

## **DOKUMENTRANI CELOVEČERNI FILM LGBT\_SLO\_1984**

### **LOGLINE**

Začelo se je leta 1984 in traja še danes. 35 let slovenskega LGBT gibanja skozi prizmo aktivizma in kulture.

### **KRATEK SINOPSIS**

Festival Magnus - homoseksualnost in kultura, leta 1984 v ŠKUC-u v Ljubljani, je prelomni dogodek slovenskega LGBT gibanja in obenem začetek LGBT filmskega festivala, ki velja za najstarejši filmski festival v Evropi. Prva leta zaznamuje močno klubsko dogajanje (edino na prostorih nekdanje države) in organizacija različnih prireditev in festivalov. Slovensko LGBT gibanje se tako zapiše v zgodovino kot eno najbolj progresivnih gibanj tistega časa, v različnih oblikah in formah deluje tudi danes.

### **IZJAVA REŽISERJA**

Med celotnim kreativnim procesom mi je bilo izjemno pomembno, da se film ne zreducira na politični pamflet, ampak da se umesti v širši družbeni kontekst. Zanimala sta me dva aspekta: kako se je slovensko lgbt gibanje razvijalo pod različnimi pritiski družbe in kako sta aktivizem in kultura vplivala na razvoj lgbt skupnosti v širši družbeni sferi.

### **LOGLINE**

It began in 1984, and still goes on today. 35 years of the LGBT movement in Slovenia, through the prism of activism and culture.

### **SHORT SYNOPSIS**

The Magnus Festival - Homosexuality and Culture, which took place in 1984 in ŠKUC, Ljubljana was a turning point for the Slovenian LGBT movement and the beginning of the LGBT Film Festival, the oldest LGBT film festival in Europe. The first years were characterised by club activities (unique in former Yugoslavia) and the organisation of events and festivals. The Slovenian LGBT movement became one of the most progressive movements of that time and is still active today through different forms and organisations.

### **DIRECTOR'S STATEMENT**

During the entire creative process, it was very important to me that the film is not reduced to a political pamphlet of the movement itself, but that it is placed within the wider social context. I was interested in two aspects: how the Slovenian LGBT movement developed under various types of pressure from various parts of society and how the activism and culture of the LGBT movement influenced the development of the LGBT community and the wider social sphere.
