history is more abundant and continuous both on the independent and the commercial scene. From the 80s onwards, an independent scene has been growing

raziskovati medij v dobi informacijske tehnologije. Industrija, ki si je v zadnjih 20 letih priborila trden položaj v televizijskih serijah, je trenutno zelo močna tudi v evropskem merilu (serije kot npr. Pocoyó ali The Triplets so bile nagrajene in predvajane po vsem svetu).

Ta izbor filmov celovečerce in komercialna dela pušča ob strani in se osredotoča na neodvisne kratke filme starejšega in novejšega datuma. Dva programa bolj eksperimentalnega španskega animiranega filma sta bila pred kratkimi prikazana v Cankarjevem domu in Slovenski kinoteki v okviru programa "Od ekstaze do vznesenosti, 50 let drugačnega španskega filma" v selekciji barcelonskega Centra za sodobno kulturo. Eksperimentalnega animiranega filma zato v tem izboru ni.

steadily with authors that studied overseas or started to experiment spontaneously, and today, there is a new generation that could start to investigate the medium in the era of information and technology. Having established itself firmly in the TV series area over the past 20 years, our industry is currently very strong at the European level (series such as Pocoyó or The Triplets have been awarded and sold worldwide).

However, this selection of films has concentrated on some historical and recent independent shorts, leaving aside the features and the commercial work. Two programmes of the more experimental Spanish Animation were presented recently at Cankarjev Dom and Slovenian Cinemathèque within the special programme "From Ecstasy to Rapture. 50 years of the other Spanish Cinema" curated by the Center of Contemporary Culture of Barcelona. For this reason more experimental animation is not included in this programme.

PROGRAM I
SEGUNDO DE CHOMÓN

Španska zgodovina animiranega filma se začne v Franciji, kjer je vizionar Segundo de Chomón (Teruel, 1871 – Pariz, 1929) ustvaril svoje najvidnejše filme, v katerih je, predvsem za potrebe posebnih učinkov, uporabil animacijo. Ponoven sloves mu je pred komaj nekaj leti prinesla rekonstrukcija njegovih filmov. Bil je sodobnik Méliësa, s katerim v številnih filmih deli predanost fantaziji. Njegova metoda in izjemna domišljija sta mu pomagali pri delu za Pathé Frères v Parizu in pozneje pri Itala Filmu v Torinu. V tem izboru iz njegove bogate kinematografije z več kot 400 filmi je nekaj njegovih najbolj "animiranih" del.

PROGRAMME 1
SEGUNDO DE CHOMÓN

Our animation history starts in France, where the Spanish pioneer Segundo de Chomón (Teruel 1871 – Paris 1929) created his most acclaimed films using animation, mostly for special effects. This pioneer started to win back his recognition just a few years ago, thanks to the restoration of his films. His work is contemporary to that of Méliès with whom he shares the devotion for fantasy in many of his films. His great imagination and technique helped him to work in Paris at Pathé Frères and later in Torino at Itala Film. Based on vast cinematography that includes over 400 films, this selection contains some of the most "animated" pieces.

PROGRAM II ZGODBE O LJUBEZNI IN KLANJU

S smrtnjo Francisca Franca, ki je Španiji vladal 40 let, se je leta 1975 zaključilo dolgo, temačno obdobje njegove diktature. Španija je vstopila v demokratično tranzicijo in po mnogih letih so ljudje spet lahko svobodno izražali svoje misli. Pojavile so se satirične politične revije, kot je *El Papus*, ki so kar tekmovale v svoji globoki želji po izražanju političnih idej brez strahu pred represijo. Tudi film in mediji so se po dolgem času lahko sproščeno ukvarjali s spolnostjo brez upoštevanja moralnega kodeksa rimskokatoliške cerkve, ki ga je uveljavil Franco. Izjemni satirični strip parji *El Papusa*, Chumy Chumez, Perich, Oscar, Ja, Fer, Ivà, in njihov nekorenken smisel za humor (ki je celo po današnjih meritih nezaslišan!) so ustvarili serijo kratkih filmov, ki skupaj sestavljajo celovečerec. Film je odličen prikaz tega obdobja, ki kljub preprosti animaciji lahko razvedri in šokira odraslo občinstvo.

PROGRAMME 2 HISTORIAS DE AMOR Y MASACRE

When the Head of Spanish State for 40 years Francisco Franco died in 1975 the long dark years of his dictatorship ended. Spain entered a democratic transition and for the first time in many years, ideas could be expressed freely. Satirical, political magazines such as *El Papus* emerged in a contest of a deep desire to express political ideas without fear of repression. Also, for the first time in years, film and media could express sexual liberation outside the moral codes of the Roman Catholic Church imposed by Franco. The great satirical comic strip artists of *El Papus*: Chumy Chumez, Perich, Oscar, Ja, Fer, Ivà, and its irreverent humour (outrageous even by today's standards!) managed to create a collection of shorts that put together made a feature. This piece is a very good representation of those years and despite its limited animation it still has the capability of entertaining and shocking adult audiences.

Pomemben film v španski filmski zgodovini (prvi animirani film za odrasle). Kljub preprostim metodi animacije je zaradi duhovitega scenarija in grotesknih risb obvezna sestavina vsakega seznama filmov iz obdobja španske demokratične tranzicije. Sestavlja ga šest izvirnih kratkih filmov, ki so jih ustvarili najboljši striparji tistega časa: Chumy Chumez, Perich, Oscar, Ja, Fer in Ivà. Film je izstopal po radikalnem satiričnem humorju in uporabi animacije za odrasle, česar gledalci takrat niso bili vajeni.

EVROPSKE ŠOLE ANIMIRANEGA FILMA ESDIP MADRID

ESDIP, 30 LET UMETNIŠKE ŠOLE

Pod imenom **Escuela Taller de Animación Fastasma** (Šola delavnic risanega filma Fantasma) je bil leta 1983 ustanovljen prvi center za poučevanje tehnik risanega filma v Španiji. To so bili zametki poznejše **ESDIP Escuela Superior de Dibujo Profesional** (Višje šole za profesionalno risbo). V času, ko je bilo v Evropi mogoče na prste ene roke prešteti delavnice za risanke, ki so bile naravnane k eksperimentalnemu delu, je Fastasma ponujala program triletnega študija, ki je pripravljal na vstop na strokovni trg in ponujal prakse na področju risanih serij za televizijo (večinoma Hanna-Barbera) in celovečernih risanih filmov. Malo ljudi je verjelo v takо inovativen in neznan projekt in niso si predstavljali, da bo imel leta kasneje takšen vpliv ne le v Španiji, ampak tudi na mednarodni ravni. Ko danes gledamo nazaj, smo še vedno presenečeni nad delom, opravljenim v zadnjih tridesetih letih, in ponosni na veliko naših nekdanjih študentov, ki zavzemajo pomembna mesta v svetu animiranega filma – do take mere, da je težko najti dobro špansko produkcijo, pod katero se ne bi podpisalo znatno število naših viših študentov. Tisti, ki so si želeli sodelovati z velikimi ameriškimi studii, so prečkali lužo in so zdaj del velikih studijskih sistemov pri Pixarju, Blue Sky Studios, Dreamworks in drugih. Veliko tistih, ki so rajo ostali v Španiji, trenutno dela v studiilih, ki sodelujejo z njimi ali sami ustvarjajo filme, na primer Zinkia (Pocoyo) ali Ilion Studios (Planet 51). Šola pa svoje dejavnosti ni omejila le na poučevanje. Na področju risank je spodbujala združevanje in v okviru tega sodelovala pri organizaciji festivalov animacije, pri pripravah za tečaje in delavnice v drugih državah,

EUROPEAN ANIMATION SCHOOLS ESDIP MADRID

ESDIP, 30 LET UMETNIŠKE ŠOLE

The first institution to teach animation techniques in Spain, named **Escuela Taller de Animación Fastasma** (Animation Workshop School Fastasma), was set up in 1983. This marked the beginning of what later became **ESDIP, Escuela Superior de Dibujo Profesional** (School of Professional Drawing). In the time when more experimental animation workshops in Europe were few and far between, Fastasma offered a three-year study programme, preparing students for their entry into the professional environment and teaching practices of animated TV series (mostly Hanna-Barbera) and animated feature films. Few people believed in this innovative and uncommon project and could not imagine it would grow to become this influential not only in Spain, but also internationally. Looking back we are still amazed by the work done over the last thirty years and we are proud to see many of our former students taking up prominent positions in the world of animation to the degree that it is difficult to find a good Spanish production not featuring a significant number of our ex-students. Those aspiring to careers in big American studios have gone overseas and are now part of the colossal studio universe at Pixar, Blue Sky Studios, Dreamworks and elsewhere. A lot of those who preferred to stay in Spain now work in studios that collaborate with them or make their own films, such as Zinkia (Pocoyo) or Ilion Studios (Planet 51). School activities have never been limited to teaching. In animation, the school has encouraged association by collaborating in organising animated film festivals, in preparing educational programmes and workshops abroad, organising travelling workshops and fair presentations (Juvenalia, Aula, etc.), has provided scholarships for young

izvajaju potujočih delavnic, prikazov na sejmih (Juvenalia, Aula itn.), štipendijah za obetavne študente, pri pisanih prispevkov za zbornike in z tisk, pri pripravah za okrogle mize, predstavitev itn. Vse to z namenom ozaveščati o svetu risank, ki tedaj "še ni bil tako poznan".

Za naše delavnice animacije veljajo štiri načela:

Risba in umetniško ustvarjanje kot nenadomestljiv temelj za katerokoli umetnost.

Raziskovanje/eksperimentiranje, ki podpira nove ideje in projekte.

Tehnologija kot nepogrešljiva pomoč.
Ustvarjanje filmov kot cilj, ki utemeljuje ves trud.

V okviru izobraževalnih praks študentje ustvarjajo ali sodelujejo pri ustvarjanju kratkih animiranih filmov, ki so na ogled na prepoznavnih državnih in mednarodnih festivalih risanega filma, kjer so že prejeli številne nagrade, vključno z dvema nominacijama za Goya – najvišjo odlikovanje za film v Španiji. Videti svoje delo ob boku trenutno najboljših animatorjev je vznenamljiva spodbuda za študente. Od leta 2000 je šola ustvarila več kot 20 kratkometražnih filmov, kar je glede na splošno dejavnost na področju neodvisnega risanega filma v Španiji dokaj nenavadno. Filmi nastajajo v lastni produkciji. Največ dela pri projektih prevzamejo ustvarjalne skupine študentov s podporo in nasveti profesorjev. Pri nekaterih filmih smo potrebovali zunanj strokovno pomoč različnih studiev, npr. koprodukcija z Eduardom Elosegijem. Naše projekte podpirajo javne ustanove: **Občinska skupnost Madrid in Ministrstvo za kulturo**, uresničitev številnih projektov pa so nam omogočili tudi prispevki **Canala Plus** in podjetja **Luján Producciones**.

Zahvaljujoč podpori in odzivu se našemu delu in številnim projektom risanega filma in filmov v drugih tehnikah (3D, plastelin itd.), ki so že v nastajanju, napoveduje odlična prihodnost.

talents, encouraged students to write contributions in journals and print media, organised round-table debates and presentations, etc. All this with the aim of raising awareness about the previously "little known" world of animation.

Four principles of our workshops:

Drawing and creativity as an irreplaceable starting point of any art form.

Exploration/experimentation as support for new ideas and projects.

Technology as an indispensable aid.

Filmmaking as a goal that makes all efforts worthwhile.

As part of our teaching practices, students make or help make animated shorts, which have been shown in prominent Spanish and international animated film festivals and have won a number of awards, including two nominations for the Goya Award, Spain's main film award. To see your work side by side with the best filmmakers of a given period is an exciting encouragement for students. Since 2000, the school has made over 20 short films, an extraordinary achievement considering the average output in independent Spanish animation.

Films are made as our own production. The largest portion of work is done by creative groups of students with support and advice of mentors. In some of our projects, we have asked various studios for professional help, which resulted in co-productions such as the one with Eduard Elosegij. Our work is supported by the **Community of Madrid** and the **Spanish Ministry of Culture**. Many projects could not have been carried out without the contributions made by **Canal Plus** and **Luján Producciones**.

Thanks to the support and acknowledgment we receive, our work and our numerous evolving animated film projects based on drawing and other techniques (3D, clay, etc.) are heading towards a bright future.

FESTIVALI V REGIJI: MEDNARODNI FILMSKI FESTIVAL STOPTRIK

Mednarodni filmski festival Stoptrik je svež projekt, posvečen izključno umetnosti stop motion animacije z vsega sveta. Edinstvenost stop motion žanra je v kombiniraju realnosti in iluzije. Alkimija metamorfoze: tridimenzionalni objekti, fotografirani sličico za sličico, so priklicani v življenje skozi videz gibanja – esenco filmske izkušnje. Stoptrik je zapolnil nišo, občuteno tako pri ustvarjalcih kot profesionalcih. Organizatorji so naleteli na izjemno pozitiven odziv avtorjev in promotorjev vsega sveta, ti pa so poudarili pomembnost tega specifičnega žanra na področju različnih tehnik animacije. Ideja o festivalu Stoptrik je rasla na osnovi prepirčanja, da je še vedno mogoče začutiti nedvomno moč in čarobnost stop motion animacije. Kljub priljubljenosti računalniške 3D animacije se občinstvo in ustvarjalci vedno radi vrčajo k temu žanru. Pred več kot sto leti so vizionarji, npr. Georges Méliès, Segundo de Chomón in Władysław Starewicz, opravili prve eksperimente z urejanjem rahlo drugačnih sličic, da bi prevarali gledalčeve recepcijo. Kar se je tako začelo kot vizualni trik, se je hitro razvilo v zelo spoštovano umetniško obliko, za katero so značilni edinstveni načini izražanja, zmožni vdahniti življenje mrtvi materiji.

Organizatorji Stoptrika želijo z gledalci deliti največje dosežke umetnosti stop motiona, vrhunsko ustvarjene, a še svetovno neprepoznavne sodobne stvaritve tega žanra in zmagovalce partnerskih festivalov s področja animacije (Animateka, Se-ma-for FF, Krakow Film Festival, Etiuda & Anima IFF). Druga izvedba festivala je načrtovana za avgust ali september prihodnje leto v evropski prestolnici kulture 2012 Mariboru, v kinu Udarnik in centru alternativne kulture Pekarna.

REGIONAL FESTIVALS: STOPTRIK INTERNATIONAL FILM FESTIVAL

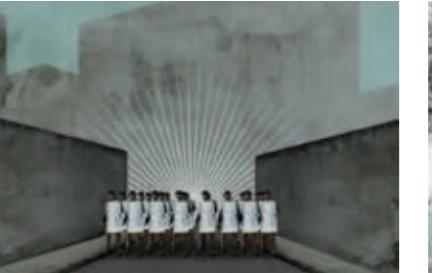

Stoptrik International Film Festival is a brand new initiative devoted exclusively to the worldwide art of stop motion animation. The uniqueness of stop motion genre lies in the combination of reality and illusion. The alchemy of metamorphosis: three dimensional objects photographed frame by frame are brought to life by the appearance of movement – the very essence of cinematic experience. Stoptrik fills the niche which has been noticed by artists and professionals. The organizers have received enthusiastic feedback from authors and promoters from around the world, who have underlined the importance of this specific genre among other animation techniques. The idea of Stoptrik Festival has grown due to our common belief that one can still sense the undeniable power and magic inherent in the stop motion. Despite the current popularity of digital, 3D animation, viewers and artists still keep coming back to this genre. Just over a hundred years ago visionaries such as Georges Méliès, Segundo de Chomón or Władysław Starewicz conducted the first experiments of editing slightly different images in order to deceive the viewers' reception. What had started as a visual 'trick' soon developed into highly appreciated art form characterized by unique modes of expression, capable to infuse lifeless matter with spirit.

The organizers of Stoptrik IFF aim to share with the viewers the greatest achievements of stop motion art and highly professional, contemporary films which haven't yet been recognized worldwide as well as present the winners of partners' festivals (Animateka, Se-ma-for FF, Krakow Film Festival, Etiuda & Anima IFF). The second edition of Stoptrik IFF is planned for August/September in Maribor, European Capital of Culture 2012 in art cinema Udarnik and the centre for alternative culture Pekarna.

FESTIVALI V REGIJI: MEDNARODNI FESTIVAL KRATKEGA FILMA K3

Mednarodni festival kratkega filma K3 je svojo prvo izvedbo doživel leta 2007. Čeprav se je odvил v vsega eni noči v glasbenem klubu na Koroškem, je bilo takoj zaznati številčnost in zanimanje občinstva. Iz čiste strasti do kratkega filma se je kmalu razvila prava institucija za to vrst v Avstriji, ki vsako leto privabi številne filmske ustvarjalce z vsega sveta. Festival K3 v skladu z rdečo nitjo "Kommerz und Kunst im Kino" (trgovina in umetnost v filmu; od tod tudi ime festivala) želi preseči razmejitve med žanri. V programu lahko ob komedijah in dokumentarcih najdete eksperimentalne kratke filme, ob fikciji pa video umetnost. Festival K3 zato programski razpored kratkih filmov vedno pripravi s posebno skrbjo, da bi se v vsakem filmskem bloku razvil dramaturški lok, ki bi vzdrževal zanimanje občinstva. Zadnja leta je Festival K3 spremljal glasbeni program, v katerem so se predstavili izvajalci, kot so Bob Ostertag, Hans-Joachim Roedelius ali Repetitor in Hans Platzgumer (nekdanji H. P. Zinker). Leta 2011 je Festival K3 prvič segel prek geografskih meja in se deloma odvил tudi v Vidmu v sosednji Italiji. Leta 2012 bo storjen naslednji korak v to smer, saj bo kot tretje prizorišče festivala uvedena Ljubljana. Poleg mednarodnega tekmovalnega programa se bosta poseben fokus in poseben tekmovalni program osredotočala na lokalne filmske ustvarjalce. Festival K3 želi s tem okrepliti izmenjavo tako med žanri kot tudi med sosedskimi regijami.

REGIONAL FESTIVALS: K3 INTERNATIONAL SHORT FILM FESTIVAL

The K3 international Short Film Festival was founded in 2007. Even though the first edition took place only for one night and only in a music club in Carinthia it immediately attracted a big, interested audience. Out of sheer passion for short films it soon became a veritable institution for short film in Austria, attracting numerous filmmakers from all over the world each year. According to the theme "Kommerz und Kunst im Kino" (*commerce and art in cinema*, from which also derives the name), the K3 festival seeks to go beyond boundaries between genres. Here you can find experimental shorts next to comedies and documentaries, video art is placed next to fiction films. In this way the K3 Festival always puts a lot of effort in the programming of short films in order to develop in each film block a tension curve and to maintain the attention of the audience. In the last years the K3 festival was accompanied by a musical programme representing artists like Bob Ostertag, Hans-Joachim Roedelius all the way to Repetitor and Hans Platzgumer (ex-H.P. Zinker). In 2011 the K3 festival for the first time went beyond geographical borders and also took place in the neighbouring Udine (Italy). In 2012 the next step will be done by establishing Ljubljana as the third location of the festival. With a special aim and a special competition programme for local filmmakers, the K3 festival aims to enforce interchange between genres and between the neighbouring regions.

Stavbe iz sovjetske dobe kot v otroških sanjah zaživijo svoje življenje v vzporedni resničnosti. Film *Synchronisation* je nastal iz prostih asociacij in malih nemožnosti. Počasen ritem in prostorska glasba filmu vdahjeta očarljivo vzdušje in notranji smisel. Stavbe sovjetske dobe pričarajo monumentalne in sugestivne prizore. Like in a child's dream, buildings from the Soviet era start leading their own life in a separate reality. *Synchronisation* has been compiled from free associations and small impossibilities. The slow tempo and spatial soundtrack give the film a compelling atmosphere and inner logic. Buildings of the Soviet era make the scenes monumental and suggestive.

The film is built up from that single, imperceptible instant that signals the shift from day to night, a fleeting moment in which what was, is no more, where things might acquire fresh significance. PROGRAM CARTOON EAST 2011

Med šesto edicijo festivala Animateka v Ljubljani smo organizirali okroglo mizo s predstavniki naslednjih festivalov animiranega filma: Animafest Zagreb (Hrvaška), Animateka Ljubljana (Slovenija), anim'est Bukarešta (Romunija), Balkanima Beograd (Srbija), Banja Luka International Animation Film Festival (Bosna in Hercegovina) in FestAnča Žilina (Slovaška). Cilj okrogle mize je bil postaviti okvir za regionalno sodelovanje, predvsem zaradi izmenjave organizacijskih, kadrovskih in programskeh idej. Ena prvih akcij je bila pridružitev projektu Cartoon d'Or, kar je spodbudilo odločitev, da podelimo nagrado **Eastern European Animation Award** in nagrjeni film se je uvrstil med nominirane za nagrado Cartoon d'or 2010. Z letom 2011 se je pravilo spremeno, saj so nam iz Bruslja sporočili, da so nam namesto ene nominacije pripravljeni odobriti kar šest nominiranih naslovov, vendar morajo to biti zmagovalci vsakega festivala iz koalicije. Zato vam na tem mestu ponujamo v ponoven ogled lanskoletne zmagovalne filme regionalne koalicije vzhodnoevropskih festivalov.

CARTOON EAST 2011 PROGRAMME

During the sixth edition of Animateka festival in Ljubljana, a round table with the representatives of the following animation film festivals was organised: Animafest Zagreb (Croatia), Animateka Ljubljana (Slovenia), anim'est Bucarest (Romania), Balkanima Belgrade (Serbia), Banja Luka International Animation Film Festival (Bosnia and Herzegovina) and FestAnča Žilina (Slovakia). The aim of the round table was to set a frame for a regional collaboration with the purpose of sharing the ideas concerning organisation, human resources and programme. One of the first concrete actions was to join the Cartoon d'Or project, which prompted us to present the **Eastern European Animation Award**, a ticket for the awarded film to the nominations for the Cartoon d'Or 2010 award. As of 2011, a change in rules in Brussels allows us to enter not only one, but six nominations, provided these are winners of all festivals in the coalition. This is why we are giving you another chance to see last year's winning films from Eastern Europe festivals in the regional coalition.

Na robu družbe je krava jeziček na tehnici usode, kar sproži nezanemarljive posledice. *Sile iz naravoslova, kot sta gravitacija in ravnovesje, so se mi vedno zdene neznansko zanimive. Govorijo predvsem o momentu, energiji in dinamiki. Ti vidiki sodijo tudi med temelje animacije: ustvarjajo item in življenje.* Hotel sem narediti film, ki se ukvarja s temi silami, po drugi strani pa sem hotela ustvariti tudi prepirljive like z resničnimi čustvi in željami. Zato sem sile uporabila za izhodišče filma, da bi povedala vznešljivo, ljubečo in duhovito zgodbo o usodi krave prek poigravanja s temi občutljivimi sistemmi, ki se nam v resnicu zdijo stabilni. To je zgodba, ki povezuje srce in um.

At the edge of society, a cow tips the balance of destiny with quite some impact...
I have always been fascinated by the forces of natural science such as gravity and balance. They deal especially with momentum, energy and dynamic. These aspects are also one of the cornerstones of animation: they create rhythm and life. I wanted to create a film dealing with these forces, but on the other hand I also wanted to create believable characters with real feelings and needs. So I used these forces as the core of the film to tell an exciting, loving and humorous story about the fate of a cow playing with these fragile systems, which seem to us actually as stable. A story connecting heart and mind.

PATHS OF HATE

Damian Nenow (Platige Image)
Poljska/Poland, 2010, DVcam, 10'

Kratka zgodba o demonih, ki spijo globoko v človekovi duši in lahko ljudi pahnejo v vrtinec slepega sovraštva, besa in gneva. Hotel sem narediti film, ki bi bil za gledalca predvsem zabaven, spektakулaren in vizualno privlačen. Hkrati pa nisem hotel, da je Paths of Hate še eno razkazovanje tehničnih zmožnosti, polno ogromnih pretepaških robotov ali trolov. Sklenil sem, da je prikaz ene največjih težav človeštva – nagnjenosti k nesmiselnemu sovraštvu – najboljša izbira. Paths of Hate je avdiovizualna stvaritev v polnem pomenu besede. Svoje filme od vsega začetka snujem sam, saj mislim, da glasba in zvok predstavlja vsaj polovico končnega učinka. Damian Nenow

A short tale about the demons that slumber deep in the human soul and have the power to push people into the abyss of blind hate, fury and rage. *I wanted to make a film that would, most of all, be entertaining, spectacular and visually attractive for a viewer. On the other hand, I wanted "Paths of Hate" to be more than yet another show-off of technical capabilities, filled with huge fighting robots or trolls. I decided that the illustration of one of humanity's fundamental problems – a tendency for pointless hate – would be an ideal choice. "Paths of Hate" is an audiovisual creation in the fullest meaning of the word. I design my films from the very beginning, assuming that music and sound are no less than a half of the final effect.* **Damian Nenow**

Ko neki mož prisostvuje umoru in fotografira morilca, mu začneja streči po življenju. Med begom mu uspe obrniti potek dogodkov in plen postane lovec. Vse skupaj pripelje do nesrečnega konca. *Ker sem odrasel v kulturi 3D, ki se je predvsem trudila poustvariti resničnost, se mi je zdelo, da je to slika ulica, ki tega medija ni vredna. Pri prejšnjem projektu sem s pomočjo zelo preprostih oglatih modelov dokazal svojo trditev, da preprčljivost filma ni odvisna od količine poligonov ali kakovosti osenčevalnika, temveč od dejanske razporeditev točk in kakovosti animacije. Tako smo lahko naredili zelo stiliziran grafični film, ki prikazuje subjektivno izkušnjo glavnega junaka, obenem pa tudi očiten računalniško generirani film, ki izrablja omejitve in prednosti medija. Ne pretvarja se, da se dogaja v "resničnem" svetu, vseeno pa živi.* **André Bergs**

ZVERJASEC / THE GRUFFALO

Jakob Schuh, Max Lang (Magic Light Pictures / Studio Soi)
Velika Britanija/UK, 2009, DVcam, 26'54"

Film Zverjasec, ki temelji na otroški slikanici avtorice Julie Donaldson in ilustratorja Axla Schefflerja, pripoveduje čarobno zgodbo o miši, ki po gozdu išče orešek. Ker med sprehom srečuje napadalce, ki jo hočejo pojesti, mora biti pogumna miš zelo domiselna, da preživi. Vsem razglasli, da je dogovorjena s strašno pošastjo, z zverjascem.

Based on the children's picture book written by Julia Donaldson and illustrated by Axel Scheffler, The Gruffalo tells the magical tale of a mouse who takes a walk through the woods in search of a nut. Encountering predators who wish to eat him the plucky mouse has to use his wits to survive. He announces that he is meeting a terrible monster, a 'Gruffalo'.

Odlöčitev, da naredita film, ki bo kombinacija računalniške animacije in miniaturnih scen, je bila precej povezana s tem, da bo film zvesto sledil knjigi, kar nam je tudi omogočilo vizualno raziskovanje novega terena. Čeprav sva tri animatorja klasične šole, sva milijonom oboževalcev knjige hotela ponuditi nekaj popolnoma novega in drugačnega. S pomočjo miniaturnih scen sva laže pričarala tridimenzionalen občutek, saj so te scene v skrivenostem temnem gozdu omogočale izdatne podrobnosti in ga naredile očarljivega in otipljivega. Like sva animirala računalniško, saj ta medij daje neizmerno svobodo izraza in igre. **Jakob Schuh, Max Lang**

The decision to make the film using a combination of computer animation and miniature sets had a lot to do with creating a film that was faithful to the original book, and also allowed us to explore new territory visually. Although we are both traditionally trained animators, we really wanted to offer the millions of fans of the book something completely new and different. Building the sets in miniature helped create a three-dimensional feel, allowing for rich detail and a charming, tactile quality to the deep, dark wood. We chose to animate the characters in CG because the medium allows for tremendous freedom of expression and acting.

Ko se tvoja mama spremeni v zver, se marsikaj obrne ...

Začela sva brati scenarij Marcusa Sauermannia in zdel se nama je hecna mala risanka o dečku in pošasti. Ko sva prišla do konca, pa sva dojela, da gre za resno in iskreno zgodbo o ločitvi. Ta izkušnja "prvega branja scenarija" je bila bistven ključ do režijskih odločitev. Zdelo se nama je, da je animacija najboljši medij za upodobitev te zgodbe. Pri pripovedi, igri junakov, umetniških in vizualnih odločitvah sva vedno poskušala najti pravo ravnotežje med prikazom risanih elementov in avtentičnih elementov vsakdanjega življenja. **Johannes Weiland, Uwe Heidschöter**

When your mother has turned into a beast, a lot of things change...

*When we began reading the script by Marcus Sauermann, we thought it was a little funny cartoon story about a boy and a monster. Then, when we reached the end of it, we understood it was a serious and truthful story about divorce. This experience of "reading the script for the first time" was an essential key for direction. Animation seemed to be the perfect medium to tell this story. In terms of storytelling, character acting, artistic and visual choices, we always tried to find a good balance of showing cartoon elements and authentic elements of everyday life. **Johannes Weiland, Uwe Heidschöter***

Pozna 50. leta so in nihče več se ne zmeni za ostarelega zabavljača, ki izvaja prežvečene trike, ko vsi hočejo samo glasen rock. Nekega dne naš junak pusti svoje ponijočje življenje obrobnega čarodeja za sabo in se odpravi na potovanje, na katerem na koncu poti – v odročnih koncih Škotske – najde zvesto oboževalko, ki mu bo za vedno spremenila življenje. Prepričana je, da ta tujec zares zna čarati ... Nostalgični staromodni animirani film Sylvaina Chometa je nastal po predlogi nikoli uporabljenega scenarija, ki ga je francoski igralec in režiser Jacques Tati leta 1956 napisal v obliki pisma svoji odtujeni nezakonski hčeri Helgi Marie-Jeanne Schiel. Zato, kot pravi Chomet, ta film ni ljubezenska zgodbica, ampak govorja predvsem o odnosu med očetom in hčerjo.

It's the late 1950s and no one pays attention anymore to an aging stage entertainer doing the same old magic tricks, when all they want now is loud rock music. One day our hero swaps his humiliating existence as a fringe magician for a journey at the end of which – in remote Scotland – he finds a loyal female fan who will change his life forever. She is convinced that this stranger is able to perform real magic... This nostalgic, old-worldly animated film by Sylvain Chomet is based on an unrealised script written in 1956 by the French actor and director Jacques Tati as a letter to his estranged illegitimate daughter, Helga Marie-Jeanne Schiel. In this regard, in Chomet's view, this isn't a film about a love story, but more about the relationship between father and daughter.

Sylvain Chomet (rojen l. 1963 v Franciji) je leta 1987 diplomiral na striparski šoli v Angoulême. Leta 1988 je kot asistent v studiu Richarda Purduma začel kariero v animaciji. Njegov prvi animirani kratki film *La Vieille Dame et les Pigeons* (Stara dama in golobi) je bil leta 1997 nominiran za oskarja. Istega leta je kratek čas delal v Disneyjevem animacijskem studiu v Toronto. Leta 2002 je dokončal svoj prvi celovečernec *Trojčice iz Belleville*, ki je bil v letu 2004 nominiran za oskarja za najboljši animirani celovečerni film in najboljši pesem. Posnel je tudi del filmskega omnibusa *Paris, je t'aime* (2006).

Zanesenjaški filmski ustvarjalec je prepričan, da je prišel na popolnoma izvirno idejo: animacija ob klasični glasbi! Ko ga poučijo, da je to naredil že neki Američan po imenu "Prisney" (ali nekaj takega), sklene, da bo izvedel svojo različico z orkestrom, ki ga sestavljajo večinoma stare gospe, in animatorjem, ki ga ima zaprtega v ječi. Animiranih je več klasičnih glasbenih del, animator pa medtem načrtuje pobeg.

Allegro non troppo Bruna Bozzetta je veličastno genialna parodija na Disneyjevo *Fantasio*. Kot pri *Fantasio* tudi tu znamenita dela klasične glasbe dobijo animirano podobo, le da tokrat delujejo kot platforma za bizarni nadrealizem, soroden tistemu v *Yellow Submarine* ali montypythonskih animiranih sekvencah. Daleč najboljši del je Ravelov Bolero, v katerem se zgoda o biološki evoluciji začne z enookim izcedkom, ki zraste v gigantskega dinozavra, potem pa spričo človekovega brutalnega vzpona propade. Ravelova erotična glasba je presenetljiva, vendar veličastna dopolnitev te nekonvencionalne interpretacije evolucijske zgodbe, v kateri vsaka nova generacija bitja koraka na iste čutne ritme. *Allegro non troppo*, nenavaden in obenem čudovit film, zaslubi stojčeče ovacije. (Phill Hall, *Wired Magazine*)

An enthusiastic filmmaker thinks he's come up with a totally original idea: animation set to classical music! When he is informed that some American named "Prisney" (or something) has already done it, he decides to do his own version, using an orchestra comprising mostly old ladies and an animator he's kept locked in a dungeon. Several different classical pieces are animated, while the animator plots his escape. Bruno Bozzetto's *Allegro non troppo* is a devastatingly brilliant spoof of Disney's *Fantasia*. As with *Fantasia*, celebrated works of classical music receive animated treatments, but this time around they function as backdrops for bizarre surrealism akin to *Yellow Submarine* or Monty Python's animation sequences. The best segment is easily Ravel's "Bolero," in which the story of biological evolution begins with one-eyed ooze that grows into behemoth dinosaurs only to crumble in the face of man's brutal ascent. Ravel's erotic music provides an unlikely but magnificent partner to this offbeat spin on the evolutionary tale, with each new generation of creature marching to the sensual rhythms. Both weird and wonderful, *Allegro Non Troppo* deserves a standing ovation. (Phill Hall, *Wired Magazine*)

Na ruski perutniški farmi petelinček za ograjo odkrije velikansko jajce. Skriva ga doda v gnezdo bližnje kokoši. Žival, ki se izvali, se precej razlikuje od drugih piščet. Ta jo ustrahujejo in se neizmerno zabavajo ob njenem ponizevanju in izključevanju iz svojih vsakdanjih opravkov. Prvi celovečerec Garrija Bardina je priredba pravljice Hansa Andersena, zasnovana kot muzikal z glasbo Čajkovskega.
"Čeprav je *Grdi raček* film za otroke, je hrkati tudi pristna satira na ruski ultranacionalizem; norčuje se iz grmečega patriotizma in političnih voditeljev, ki so strahopetni, že naslednji trenutek pa imajo polna usta velikih besed in se jim pretiran napuh nabira v tolščo. Bardin rad parodiira državno himno (kar

nekajkrat), ki jo uporabi v bebabem bahaštvu propagandnih filmov. S tega stališča njegov grdi raček začne spominjati na dobrohotnega migranta, ki se, karkoli bo naredil, nikoli ne bo mogel vključiti v negostoljubno družbo, v kateri se je znašel." Marcel Jean

In a Russian poultry run, a cockerel discovers an enormous egg behind the fence. He discretely adds the egg to those in a nest of a nearby hen. The bird that hatches is very different from his sibling chicks, and is bullied by the others who have great fun humiliating him and excluding him from their ceremonies. This is Garri Bardin's first feature, adapted from a story by Hans Christian

Andersen, and presented as a musical with music of Tchaikovsky.
"While functioning as a children's film, *The Ugly Duckling* is also a genuine satire on Russian ultra-nationalism, mocking the thundering patriotism and the political leaders who are cowardly one moment and pompous the next one, made obese by their excess of pride. Bardin enjoys making a parody (several times) of the national anthem, which he portrays with the ridiculous ostentation of propaganda films. From this point of view, his ugly duckling takes on the air of a good-willed immigrant, who, whatever he tries to do, will never be integrated into the unwelcoming society he has fallen into." Marcel Jean

Dino je maček, ki je razpet med dvema bivališčema. Podnevi živi pri Zoé, edinki policijske povelnice Jeanne, ponoc pa v družbi izurenega tatu Nica pleza po pariških strehah. Jeanne je na trnih. Ne le da mora arretirati mačjega vlonilca, ki je zagrešil številne draguljske kraje, voditi mora tudi nadzor nad velikanskim kipom nairobskega kolosa, ki ga je vzel na muho državni sovražnik številka ena, Victor Costa. Gangster je poleg tega kriv za smrt policista, Jeanninega moža in Zoinega očeta. Deklica se je po tej tragediji zavila v molk in ni spregovorila besede. Dogodki se zaostrijo, ko Zoé neke noči nepričakovano naleti na Costa in njegovo tolpo. Lov, v katerem junaki drug drugemu krizajo pot in se razkrijejo zaveznika in sovražna razmerja, se nadaljuje vse do zore in protagonisti zanese do samih notredamskih streh.

Dino is a cat that leads a double life. By day, he lives with Zoe, a little girl whose mother, Jeanne, is a police officer. By night, he climbs over the roofs of Paris in the company of Nico, a very skilful thief. Jeanne is on the edge. Not only does she have to arrest the cat burglar responsible for numerous jewellery thefts, but she also has to perform the surveillance of the Colossus of Nairobi, a giant statue coveted by public enemy number one, Victor Costa. The gangster is also responsible for the death of a police officer, Jeanne's husband and Zoé's father. Following her father's murder, the little girl has withdrawn into silence and hasn't uttered a word. Events will escalate the night that Zoé comes across Costa and his gang by surprise. A chase ensues which continues until dawn and will lead the characters to cross paths, and to help or fight each other, all the way to the rooftops of Notre-Dame.

Sedemletni Natan ne zna brati, zato je nad zbirko knjig, ki mu jo zapusti teta Eleanor, strašno razočaran. Čeprav je rad poslušal tetovo, ko mu je brala, njegovo nezanimanje starše spodbudi, da zbirko prodajo lakomnemu zbiratelju. Ko so knjige prodane, Natan odkrije, da so bile v zbirki same prve izdaje. Pa ne le to: junaki iz teh knjig oživijo. *Hiša pravljic* je animirani celovečerec z zdravim odmerkom magičnega realizma. Film z ekspresivno likovno zasnovno, čustveno in učinkovito glasbo ter prepričljivo zgodbjo o pomenu literarnih temeljev za iščočo se mladino daje videz in občutek izrazite pristnosti. Kot pravi Dominique Monféry, naj bi film izražal občutke otroka, ki je navdušen nad napol resničnim in napol fantazijskim svetom. Ko je bila teta živa, je njena zbirka Natana uvedla v polje fantazije; zdaj, ko je ni več, pa mu iste zgodbe želijo predstaviti resničnost.

Seven-year-old Nat can't read, which makes his inheritance of Aunt Eleanor's collection of books immensely disappointing. Despite his love of having Eleanor read to him, his disinterest encourages his parents to sell the collection to a greedy collector. Once sold, Nat discovers that the library contained only first editions and even more, that the fictional characters come to life. *Eleanor's Secret*, is a feature animation with a healthy dose of magical realism. Including expressive background artwork, an emotional and far-reaching theatrical score, and an effective story about the importance of the literary fundamentals to a struggling youth, the animated movie looks and feels markedly genuine. According to Dominique Monféry, the film is meant to deliver the feeling of a child fascinated with a world half-real and half-fantasy. When she was alive, the aunt's library introduced Nathaniel to the realm of fantasy; but now that she has passed on, those same stories aim to introduce him instead to reality.

Dominique Monféry (1965) je študiral umetnost na CFT Gobelins v Parizu. Sodeloval je v ekipah, ki so ustvarile mednarodno priznane animirane filme in Disneyjevi produkciji, kot so *Notredamski zvonar* (1996), *Tarzan* (1999) in *Atlantida: izgubljeno cesarstvo* (2001). *Destino* (2003), ki ga je režiral in animiral, je bil nominiran za oskarja za najboljši animirani kratki film.

DRUŽINSKI SLON II: HIŠA PRAVLJIC

Kot vsako leto Vzgojno-izobraževalni program animiranega filma Slon pripravlja na Animatek posebne dveurne delavnice, kjer se lahko otroci seznanijo z osnovami animiranega filma, spoznajo optične igrače in v skupinah izdelajo kratke animirane filme. Krajše delavnice so namenjene otrokom od 4. leta dalje. Producjska delavnica je namenjena udeležencem, ki že poznajo osnove animiranja in so stari med 8 in 15 let. Slon na Animateku že tretje leto zapored povabi rezidenčnega mednarodnega mentorja producjske delavnice animiranega filma. Letos bo delavnico vodila Maya Yonesho, japonska mentorica in avtorica animiranih filmov.

By tradition Animateka features special two-hour workshops prepared within The Elephant Educational Animated Film Programme, where children can learn the basics of animation, find out about optical toys and get in groups to make short animated films. Short workshops are intended for children from the age of 4. The production workshop is aimed at children aged 8 to 15 who are familiar with the basics of animation. For the third year now, The Elephant will invite a foreign resident mentor to run the animation production workshop. This year, participants will work under the supervision of Maya Yonesho, a Japanese mentor and animation filmmaker.

Več o avtorici / More about the author: http://homepage3.nifty.com/maya_y.html

Maya Yonesho se je rodila leta 1965 v Hjogo na Japonskem. Na Univerzi za umetnost Kjoto Saga je študirala vizualno oblikovanje in animacijo. Po šestih letih poučevanja likovne vzgoje se je vrnila na fakulteto in na Mestni univerzi za umetnost v Kjotu študirala japonsko slikarstvo ter konceptualno in medijsko umetnost, kot animatorka gline pa je soustvarjala otroški televizijski program. V času študentske izmenjave na Kraljevem kolidžu za umetnost v Veliki Britaniji je na temo "razumemo se, ne da bi razumeli vse jezik" izdelala svoj prvi abstraktnejši animirani kratki film, ki je bil sinhroniziran v 13 mednarodnih jezikov. Ko je leta 1998 magistrirala iz likovne umetnosti, je začela ustvarjati neodvisne filme, med drugim *believe in it*, s katerim je šistega leta osvojila nagrado odličnosti Japonske agencije za kulturo. Med letoma 2002 in 2003 je v okviru študijskega programa japonske vlade za perspektivne umetnike in s podporo umetniške stipendije delala v estonskem studiu Eesti Joonisfilm in z osimi estonskimi knjigoveškimi mojstri ustvarila film *Üks Üks*. Leta 2005 je izdelala napovednik za Mednarodni festival ženskega animiranega filma *Tricky Women*. Njeni filmi so bili na ogled na številnih mednarodnih festivalih in v mnogih muzejih, med drugim v Kunsthalle v nemškem Düsseldorfu in v Muzeju oblikovanja v Estoniji. Vodi najrazličnejše delavnice animiranega filma. V času vodenja dunajske delavnice je posnela film *Wiener Wuast*, resnični pogled na mesto s svojimi risbami v rokah. Na enak način je delavnice izvajala na Tajvanu, Norveškem, Hrvaškem, v Izraelu, na Poljskem, Portugalskem, v Italiji, Koreji, ZDA, Srbiji in Latviji in jih bo nadaljevala kot svojo življensko delo. Od leta 2000 predava na Univerzi Kjoto Seika.

"Daumenreise je delavnica animacije,
ki temelji na enaki metodi kot "Wiener Wuast" – snemanje manjših risb,
ki jih držimo v rokah, na podlagu
dejanskega razgleda pred nami, kar
sem vsepovsod po svetu že delala
s študenti, otroki in prijatelji. Filme
smo snemali na Tajvanu, Norveškem,
Hrvaškem, v Izraelu, na Poljskem,
v ZDA, Južni Koreji itd., od leta
2007 dalje skupaj v 15 državah. V
prihodnosti načrtujem "film o Zemlji" –
snemanje z lune, pri čemer bo Zemlja
zadnja podlaga."

"Daumenreise is an Animation
workshop project based on the same
method as "Wiener Wuast", which
has been done all over the world
with students, children and friends –
shooting small drawings in our hands
with the real view in the background.
Films have been made in Taiwan,
Norway, Croatia, Israel, Poland,
USA, South Korea etc., altogether
in 15 countries since 2007. In the
future I plan to make "the Earth film"
– shooting from the Moon with the
Earth as the final background."

Animateka vabi na zdravico ob ustanovitvi Društva slovenskega animiranega filma.

Društvo slovenskega animiranega filma (www.dsaf.si) je novoustanovljena organizacija, ki združuje avtorje in ustvarjalce animiranih filmov. Prvenstveno je društvo usmerjeno v zagotavljanje boljših pogojev na področju producije animiranega filma in njegove prepoznavnosti pri širših strokovnih in splošnih javnostih, tako doma kot v tujini. Društvo omogoča prenos izkušenj in znanj neposredno med ustvarjalci, hkrati pa prek različnih predavanj, izobraževanj in pretoka informacij skrbi za ozaveščanje posameznikov in različnih ciljnih skupin o procesih ustvarjanja ter umetnostne multidisciplinarnosti v animiranem filmu. Poleg zastopanja skupnih interesov želi društvo obuditi nacionalni festival animacije, v tujini pa slovensko produkcijo predstavljati na bolj sistematisiran in reprezentativnem način, namesto da je prepuščena zgolj večjemu ali manjšemu angažmaju posameznikov.

Animateka invites you to join us for a toast to the brand new Slovenian Animated Film Society.

The Slovenian Animated Film Society (www.dsaf.si) is a newly established organisation bringing together animation authors and filmmakers. The society is primarily focusing on securing better conditions in animated film production and the visibility of animation with experts and the general public both in Slovenia and abroad. The society enables a direct exchange of know-how between artists, and helps raise awareness of the general public and various target audiences about the processes of filmmaking and artistic multidisciplinarity in animation through lectures, educational programmes and flow of information. In addition to protecting common interests, the society plans to revive the national animation festival, as well as start presenting the Slovene production abroad in a more systematic and representative way instead of leaving it to its fate in the hands of more or less enthusiastic individuals.

premikov, ki so hkrati mehki in pristni, in kjer so tone smeha, veliko podpore, veliko izzivov in tudi marskaj, v kar se lahko zaljubiš. Je sinonim za neusahljivo, skoraj dvajsetletno predanost ustvarjanju kakovostnega filma. Več filmov, ki jih je soustvaril Basset, je bilo nominiranih za oskarja. Napisal je glasbo za filme *Macje življenje*, *Mia in Migo*, *Preroka žab*, *Patare et le jardin potager*, *Deček s kraguljčkom*, *Moj ljubi mali planet*, *Menih in riba* in za stotine drugih kratkih animiranih filmov.

Serge Basset is a French music composer. He is particularly known for his work as a composer of soundtracks for animated films, having composed more than 400 such works since 1980. He has also worked on the creation of music for documentaries, children's series, and commercials. He is the composer of many original soundtracks for Jacques Rémy Girerd, Michaël Dudok De Wit, Alain Gagnol, Jean Loup Felicioli, Youri Tcherenkov, Jean Luc Greco, Laurent Pouvat, etc.

Serge Basset works at Folimage, a French animation studio, a centre for frame-by-frame creativity where almost anything is possible. Folimage is a magical place that has been built up gradually thanks to the will, the talent and the imagination of around a hundred artists and technicians. It's a factory crammed with bold ideas, tubes of colour, reasonable computers, pencil leads, sharpeners, light-boxes, friendly cameras, plasticine characters, small movements both tender and sincere, gales of laughter, lots of support, lots of challenges but lots to fall in love with. It is synonymous with an unfailing determination, over almost twenty years, to produce films of quality.

Many of Basset's works have been nominated for Academy Awards. He composed scores for films *A cat in Paris*, *Mia and the Migo*, *Raining cats and frogs*, *Spud and the vegetable garden*, *Charlie's Christmas*, *My little planet*, *The monk and the fish*, and for hundreds of animated short movies.

Na festivalu bo prisotnih okoli **80 gostov**, med njimi največ avtorjev in avtoric s filmi v tekmovalnem programu. Pogovori z njimi ob rogljiču v kavi bodo potekali od **srede, 7. decembra**, do sobote, **10. decembra**, ob **12.30** v Kinodvorovi Kavarni.

Na ogled bodo lutke, scena, slikarska ozadja, scenografski elementi, fotografije iz avtorjevega zadnjega animiranega filma Koyaa. Vse skupaj se povezuje in dopolnjuje v gibljivo sliko, ponovno oživljeno v galerijskem prostoru. Razstava želi izpostaviti kompleksno povezovanje likovne, kiparske, fotografiske in video ustvarjalnosti, ki se sintetizirajo kot celostni postopek izdelave lutkovnega animiranega filma.

This interdisciplinary exhibition by Kolja Saksida gives an insight into the process of creating a puppet animation. Put on display will be puppets, scenes, set designs, scene elements and photos from the author's latest animated film Koyaa. All this will come together in a moving picture brought back to life in a gallery space. The exhibition aims to draw attention to the complexity of this creative blend of fine art, sculpture, photography and video, synthesized into an integral process of making a puppet animation.

Vizualije/visuals:
Mitja Manček, Timon Leder, Zarja Menart, Matija Dolenc, Katja Goljat, Lucijan Prelog, Anka Kočevar, Tina Avšič, Gregor Purgaj, Maruša Štibl, Miha Deisinger, Jani Peternelj.

Avdiovizualni koncert predstavlja ustvarjalno srečanje glasbe z vizualno umetnostjo, združuje avtorsko muziciranje mlade prekmurske ŠKM bande (ki v post-jazzrock maniri preigrava na eni strani udarne, impulzivne ritme in na drugi strani umirjene, ambientalne) z ustvarjalnostjo mladih slovenskih vizualnih umetnikov. Glasbeni komadi ŠKM bande so relativno kratki, njihov nastop pa intenzivno doživetje, ki bo še toliko izrazitejše ob vizualni spremjam avtorskega animiranega filma in video-uprizoritvenih prispevkov.

The audio-visual concert is where music meets visual art. This performance is a synchrony of original music by young musicians in ŠKM banda from Prekmurje with a post-jazz rock take on powerful impulsive beats on the one hand and slow ambient rhythms on the other, and creativity of young Slovene visual artists. Songs by ŠKM banda are relatively short and their performance is a powerful experience, intensified further by the visual accompaniment of original animations and videos.

Phonovideo je doma izdelan vizualni pripomoček za prikaz in montažo kratkih animacij na analogen način, brez pomoči računalnika. Gre za kombinacijo tehnike fenakistoskopa iz leta 1832 in turntablisma. Osnovno opremo sestavljajo dva gramofona, dve kamери, video mešalka, izhodna ali snemalna naprava in kup "plošč" z natisnjeniimi animacijami. Lahko bi rekli, da je to video ustrezница klasični DJ-opremi. Projekt se od drugih vizualizacijskih loči po tem, da omogoča ročno manipulacijo ustvarjene animacije, da gledalcem prikaže postopek nastanka animacije in da animacije obstajajo v obliki fizične "plošče". Čeprav ljudje, ki se ne ukvarjajo s filmom ali sorodnimi področji, postopek včasih težko razumejo, je to vsaj potencialno mogoče, česar ne bi mogli trditi za digitalni film, pri katerem je tehnika lahko jasna izključno programerjem. Phonovideo lahko razumemo kot odgovor na sodobno digitalno kulturo.

<http://www.clemenskogler.net/phonovideo>

Phonovideo is a homemade visual tool that allows to display and mix short animations in an analogue way without computers and alike. It's a mixture of the phenakistoscope technique from 1832 and turntablism. The basic setup is two turntables, two cameras, a videomixer, some output or recording device and a pile of "records" with printed-on animations. You can think of it as a video equivalent to a classic dj-setup. The thing that sets this project apart from other visualization projects is that the outcome animation can be manipulated by hand and the audience can see how the animations are created and the animations do exist as a physical "record". Although the process is sometimes not easy to understand for people who are not engaged in film it is at least understandable in contrast to digital filmmaking were you have to be a programmer to understand the technique behind it. Phonovideo can be seen as a counter movement to contemporary digital culture.

MEDNARODNI FESTIVAL ANIMIRANEGA FILMA ANIMATEKA 2011 SO OMOGOČILI:
THE INTERNATIONAL ANIMATED FILM FESTIVAL ANIMATEKA 2011 WAS MADE POSSIBLE WITH THE SUPPORT OF:

EVROPA LJUBI EVROPSKE FESTIVALE

EUROPE LOVES EUROPEAN FESTIVALS

Festivali kot intimni prostori za srečevanja, izmenjave in odkritja ponujajo vznemirljivo in dostopno okolje za široko paleto talentov, zgodb in čustev evropske kinematografije.

Program MEDIA Evropske unije si prizadeva za promocijo evropskega avdiovizualnega izročila, spodbujanje mednarodne izmenjave filmov in negovanje konkurenčnosti v avdiovizualni industriji.

Program MEDIA priznava kulturno, izobraževalno, družbeno in gospodarsko vlogo festivalov, kar vsako leto dokazuje s finančno podporo več kot 90 festivalom, ki skoraj trem milijonom ljubiteljev filma prikažejo več kot 20.000 evropskih del.

Letos program MEDIA praznuje dvajseto obletnico, zato se s posebnim ponosom oziramo na velik napredek, ki ga je evropska filmska industrija v tem obdobju dosegla, in poudarjamo nezmanjšano prizadevanje za razvoj evropskega filma v prihodnosti.

MEDIA z veseljem podpira 8. Mednarodni festival animiranega filma Animateka 2011 in vsem obiskovalcem festivala želi prijeten in navdihna poln dogodek.

EUROPE LOVES CINEMA

Program MEDIA / MEDIA PROGRAMME

Evropska unija / European Union

www.ec.europa.eu/information_society/media/index_en.htm

A privileged place for meetings, exchanges and discovery, festivals provide a vibrant and accessible environment for the widest variety of talent, stories and emotions that constitute Europe's cinematography.

The MEDIA Programme of the European Union aims to promote European audiovisual heritage, to encourage the circulation of films outside their own borders and to foster audiovisual industry competitiveness.

The MEDIA Programme acknowledges the cultural, educational, social and economic role of festivals by co-financing more than 90 festivals each year, programming more than 20 000 screenings of European works to nearly 3 million audience across Europe.

This year the MEDIA programme is celebrating its 20th Birthday so we are especially proud to look back on how much the European film industry has developed over this period, and to stress our continued commitment to supporting the EU film industry in the future.

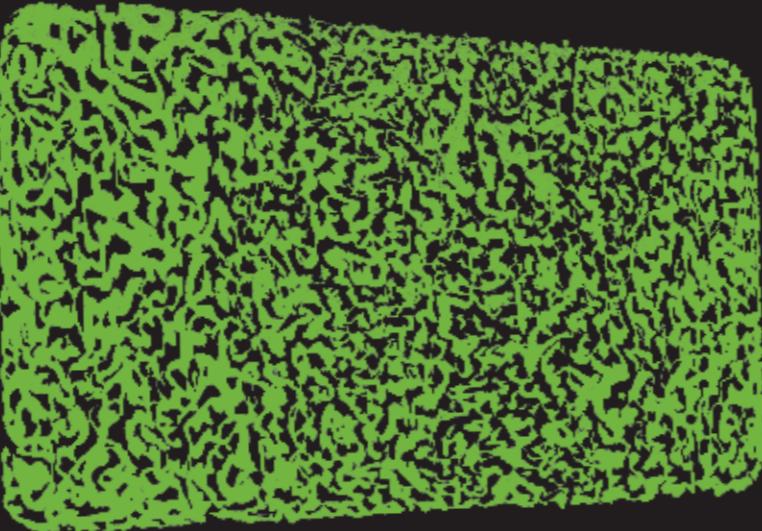

MEDIA is pleased to support the 8th edition of the Animateka International Animated Film Festival and we extend our best wishes to all of the festival goers for an enjoyable and stimulating event.

Davide Toffolo: *Italijanska zima*

152 strani, mehka vezava

Cena: 14 EUR

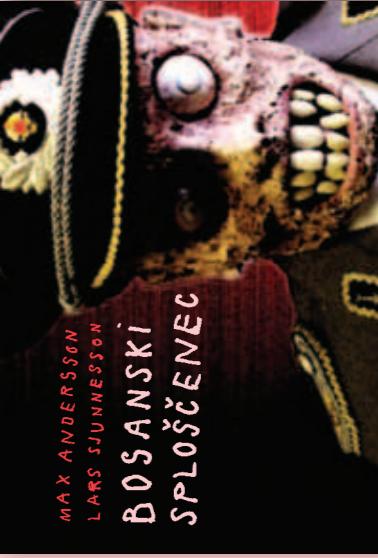

Davide Toffolo v stripu oživi stopenin na približno 300.000 Slovencev, ki jih je fašistični režim od jeseni leta 1941 pregašnil in zapri v razna koncentracijska taborišča po Italiji. Ta risani roman je eden redkih poskusov italijanskega opravilca za dogodke iz polpretekle zgodovine in obenem kaže, da strip lahko še kako dobro spregovori o resnih in bolečih zgodovinskih temah.
