## SYNOPSIS

In a single moment, the entire life of a girl Una is turned upside down; her grandpa is abducted by aliens and her mum collapses and ends up in a hospital. Una, in her basement, discovers that her grandpa is an alien himself whose spaceship hit the planet some time ago, and there's still his pilot, a small grumpy robot. Una and the robot have less than 24 hours to find and rescue her grandpa. This extraordinary adventure will lead to a new friendship, the rational robotic logic will be replaced by emotions and Una's selfless love will save her partly alien family.

## DIRECTOR'S NOTE

Through a friendship between a little girl and an alien robot **My Grandpa** tells a story of the life giving power of love. It is a fantasy adventure for audiences aged 7 to 12. We believe in making interesting films with important messages for the youth, films they will grow with and learn from. The message of this film is universal: love can give life. In an increasingly individualistic world, we feel it is important to encourage young people towards fellowship, friendships and love – values which will enrich their lives.
